MEMORANDUM

DATE: March 8, 2007

TO: Montgomery County Planning Board

FROM: Catherine Conlon, Supervisor CTC
Development Review Division
(301) 495-4542

SUBJECT: Informational Maps and Summary of Record Plats for the Planning Board Agenda for March 22, 2007

The following record plats are recommended for APPROVAL, subject to the appropriate conditions of approval of the preliminary plan and site plan, if applicable, and conditioned on conformance with all requirements of Chapter 50 of the Montgomery County Code. Attached are specific recommendations and copies of plat drawings for the record plat. The following plats are included:

220070590 – Wootten Subdivision (1)
220070750 – Norwood Estates (1)
220061240 – Greenwich Forest (1)
220070110 – Kensington Gardens
PLAT NO. 220070590

Wootten Subdivision
Located on Sandy Spring Road (MD 198), approximately 200 feet east of Dino Drive
RC zone; 1 lot 1 Outlot
Private Well, Private Septic
Master Plan Area: Fairland
Howard Wootten, Jr., Applicant

This record plat has been reviewed by MNCPPC staff and other applicable agencies as documented on the attached Record Plat Review Sheet. Staff has determined that the plat complies with Preliminary Plan No. 120060230, as approved by the Board; and that any minor modifications reflected on the plat do not alter the intent of the Board’s previous approval of the preliminary plan.

MONTGOMERY COUNTY PLANNING BOARD

OPINION

Preliminary Plan No. 120060230
NAME OF PLAN: Wooten Subdivision

The date of this written opinion is OCT 11, 2006 (which is the date that this opinion is mailed to all parties of record). Any party authorized by law to take an administrative appeal must initiate such an appeal within thirty days of the date of this written opinion, consistent with the procedural rules for the judicial review of administrative agency decisions in Circuit Court (Rule 7-203, Maryland Rules).

INTRODUCTION

On August 18, 2005, Howard L. Wooten, Jr. ("Applicant") submitted an application for the approval of a preliminary plan of subdivision of property in the Rural Cluster (RC) zone. The application proposed to create one (1) lot on 8.61 acres of land located on the north side of Sandy Spring Road, approximately 150 feet east of Dino Drive, in the Fairland Master Plan ("Subject Property"). The application was designated Preliminary Plan No. 120060230 ("Preliminary Plan"). On June 22, 2006, the Preliminary Plan was brought before the Montgomery County Planning Board for a public hearing. At the public hearing, the Planning Board heard testimony and received evidence submitted in the record on the application.
The record for this application ("Record") closed at the conclusion of the public hearing, upon the taking of an action by the Planning Board. The Record includes: the information on the Preliminary Plan Application Form; the Planning Board staff-generated minutes of the Subdivision Review Committee meeting(s) on the application; all correspondence and any other written or graphic information concerning the application received by the Planning Board or its staff following submission of the application and prior to the Board's action at the conclusion of the public hearing, from the applicant, public agencies, and private individuals or entities; all correspondence and any other written or graphic information issued by Planning Board staff concerning the application, prior to the Board's action following the public hearing; all evidence, including written and oral testimony and any graphic exhibits, presented to the Planning Board at the public hearing.

SITE DESCRIPTION

The Subject Property, Outlot C, contains 8.61 acres and is zoned Rural Cluster. The site has frontage on Spencerville Road (MD 198) and is in the Fairland Master Plan area. Access to the site is currently allowed on a shared driveway that also serves 5 other homes.

The Subject Property is in the Lower Patuxent, a Use I-P watershed that drains to the Rocky Gorge Reservoir and is within the Patuxent River Primary Management Area ("PMA"). Topography is rather flat; there are no streams or forest on the property.

