

MCPB DECEMBER 6, 2007 MEETING

ITEM#10

Written Testimony Presented at the Hearing

Public Hearing M-NCPPC
Master Plan for Historic Preservation Eligibility – Falkland Apartments
December 6, 2007
Barbara Goldberg Goldman

Good Afternoon. I am Barbara Goldberg Goldman and Co-Chair of the Affordable Housing Conference of Montgomery County, MD, and the County Executive's Affordable Housing Task Force. However, I want to make it perfectly clear and without any question now and in the future, that I am here today before you representing only myself as an individual resident of Montgomery County. I am not testifying on behalf of any government or organizational entity. I am here because I am extraordinarily sympathetic to the dilemma that is facing you as government officials and our County's residents. In certain situations, it is entirely plausible to be proactive. In certain situations, it is entirely plausible to be reactive. But in all situations it is necessary to be thoughtful. When we act impulsively the risk of making mistakes is greater than if we take a deep breath, stand back and think about the long-term ramifications of our decision.

No one would argue, especially I, that Montgomery County is in the midst of a stark, painstaking and very serious housing crisis. Therefore, I strongly endorse any and all opportunities for the County to acquire, develop and maintain decent, safe and affordable housing units as they become available. Highest priority must be given to those units and other developments near and around metro transit hubs. Yet, I find myself torn in this situation with the Falklands. [REDACTED] I want to maximize the number of new and preserved affordable units to be developed on the three parcels. Yet, I do not want to compromise the architectural integrity of the entire development, and the history that it so beautifully represents. I believe that it is critical that a range of affordable units be preserved and created while adhering to principals and values that have been engrained in me by our forefathers. Namely, learn from the past, and appreciate and care for the resources and beauty with which it has provided us.

I am sympathetic towards the efforts of Home Properties to develop 133 MPDUs on the North parcel and also support their agreement with AIM to provide 49 units in its Woodleaf community for the Rent Supplement Program beginning May 2009 and extending for a period of 20 years. I am aware that in the event the County discontinues the Rent Supplement Program during the 20 years, Home has agreed to convert these units to MPDUs for the remainder of the term. In working with AIM, Home has also agreed, for a period of 20 years from construction completion of the North Parcel buildings, to commit 50 units in the new North Parcel and 50 units in existing buildings in the East and West Parcels to rents within the range of the workforce housing guidelines as promulgated under Montgomery County Regulation No. 18-06AM. In summary, this means that Home will provide 282 affordable, workforce, and MPDU housing units if its project is approved as scheduled. But, at the moment, the rent

structure at the Falklands is not entirely what we call “affordable.” With rents in the range of \$1200.00 to \$1700.00 per month, we must carefully examine what it is we are trading.

I further understand that Home Properties also has agreed to waive application fees and transfer the security deposit from Falkland North to another Home-owned property for any resident who is in good standing and relocates to another Home Properties community. For residents relocating to a community not owned by Home Properties, Home will pay the reasonable application fee and security deposit offset against any security deposit refund due from Falkland. Home will also pay \$500 of residents’ relocation (moving, utility hook-up, and the like) expenses or such other amount as may be required by County law. Home is promising to go beyond what we sometimes see in developments of this magnitude and it is to be lauded for its efforts. Yet, I am concerned that the households affected by temporary relocation do not, in general, have sufficient savings to cover unexpected relocation costs. If some form of Home’s proposal is accepted, Home should also consider the creation of a cushion account or fund to cover additional unexpected costs that might arise for some households.

But, one of my main concerns is that we must look to the future. Part of the housing crisis we are facing today is due to past planning—planning that clearly was not able to predict Montgomery County’s 21st century incredible growth pattern and progress. In fact, we are told that Falkland was a successful “experiment providing large-scale multifamily housing for people of moderate means, in pleasant surroundings with ample green space.” Designed by Louis Justement, one of the most notable mid-century designers and urban planners, the Falklands development was widely celebrated in the architectural journals of the time. But clearly, there was no vision as to how such a development might be integrated into a growing community some sixty or seventy years later. Currently there are 182 units on the north parcel. Today, we know that this number is not sufficient to begin to accommodate our needs now and in the future. And yet, it would be a crime to destroy structures that reflect a time that was entwined in the New Deal history and significant in the history of community planning. The complex was the first garden apartment complex in Montgomery County with over 300 garden apartments identified in the region, built 1930s-40s.