PROJECT DESCRIPTION

This Preliminary Plan proposes to create one (1) lot for the construction of a one-family detached dwelling unit. The application proposes using the cluster method of development, which requires that 60% of the site remain as open space. This plan anticipates a 5.3-acre lot and a new 3.3-acre outlot. A portion of the proposed lot will be placed in a Category I forest conservation easement. An open space easement will be placed on the entire outlot and a small portion of the proposed lot. The Applicant has signed an Agricultural Declaration of Intent and proposes to continue agricultural activities on the front (southern) portions of the Subject Property, including all of the outlot. The site is partially within the Patuxent PMA, which carries with it a 10% imperviousness limitation. The plan is well under the 10% limitations.

Access to the new lot will be to Spencerville Road via an existing, shared driveway. There is an existing easement agreement between six property owners that allows for the use and maintenance of the driveway between the parties. The Subject Property is included in the easement agreement. SHA has informed staff that they do not object to the proposed lot using the driveway. Fire and Rescue has also reviewed and approved the access to the proposed lot.
MASTER PLAN COMPLIANCE

The Fairland Master Plan does not specifically identify the Subject Property for discussion but does give general guidance and recommendations to maintain the low density, residential character of the Patuxent area, which this plan does.

ENVIRONMENTAL COMPLIANCE

A Natural Resources Inventory/Forest Stand Delineation (NRI/FSD #4-05263) was approved on April 29, 2005. Aside from the Patuxent River PMA, the 11.35 acre site has no streams, stream buffers or forest.

Forest Conservation

The Applicant submitted a preliminary forest conservation plan for the non-agricultural portions of the Subject Property as part of the Preliminary Plan. Under Section 22A-12(f) of the Montgomery County Code, properties in agricultural resource areas must plant or retain a certain percentage of forest on-site. Since there is no forest on this site, the Applicant will meet the afforestation threshold by planting 1.07 acres of forest on the Subject Property. This forest will be permanently protected by a Category I forest conservation easement.

STAFF RECOMMENDATION

Staff found that the Preliminary Plan conforms to the Fairland Master Plan, meets all necessary requirements of the Subdivision Regulations and Zoning Ordinance. As such, Staff recommended approval of the Preliminary Plan subject to conditions.

FINDINGS

Having given full consideration to the recommendations of its Staff; the recommendations of the applicable public agencies\(^1\); the Applicant's position; and other evidence contained in the Record, which is hereby incorporated in its entirety into this Opinion, the Montgomery County Planning Board finds, based on the uncontested evidence of record and with the conditions of approval, that:

a) The Preliminary Plan No. 120060230 substantially conforms to the Fairland Master Plan.

\(^1\) The application was referred to outside agencies for comment and review, including the Washington Suburban Sanitary Commission, the Department of Public Works and Transportation, the Department of Permitting Services and the various public utilities. All of these agencies recommended approval of the application.
Public facilities will be adequate to support and service the area of the proposed subdivision.

The size, width, shape, and orientation of the proposed lot are appropriate for the location of the subdivision.

The application satisfies all the applicable requirements of the Forest Conservation Law, Montgomery County Code, Chapter 22A.

The application meets all applicable stormwater management requirements and will provide adequate control of stormwater runoff from the site. This finding is based on the determination by the Montgomery County Department of Permitting Services ("MCDPS") that the Stormwater Management Concept Plan meets MCDPS’ standards.

The Record of this application does not contain any contested issues; and, therefore, the Planning Board finds that any future objection, which may be raised concerning a substantive issue in this application, is waived.

CONDITIONS OF APPROVAL

Finding Preliminary Plan No. 120060230 in accordance with the purposes and all applicable regulations of Montgomery County Code Chapter 50, the Planning Board approves Preliminary Plan No. 120060230 subject to the following conditions:

1) Approval under this preliminary plan is limited to one (1) lot for one residential dwelling unit.

2) The Applicant shall comply with the conditions of approval for the preliminary forest conservation plan. The Applicant must satisfy all conditions prior to recording of plat(s) or MCDPS issuance of sediment and erosion control permits.

3) Record plat to reflect a Category I easement over all areas of forest conservation and an open space easement over all remaining area of open space.

4) Record plat to contain a note, “Access Denied” along property frontage on Spencerville Road.

5) Compliance with conditions of MCDPWT letter dated October 25, 2005, unless otherwise amended.

6) Compliance with the conditions of the MCDPS stormwater management approval dated April 28, 2005.
7) Compliance with conditions of the MCDPS (Health Dept.) septic approval dated June 2, 2006.

8) Other necessary easements.

This Preliminary Plan will remain valid for 36 months from its Initiation Date (as defined in Montgomery County Code Section 50-35(h), as amended). Prior to the expiration of this validity period, a final record plat for all property delineated on the approved preliminary plan must be recorded among the Montgomery County Land Records or a request for an extension must be filed.

[CERTIFICATION OF BOARD VOTE ADOPTING OPINION ON FOLLOWING PAGE]
CERTIFICATION OF BOARD VOTE ADOPTING OPINION

At its regular meeting, held on Thursday September 14, 2006, in Silver Spring, Maryland, the Montgomery County Planning Board of The Maryland-National Capital Park and Planning Commission on motion of Commissioner Bryant seconded by Commissioner Wellington, by a vote of 3-2, with Commissioners Bryant, Wellington, and Robinson present and voting in favor of the motion, and Chairman Hanson and Vice Chair Perdue abstaining, ADOPTED the above Opinion which constitutes the final decision of the Planning Board and memorializes the Board's findings of fact and conclusions of law for Preliminary Plan No. 120060230, Wooten Subdivision.

MONTGOMERY COUNTY PLANNING BOARD

OPINION

Preliminary Plan 120060720
NAME OF PLAN: Bryant's Nursery Road

INTRODUCTION

The date of this written opinion is JUL 13 2006 (which is the date that this opinion is mailed to all parties of record). Any party authorized by law to take an administrative appeal must initiate such an appeal within thirty days of the date of this written opinion, consistent with the procedural rules for the judicial review of administrative agency decisions in Circuit Court (Rule 7-203, Maryland Rules).

On 1/12/06, Atlantic Heritage Construction, LLC ("Applicant") submitted an application for the approval of a preliminary plan of subdivision of property in the RE-2 zone. The application proposed to create 2 lots on 8.05 acres of land located on the northwest side of Bryant's Nursery Road, approximately 200 feet northwest of the intersection with Holly Grove Road, in the Cloverly master plan area. The application was designated Preliminary Plan 120060720 ("Preliminary Plan"). On 6/01/06, the Preliminary Plan was brought before the Montgomery County Planning Board for a public hearing. At the public hearing, the Planning Board heard testimony and received evidence submitted in the record on the application.
The record for this application ("Record") closed at the conclusion of the public hearing, upon the taking of an action by the Planning Board. The Record includes: the information on the Preliminary Plan Application Form; the Planning Board staff-generated minutes of the Subdivision Review Committee meeting(s) on the application; all correspondence and any other written or graphic information concerning the application received by the Planning Board or its staff following submission of the application and prior to the Board's action at the conclusion of the public hearing, from the applicant, public agencies, and private individuals or entities; all correspondence and any other written or graphic information issued by Planning Board staff concerning the application, prior to the Board's action following the public hearing; all evidence, including written and oral testimony and any graphic exhibits, presented to the Planning Board at the public hearing.

SITE DESCRIPTION

Part of Parcel 125 is located on the northwest side of Bryant's Nursery Road, approximately 200 feet northwest of the intersection with Holly Grove Road. ("Subject Property"). The Subject Property contains 8.05 acres and is zoned RE-2.

PROJECT DESCRIPTION

This is a preliminary plan of subdivision to create two (2) lots for the construction of two (2) one-family detached dwelling units. The proposed lots will be served by private well and standard private septic. Access to the Subject Property will be via a shared driveway from Bryants Nursery Road.