So, we face a major dilemma. How do we maintain and highlight the significance of this historic landmark that was given Honorable Mention at the 1940 International Congress of Architects, and is located in our own backyard, while at the same time in our own backyard, and near a metro station, provide the housing that we so desperately need? Clearly, this is not a simple matter requiring no simple solution. It goes directly to the heart and life of our entire Community. I know you well enough to know that you will not make your decision lightly. Surely, there must be a compromise solution that will permit our County to carefully examine any and all options, push the envelope and devise creative ways to accomplish a development that in sixty years from now will be looked upon as wise, cutting edge, and all the while preserving and respecting the beauty and significance of the past. Thank you.

**TESTIMONY TO PLANNING BOARD IN SUPPORT OF THE INCLUSION OF THE
FALKLAND APARTMENTS IN THE COUNTY MASTER PLAN OF HISTORIC PLACES**

I am Jim Humphrey, Chair of the MCCF Planning and Land Use Committee, testifying on behalf of the Federation. At the March 2005 meeting of the Civic Federation, the delegates approved a resolution supporting the placement of the Falkland Apartments in Silver Spring on the Locational Atlas and Index of Historic Sites because we believed then, as we still do today, that the Falklands are a jewel of architectural history to be cherished and preserved.

The Falklands was one of the first in the nation of a style of multi-family housing developments that gave us the term "garden apartment." And, it could be argued that it is the best remaining example of how these projects were successfully integrated into both the natural and the built environment. The three sections of the Falklands exhibit a bravado in their fusion with this topographically challenging site, and beautifully demonstrate the diversity of approach to the siting of "garden apartments"--the eastern portion situated in the divergence of 16th Street and Colesville Road, with its central courtyard green area; the western portion merging into the woods on a rise atop a branch of Rock Creek; and, the northern portion woven around a deep stream gorge and stand of 100-year-old or so oak trees, between the B&O railroad tracks and the historically important East-West Highway.

The Falklands would certainly rank as the first stop on a heritage tourism visit to the area, and the marketing of an architectural heritage tour could be a real asset to Silver Spring's economic development. There is more to be preserved here, however, than a relic of a historically important style of architecture. There are environmental assets worth preserving as well, in the form of greenspace in which residents can walk their dogs, toss a ball with their children, or spread a blanket and have a picnic. And there is the important forested area on the northern section, which becomes more valuable every day as our urban tree canopy falls victim to redevelopment. The Falklands is also a community of people, important to the Federation because decades ago the residents formed the first citizens association of renters in the county.

Historic designation of the Falklands will also ^{serve} ~~meet~~ the goals and objectives of other county policies and plans. One of the housing goals in the county General Plan is the preservation of existing affordably priced housing, and this development is comprised of hundreds of dwelling units affordable to workforce income level households or below. When the County Executive's Task Force on Affordable Housing issued its recommendations last month, preservation of affordable units was their number one issue--

"Market pressures are making both rental and ownership housing more expensive in Montgomery County. Households who rent are particularly at risk. It is a goal of Montgomery County to retain and preserve the affordable rental housing stock..."

Another General Plan housing objective is to encourage and maintain a wide choice of housing types. Silver Spring will certainly see its fair share of multi-family housing provided in high rise, mixed use buildings. But there is only one Falkland Apartments. Please recommend its preservation. Thank you.

Summary of Testimony – Falklands Apartments
Montgomery County Planning Board hearing, December 6, 2007

The Falkland Apartments complex meets several criteria for designation on the Montgomery County Master Plan for Historic Preservation.

The entire parcel of 22 acres should be included in the designation.

The task at hand is to evaluate the significance of the Falkland Apartments in the context of Montgomery County and Maryland history, architecture, and culture -- not to judge any possible proposal for change to the property.

Testimony to Planning Board on Falkland Apartments Historic Preservation Eligibility - 12/6/07

I'm Wayne Goldstein, president of Montgomery Preservation, Inc. (MPI) testifying before this body for the third time concerning historic designation of the Falkland Apartments. The evidence continues to be overwhelming that this resource meets three of Section 24A-3(b)'s historic criteria, (1)(a), (1)(d) and (2)(a). You have heard and will hear from the largest and most distinguished group of historic preservation professionals ever to testify about a county historic resource that they consider to have national as well as state and local significance. I fully expect the Falkland Apartments to be found eligible for listing on the National Register of Historic Places (NRHP) by the Keeper of the Register, who, within the next six months, will agree with the current recommendation for such eligibility by the Maryland Historical Trust.

In fact, based on statements made on a Home Properties website about the Falkland Apartments, I can state with confidence that the owner already acknowledges this property meets the criteria and could easily support actual listing on the NRHP and on the county's Master Plan for Historic Preservation (MHP). Consider these quotes:

"... Takes the initiative to designate all of the buildings in the East and West Parcels, in addition to the Cupola Building, as historic and have them indicated as such in the Master Plan to guarantee that these parcels will not be redeveloped... To confirm this commitment, we will agree to the designation of the East and West Parcels as historic and will invest considerable funds for their restoration and preservation... We agree that the community is very desirable and beautiful. We also agree that Eleanor Roosevelt did cut the ribbon at the opening of the East Parcel in 1937 which provided a high profile demonstration of support for her husband's New Deal policies."

There are other statements, long since refuted by the many experts who support this designation, such as the claim that the Falkland Apartments is merely a copy of other garden apartments. If Home Properties truly believed that, then it would make no sense for it to ever voluntarily acquiesce to designation. However, since this owner is offering to support the designation of two of the three sections, then it acknowledges that the entire Falkland Apartments meets the criteria to be designated. At this point, we could all agree to the designation and forward it to the County Council for its swift approval.

However, Home Properties wants to bargain about this matter and has taken a number of actions that it believes makes its bargain attractive. If today were, say, December 6th, 2008, and the Falkland Apartments, having already been designated, were the subject of an Historic Area Work Permit being presented to the Historic Preservation Commission (HPC) to allow for demolition and new construction on the north section, a detailed discussion of all of the facts concerning this proffered bargain would be appropriate and necessary to discuss. After all, Section 24A-8(b)(6) states that the HPC can balance "the interests of the public in preserving the historic site... with the interests of the public from the use and benefit of the alternative proposal," and if it finds that "the general public welfare is better served by granting the permit", it can do so.

But today, the only issue is whether or not the Falkland Apartments meets one, two, or three of the criteria listed in Section 24A-3. That is all that can and should be decided today. Any other discussion of any other issues that do not address the historic criteria is immaterial to the worksession and action that will follow this public hearing. However, I can assure this Board that I have thoroughly acquainted myself with facts and history about this county's affordable housing, Home Properties, Harris-Teeter, Action in Montgomery (AIM), the Industrial Areas Foundation (IAF), and the late Saul Alinsky.

If you're curious, ask me what happened when Home Properties sold the Pavilion Apartments in Rockville to a condo converter in 2005 for a huge profit and how profitable the Falkland Apartments currently are. Or you can ask me about Harris-Teeter's 28-year long consent decree with the National Labor Relations Board. Or perhaps you'd like to know more about AIM, the IAF, and Mr. Alinsky. I'll leave you with one final thought. If Saul Alinsky were alive today, I have no doubt that he would, with their permission, be organizing the tenants of the Falkland Apartments to oppose Home Properties' and AIM's plans for them.

Wayne Goldstein Montgomery Preservation, Inc. 3009 Jennings Road Kensington, MD 20895

**Testimony by the Maryland Native Plant Society
Regarding eligibility of the Falkland Chase Apartments for Master Plan Designation
December 6, 2007**

For the record, I am John Parrish representing the Maryland Native Plant Society. We urge the Planning board to approve the staff recommendation finding the Falkland Apartments eligible for Master Plan Designation.

We believe it is important to preserve the natural history and environmental setting at Falklands. We offer the following comments for your consideration.