MASTER PLAN COMPLIANCE

The Cloverly Master Plan did not specifically address the Subject Property but did provide general guidance and recommendations for development patterns and density. These recommendations were designed to provide a transition between the suburban areas to the east and the agricultural areas to the west and to protect Darnestown's residential character. The Master Plan confirmed the RE-2 zoning, and the current preliminary plan comports with the RE-2 zone development standards.

TRANSPORTATION

Site Location, Access, Circulation, and Transportation Facilities

The Subject Property is located along Bryants Nursery Road, to the south of Norbeck Road Extended. Access to the proposed dwelling units is proposed from Bryants Nursery Road, which is designated as a rustic road between Norwood Road and New Hampshire Avenue (MD 650).
Master Plan Roadways and Pedestrian/Bikeway Facilities

The Approved and Adopted 1997 *Cloverly Master Plan* includes the following nearby master-planned roadway, bikeway, and pedestrian facilities:

1. Norbeck Road Extended, as an east-west two to four-lane major highway (M-18) with a minimum right-of-way width of 150 feet between Layhill Road to the west and MD 650 to the east, with a proposed rural streetscape and a Class I bikeway (PB-33); also a dual bikeway (DB-21; i.e., a shared-use path and bike lane) in the Countywide Bikeways Functional Master Plan. This roadway connects Norbeck Road (MD 28) with Spencerville Road (MD 198).

2. Bryants Nursery Road, between Norwood Road to the southwest and MD 650 to the northeast, as a rustic road.

Local Area Transportation Review

The Preliminary Plan, consisting of two single-family detached dwelling units, will generate less than 30 total peak hour trips during the weekday morning (6:30 a.m. - 9:30 a.m.) and evening (4:00 p.m. - 7:00 p.m.) peak periods (two total peak hour trips, respectively). Therefore, the subject development is not required to satisfy Local Area Transportation Review.

Cohasset Drive

Cohasset Drive, which terminates at the southern edge of the Subject Property, was originally recommended by the Department of Public Works and Transportation (DPWT) for dedication as a cul-de-sac. If the cul-de-sac were dedicated, it would encroach into the stream valley buffer. Staff's evaluation of the preliminary plan balanced the need to protect the natural environment with the access issue and determined that the extension of the Cohasset Drive cul-de-sac is not necessary.

ENVIRONMENT

The 10.14-acre site lies within the Northwest Branch watershed (Use IV waters). The Bryant's Nursery Tributary of Northwest Branch traverses through the western portion of the site. The stream's floodplain, a small wetland, and the environmental buffer for the stream and wetland also lie within the site. The environmental buffer encompasses 6.11 acres of the site, of which 3.13 acres are in forest cover. The forest is a bottomland, mixed hardwood stand dominated by red maple and sycamore. White ash, tulip poplar, and black walnut are also common trees in the forest.
The eastern portion of the property includes individual trees, some of which are of specimen size. There are also large and specimen size trees adjacent to the Subject Property on Parcel 251. One offsite tree is a 62" black gum.

Forest Conservation

The preliminary forest conservation plan proposes to retain all of the existing forest (4.03 acres), which would be placed in a Category I conservation easement. The conservation easement would lie within proposed Lot 1.

Staff found that the forest retention area is configured so that there is enough separation between the proposed house for Lot 1 and the conservation easement to allow for usable yard areas on the lot. Staff recommended that permanent markers, such as permanent fences or signs, be installed along the conservation easement boundary so that the lot owner is aware of the location of the conservation easement.

The preliminary forest conservation plan includes a tree protection component for large trees that are proposed to be retained onsite and adjacent to the site. Two specimen trees on the site are proposed for removal because the house and septic field for proposed Lot 1 would be located near or over these trees. The proposed driveway and ingress/egress/utility easement to serve Lot 1 has been configured to protect several large and specimen trees on and off the site. Staff found that the proposed limits of disturbance will adequately protect these specific trees and recommended that a final tree save plan be part of the final forest conservation plan. The final tree save plan would identify additional tree care measures, if needed, for those specimen trees that are proposed for retention. In addition, staff recommended that potential impacts to trees on adjacent Lot 19 be identified by the Applicant's arborist and that the affected property owner be notified of these possible impacts.

Staff found that the preliminary forest conservation plan, with staff's recommended conditions, met the requirements of the County Forest Conservation Law.

Environmental Buffers

The environmental buffer is located on proposed Lot 1. The buffer and the forest within the buffer area are to be protected with a Category I conservation easement. In addition, staff recommended against the dedication of right-of-way for a potential cul-de-sac for Cohasset Drive. The cul-de-sac would not serve any existing or proposed development and would involve filling in sections of streams and loss of priority forest.
STAFF RECOMMENDATION

Staff found that the Preliminary Plan conforms to the Cloverly Master Plan and meets all necessary requirements of the Subdivision Regulations. As such, Staff recommended approval of the Preliminary Plan, subject to conditions.

FINDINGS

Having given full consideration to the recommendations of its Staff; the recommendations of the applicable public agencies; the Applicant's position; and other evidence contained in the Record, which is hereby incorporated in its entirety into this Opinion, the Montgomery County Planning Board finds, based on the uncontested evidence of record, that subject to the conditions of approval:

a) The Preliminary Plan No. 120060720 substantially conforms to the Cloverly Master Plan.

b) Public facilities will be adequate to support and service the area of the proposed subdivision.

c) The size, width, shape, and orientation of the proposed lots are appropriate for the location of the subdivision.

d) The application satisfies all the applicable requirements of the Forest Conservation Law, Montgomery County Code, Chapter 22A.

e) The application meets all applicable stormwater management requirements and will provide adequate control of stormwater runoff from the site. This finding is based on the determination by the Montgomery County Department of Permitting Services ("MCDPS") that the Stormwater Management Concept Plan meets MCDPS' standards.

f) The Record of this application does not contain any contested issues; and, therefore, the Planning Board finds that any future objection, which may be raised concerning a substantive issue in this application, is waived.

---

1 The application was referred to outside agencies for comment and review, including the Washington Suburban Sanitary Commission, the Department of Public Works and Transportation, the Department of Permitting Services and the various public utilities. All of these agencies recommended approval of the application.
CONDITIONS OF APPROVAL

Finding Preliminary Plan No. 120060720 in accordance with the purposes and all applicable regulations of Montgomery County Code Chapter 50, the Planning Board approves Preliminary Plan No. 120060720, subject to the following conditions:

1) Approval under this preliminary plan is limited to two (2) residential lots for the construction of two (2) one-family detached dwelling units.

2) Forest retention areas and environmental buffers to be placed in Category I conservation easement. Easement to be shown on record plat.

3) Do not extend Cohasset Drive right-of-way into the environmental buffer on the site.

4) Compliance with the conditions of approval of the preliminary forest conservation plan. Conditions include, but are not limited to, the following:
   
a. Revise the preliminary forest conservation plan to indicate that 1.22 acres of existing forest and up to 2.98 acres of newly planted forest within the conservation easement may be used as a forest mitigation bank subject to M-NCPPC staff approval of a plan for planting and/or managing for natural regeneration.
   
b. Final forest conservation plan to include permanent markers (such as permanent fences or signs) to clearly identify boundaries of the Category I conservation easement.
   
c. Final forest conservation plan to include a final tree save plan that covers additional tree care measures for individual specimen trees proposed for retention and that identifies trees on Lot 19 that may be impacted. The applicant shall notify the affected property owner on Lot 19 of such impacts.

5) Record plat to reflect common ingress/egress and utility easements over all shared driveways.

6) Access and improvements as required to be approved by SHA prior to issuance of access permits.

7) The Applicant shall comply as requested by the Maryland State Highway Administration (SHA) in the letter dated May 18, 2006:
   
a. For Norbeck Road Extended: the Applicant shall place in reservation the area shown on Attachment No. 2 in the Transportation Planning memo ("Reservation Area B") until a final Record of Decision for the MD 28/MD
198 Corridor Improvement Study is issued by the FHWA, and that Record of Decision does not include Reservation Area B, or any portions thereof, within the final Norbeck Road Extended/MD 28/MD 198 alignment.