1. The natural setting is part and parcel, and complementary to, the historic garden style apartments. Both the setting and the apartments are irreplaceable natural and cultural resources combined in a unique and sensitive way. They reflect Silver Spring's rich history.
2. Along with Jesup Blair Park, the Falkland sectors within the Central Business District (CBD) (east of 16th Street) comprise the last significant stands of native trees and greenspace in downtown Silver Spring.
3. The right fork of Fenwick Branch of Rock Creek currently begins in a ravine as an underground spring on the North Sector grounds and emerges above ground flowing through the South Sector before entering Washington D.C. at Portal Street. This stream is the only natural free-flowing stream remaining in the CBD. It was intentionally preserved by the Falklands designer to enhance the environmental setting and quality of life for residents of the apartment complex. The springhead ravine and stream alone should deserve historic preservation simply because they represent the last naturally functioning tributary within the Silver Spring CBD. According to topographic maps from 1917 and 1929, the stream used to flow above ground within the area that became the North Sector, beginning close to the railroad tracks. Due to a steady increase of impervious surfaces and reduced groundwater infiltration over many decades, the stream's baseflow has been significantly reduced. Consequently, the stream now emerges in the South Sector immediately south of East-West Highway. Redevelopment within the streams headwaters in the north sector would reduce groundwater infiltration and further degrade the stream.
4. The stream bank and surrounding buffer area in the Northern and Southern Sectors support 13 species of native forest trees reflecting the original forested landscape at Falklands. These are remnant stands of trees comprised of Red, White and Black Oaks, two kinds of Hickories, Black Walnut, American Elm, Black Cherry, Black Locust, Sassafras, Tulip-tree, Sycamore, and Red Maple.
5. Fifteen species of trees growing at Falklands are represented by specimen-sized individuals. The Northern sector alone supports 9 species of specimen trees, including several stately White Pines standing prominently as sentinels easily seen from the surrounding area. Trees of this size and age are not replaceable within our lifetimes.

6. All told, there are at least 38 species of trees (both native and non-native) growing within the complex, 10 of these are showy springtime flowering species. They include cherries, dogwoods, redbuds, juneberries, hawthorns, crabapples and yellowwood. Several of the flowering trees date to the original plantings. One is a county- champion hawthorn growing on the North Sector grounds.

7. Three of the 7 visions of the Maryland Planning Act apply to Falklands:

Vision #2: states that “sensitive areas are to be protected.” In this case, the stream and its buffer area are best protected under existing conditions. Re-development would inevitably degrade or destroy the stream by altering the existing natural drainage patterns.

Vision #4: “Stewardship of the Chesapeake Bay and the land is to be considered a universal ethic.” Given that this is the last stream and greenspace to survive urbanization within the CBD, it would be wise to preserve it and not condemn it to the fate of the original ‘Silver Spring.’

Vision #5: “Conservation of resources, including a reduction in resource consumption is to be practiced.” In other words, historic preservation equals natural resource conservation. Imagine what would be required to dispose of the Falkland complex and think of all of the non-renewable natural resources necessary to reconstruct new buildings if redevelopment were to occur. In addition, the land would have to be re-graded resulting in the destruction of the natural rock outcroppings, trees and natural contours that presently exist. What a waste of natural resources that would be.

8. The mature trees currently serve to reduce the urban heat island effect by transpiring moisture to the atmosphere and subsequently cooling the surrounding urban atmosphere through evaporation.
9. The trees and other vegetation at Falklands offer relief from the concrete streetscape and harshness of high rise buildings. Most importantly, the greenery complements the garden style apartments.
10. In conclusion, the Falklands have already been compromised by the loss of one sector that became the Lenox high-rise. The remaining complex provides important continuity of natural and cultural history within the rapidly changing Silver Spring CBD. Falkland Chase stands apart from most of Silver Spring because it represents the *geography of somewhere* – a special sense of place and identity. By contrast, re-development represents a *geography of nowhere* that is already too plentiful throughout the rest of Silver Spring.

Again, the Maryland Native Plant Society strongly urges the Planning Board to designate the entire Falkland complex as eligible for the Historic Preservation Master Plan and continue the process of preserving the last few remaining natural and historic resources in Silver Spring.

List of 38 Tree Species Occurring at Falkland Chase Apartments (* Natural occurrence)