8) At least 90 days prior to submission of any building or construction permit for the subject development, the applicant shall provide a certified written notice to SHA, Engineering Access Permits, Division Office of Highway Development regarding applicant's intent to proceed forward with the proposed development on the site. The applicant shall concurrently send a copy of this letter to the Maryland-National Capital Park and Planning Commission, c/o Chief, Transportation Planning.

9) The Applicant shall locate all site improvements outside of Reservation Area B until the reservation requirements (according to Condition 7 above) for Norbeck Road Extended/MD 28/MD 198 are met.

10) The final record plat shall delineate Reservation Area B. The extent of reservation shown on the final record plat shall conform to those limits requested/identified by SHA per Attachment No. 2 in the Transportation Planning memo.

11) Consistent with the 1997 Approved and Adopted Cloverly Master Plan, dedicate and show on the final record plat right-of-way along Bryants Nursery Road that provides for a minimum of either 35 feet from the roadway centerline, or 70 feet from the opposite roadway right-of-way line.

12) Limit future development on the property as part of this preliminary plan to a maximum of two single-family detached dwelling units, which shall be served by a single shared access driveway off Bryants Nursery Road.

13) Compliance with conditions of DPWT letter dated, April 13, 2006, unless otherwise amended.

14) Compliance with the conditions of the MCDPS stormwater management approval dated January 10, 2006.

15) Compliance with conditions of the MCDPS (Health Dept.) septic approval dated October 20, 2005.

16) Other necessary easements.
This Preliminary Plan will remain valid for 36 months from its initiation Date (as defined in Montgomery County Code Section 50-35(h), as amended). Prior to the expiration of this validity period, a final record plat for all property delineated on the approved preliminary plan must be recorded among the Montgomery County Land Records or a request for an extension must be filed.

[CERTIFICATION OF BOARD VOTE ADOPTING OPINION ON FOLLOWING PAGE]
CERTIFICATION OF BOARD ADOPTION OF OPINION

At its regular meeting, held on Thursday, June 29, 2006, in Silver Spring, Maryland, the Montgomery County Planning Board of The Maryland-National Capital Park and Planning Commission, by unanimous consent ADOPTED the above Opinion which constitutes the final decision of the Planning Board and memorializes the Board's findings of fact and conclusions of law for Preliminary Plan 120060720, Bryant's Nursery Road. Commissioner Wellington was absent.

E. Ann Daly, Technical Writer
PLAT NO. 220061240

Greenwich Forest
Located on Lambeth Road, approximately 100 feet east of Overhill Road
R60 zone; 1 lot
Community Water, Community Sewer
Master Plan Area: Bethesda - Chevy Chase
Frederick Lybrand & Ann Fowler, Applicant

Staff recommends approval of this minor subdivision plat pursuant to section 50-35A (a)(3) of the Subdivision Regulations, which states:

Consolidation of Two or More Lots or a Part of a lot into One Lot. Consolidating more than one lot into a single lot is permitted under the minor subdivision procedure provided:

   a. Any conditions applicable to the original subdivision remain in full force and effect and the number of trips generated on the new lot do not exceed those permitted for the original lots or as limited by an Adequate Public Facilities agreement.
   b. Any consolidation involving a part of a lot may occur under the minor subdivision process if the part of a lot was created by deed recorded prior to June 1, 1958

Staff applied the above-noted minor subdivision criteria for this lot (previously known as lot 6 and part of lot 7) and concludes that the proposed minor subdivision complies with the criteria of Section 50-35A (a)(3)b of the subdivision regulations and supports this minor subdivision record plat.
RECORD PLAT REVIEW SHEET – MINOR SUBDIVISION SEC-50-35A

Plat Name: Greenwich Faest