Arborvitae, American (*Thuja occidentalis*)
Ash, Green (*Fraxinus pennsylvanica*)
Cherry, Black (*Prunus serotina*)* SPECIMEN
Cherry, Japanese (*Prunus serrulata*)
Cherry, Yoshino (*Prunus yedoensis*) SPECIMEN
Crabapple (*Malus species*)
Dogwood, Flowering (*Cornus florida*)
Dogwood, Kousa (*Cornus kousa*)
Elm, American (*Ulmus americana*)* SPECIMEN
Hawthorn, Glossy (*Crataegus nitida*) SPECIMEN & COUNTY CHAMPION
Hickory, Mockernut (*Carya tomentosa*)*
Hickory, Pignut (*Carya glabra*)* SPECIMEN
Holly, American (*Ilex opaca*)
Holly, Foster's (*Ilex x attenuata*)
Juneberry, Downy (*Amelanchier arborea*)
Linden, American (*Tilia americana*) SPECIMEN
Linden, Littleleaf (*Tilia cordata*)
Locust, Black (*Robinia pseudo-acacia*)*
Maple, Box Elder (*Acer negundo*) SPECIMEN
Maple, Red (*Acer rubrum*)*
Maple, Sugar (*Acer saccharum*)
Maple, Silver (*Acer saccharinum*)
Mulberry, White (*Morus alba*)
Oak, Black (*Quercus velutina*)* SPECIMEN
Oak, Pin (*Quercus palustris*) SPECIMEN
Oak, Red (*Quercus rubra*)* SPECIMEN
Oak, Shumard's (*Quercus shumardii*)
Oak, White (*Quercus alba*)* SPECIMEN
Oak, Willow (*Quercus phellos*)
Pine, White (*Pinus strobus*) SPECIMEN
Planetree, London (*Platanus x acerifolia*)
Redbud, American (*Cercis canadensis*)
Sassafras (*Sassafras albidum*)*
Spruce, Norway (*Picea abies*)
Sycamore, American (*Platanus occidentalis*)* SPECIMEN
Tuliptree (*Liriodendron tulipifera*)* SPECIMEN
Walnut, Black (*Juglans nigra*)*
Yellowwood (*Cladrastis lutea*) SPECIMEN

SPECIMEN TREE – “A tree that is a particularly impressive or unusual example of a species due to its size, shape, age, or any other trait that epitomizes the character of the species.” Note: The tree species listed above as “specimen” are represented by one or more individuals that qualify as specimen trees.

**Testimony and Power Point presentation
Mary Reardon, Preservation Chair, Silver Spring Historical Society
Falkland Apartments, Review for Master Plan Listing
Montgomery County Planning Board, December 6, 2007**

My name is Mary Reardon. I'm Preservation Chair of the Silver Spring Historical Society.

Losing the north sector of Falkland is not a compromise. It's what Home Properties wanted all along. If someone can take something valuable from you but decides to take less, I don't call it a compromise.

I would prefer to confine my remarks to Falkland's historic character, which is what this hearing is about. But other issues are being raised, and I feel we have to address them.

Wayne Goldstein, Jim Humphrey, and I – we are all affordable housing advocates. I organized tenants in several cities as well as Silver Spring. I see Falkland as a tenant rights issue as well as a preservation issue, the rights of the Falkland tenants.

The County's affordable housing program is broader than MPDUs, or bargaining with developers for more units. And it's fine to get as many affordable units as we can, even though incrementally. But when a relatively few affordable units is on the table – few relative to the vast need – is it really worth destroying a valuable historic resource and upending the lives of tenants? Homeowners would never be forced to move for a social policy, nor would they stand for it if the homes across the street from them were torn down and replaced with a mammoth housing complex.

Market rents for apartments at Falkland are below average for the CBD. And remember that people who have lived there a couple of years or more pay below the advertised rents.

As for smart growth, I'll read from a letter sent by DC planner John Fondersmith:

“I understand the importance of smart growth and transit oriented development and indeed, I generally favor such an approach. However, transit oriented development must involve more than a rubber stamp or cookie cutter development approach. I was involved in initial transit development planning in Washington, D.C. in the early 1970s as the first phases of the Metrorail system were being constructed....We quickly realized the need to be sensitive to the unique character of individual station areas and to plan for creating a sense of place, trying to ensure that each station area has a unique quality. This often involved utilizing the special quality of historic buildings..”

Slide presentation follows.

**Testimony and Power Point presentation
Mary Reardon, Preservation Chair, Silver Spring Historical Society
Falkland Apartments, Review for Master Plan Listing
Montgomery County Planning Board, December 6, 2007**

16th St. slide:

We're here today to continue a process begun 5 years ago when the historic inventory of downtown Silver Spring buildings opened the door to a review of all properties 50 years and older for potential designation

I want to point out that the owner knew when he negotiated to purchase Falkland that this County inventory was underway. Falkland was the most likely of the properties to be designated as a result. In fact, Home Properties closed the deal about a month after the Planning Board voted to list Falkland on the Locational Atlas.

Site Plan Slide

You can see how large the endangered north sector is. Maryland Historical Trust is well aware of the loss of 34 of the 484 units on the Draper Triangle. Yet they have indicated that the property is eligible for National Register after we filed a nomination in 2004, and reiterated it in a letter you received this week.

Roosevelt slide

There are three reasons for Falkland's significance.

First is its connection with the **New Deal**. Falkland was the **second apartment complex** in the country to be underwritten by the New Deal's Federal Housing Administration. These New deal projects influenced suburban development.

Eleanor Roosevelt cut the ribbon when Falkland opened in 1937 to celebrate the success of this program for moderate income people, like those pouring into Washington to work on New Deal programs. The owner of Falkland likes to point out that she cut the ribbon on the *south* parcel, not the *north* parcel. But the north and west parcels were underway at the time. And James Blair, the developer, intended to have the project cover all three parcels, referring to them collectively as "Falkland Properties." It was ONE project.

Prototype slide

Falkland and Colonial Village in Arlington were among the DC-area models for middle-income apartments nationally, over the next generation. This is from the *Washington Post*, 1937. Falkland is at the top.

Sunnyside slide

The second reason for Falkland's significance was that it's part of a proud line of early multifamily projects that adopted the English Garden City principles as imported by Stein and Wright. Generous green space and low-rise construction were key components, making this relatively dense housing a pleasant community.

Sunnyside Gardens in Queens was the first such project. All of these developments I'll show you are on the National Register, even though all made allowances for cars over the years.

Radburn slide

Radburn in New Jersey is another.

All of these early projects were built in stages, as Falkland was. But no one considers any parts less important than others, nor would suggest the parts are separate properties.

Chatham Village slide

In Chatham Village, the topography dominated the plan more than at the two others. It's more like Falkland in that regard. Chatham Village was named one of the 10 Great Neighborhoods for 2007 by the American Planning Association.

Colonial Village slide

Close to home, we have Colonial Village, also on the National Register and sandwiched between two metro stops. This was the first large scale rental housing project in the U.S. to be backed by FHA mortgage insurance, just before Falkland.

Falkland site plan

Falkland's design was dictated by the topography, which is why every sector is unique. The architect, Louis Justement said, for example, that he deliberately retained the y-shaped stream valley in the north and south sectors.

By the way, Falkland was widely celebrated in contemporary architectural journals, during and after construction. This is from the *Architectural Record*.

Picketing Slide

The third reason for Falkland's significance is now part of its history. That is, literally generations of Silver Spring and County activists joined Falkland tenants to defend the site whenever it was threatened. The late Senator Ida Mae Garrott was among them. Here's a photo in the *Evening Star* from 1972. Their reasons for defending Falkland were to preserve affordable housing AND because of its architectural and historic merit. And people from the close-in DC neighborhoods joined in, petitioning the County Council to spare Falkland.

Aerial slide

The green space in Falkland is a major value. This aerial view is from 1955, but the same abundant green space exists today. Falkland and Jesup Blair Park together comprise the last significant stands of native trees and green space in downtown Silver Spring.

Slide of Falkland green areas

Wherever you live in Falkland you can look out and see trees. And the buildings facing major streets are set back with grassy frontage. At left is the stream bed on the north parcel.

Next 3 slides

In these next 3 slides I just want to point out that Falkland, though it has a variety of detailing on the buildings, has the same overall design on all 3 parcels. None is less significant than the other. This is a mix of photos from all 3 parcels.

Supporter slides (2)

Supporter slides (next 2)

Leading experts on architecture and architectural history are calling for Master Plan listing of all of Falkland.

Richard Longstreth

Ralph Bennett and Isabelle Gournay

James M. Goode

And planners Dorn McGrath and John Fondersmith

Housing slide

We are not desperate for housing to enliven the CBD.

There are nearly 3600 units recently approved, under construction, or recently completed (since 2003). And there are nearly 1500 units proposed, not counting Falkland.

That would bring the total since 2002 to over 5000 units.

First Justement slide

The architect of Falkland, Louis Justement, designed several landmark buildings in DC. Harvard Hall and 2120 Kalorama Road are in James M. Goode's book *Best Addresses*.

Second Justement slide

The Federal Courthouse is National Register eligible. The Longworth building is called one of the best examples of neo-classical revival in Washington.

Third Justement slide

Justement's Harris and Ewing Photograph Studio on F St. is on the National Register. Justement was part of a 1946 Princeton symposium that included Mies van der Rohe, Frank Lloyd Wright, Walter Gropius, Robert Moses, and Phillip Johnson. That's the company he was in.

We should not need to destroy in order to build. Please spare all of Falkland.

Testimony of Jerome Paige and Deborah M. Royster
On behalf of
The Civic League of North Portal Estates
Before the Montgomery County Planning Board
December 6, 2007

Good afternoon, Mr. Chairman and members of the Commission. Thank you for the opportunity to speak to you today about the proposed historic designation of the Falkland Chase Apartment Complex ("Falkland Chase").

The Civic League of North Portal Estates represents the approximate 200 homeowners of the Washington, D.C. neighborhood of North Portal Estates, which is located immediately adjacent to Falkland Chase.

On November 13, 2007, The Civic League of North Portal Estates voted unanimously to recommend the inclusion of all three parcels of the Falkland Chase Apartment Complex to be determined eligible for inclusion on Montgomery County's Master Plan for Historic Preservation. This recommendation is based on the unique historic and cultural significance of Falkland Chase, and on the potential adverse impact of the proposed development of the northern parcel of Falkland Chase on the surrounding Silver Spring and Washington, D.C. communities, including the neighborhood of North Portal Estates.

Falkland Chase is an important part of the Washington, D.C./Silver Spring community. Its historical legacy as one of the first large scale, federally financed workforce housing projects contributes to the rich socioeconomic diversity of our community. In addition, the architectural design and scale of the buildings are consistent with the character of the single family homes that dominate the bordering upper northwest communities of Shepherd Park and North Portal Estates. This design, characterized by abundant trees and green space, is aesthetically pleasing and creates a seamless appearance between the two jurisdictions of Washington, D.C. and Montgomery County.

We are very concerned about the potential adverse impact of the proposed development of Falkland Chase on the surrounding communities, including our neighborhood of North Portal Estates. This project would significantly increase the population density in an area that is already congested. In addition, traffic is a significant concern at the intersections of 16th Street and East-West Highway and Colesville Road, and it is likely to be exacerbated by the proposed project. The proposed development would also result in the significant loss of trees and green space that contribute to the unique beauty and culture of the hidden gem known as the "Northern Corner" -- the park-like setting adjacent to federal Rock Creek Park that is enjoyed by residents of the District of Columbia and Silver Spring alike.

This is not the first time that the residents of North Portal Estates have supported the preservation of Falkland Chase. In the 1970's, our residents appeared before the Montgomery County Council in opposition to a planned redevelopment of Falkland Chase. Fortunately, Montgomery County decided against proceeding with the project at that time. Once again, we urge you today to preserve the unique historic, cultural, and aesthetic legacy of Falkland Chase for the benefit of future generations.

Finally, we are mindful of the large number of new projects that are currently planned and/or under construction in Silver Spring. We urge you to be cognizant of the impact of Falkland Chase and other planned projects on surrounding residential neighborhoods, including the bordering Washington, D.C. communities of North Portal Estates, Shepherd Park, and Colonial Village. Although not directly within your jurisdiction, the quality of life in these communities is profoundly affected by development activities in Silver Spring that are within your purview. Washington, D.C. residents are beneficiaries of certain of these initiatives. For example, we applaud Montgomery County for its initiative in rebuilding downtown Silver Spring into a vibrant community center that we all enjoy. However, we urge caution in approving development projects that adversely affect the adjoining, well-established neighborhoods of Silver Spring and Washington, D.C. that are critical components of the rich historic, cultural and aesthetic character of the wonderful, shared community – irrespective of jurisdictional boundaries – that we call home.

We sincerely appreciate the opportunity to speak to you today about this very important issue. We would be pleased to answer any questions that you may have.

Montgomery County Planning Board
8787 Georgia Avenue
Silver Spring, MD 20910

Re: Falkland North, Item 10, Testimony #0000097

Good afternoon, Planning Board Members:

My name is Rebecca Brillhart. I serve as the clergy co-chair of Action In Montgomery (AIM) and am also a pastor at Sligo Adventist Church in Takoma Park, Maryland--a 3,000-member congregation that represents more than 85 nationalities. We share a campus with Washington Adventist Hospital and Columbia Union College.

Affordable housing is a chronic, everyday issue on the hearts and in the minds of many of my members and their neighbors who live in this county. We run the gamut when it comes to Montgomery County, with members living in Takoma Park/East Silver Spring and all the way to Damascus. Our support of this exemption for Falkland North is because of the one-for-one replacement of affordable housing, the significant amount of workforce housing, and because it would provide dense housing next to a metro station.

As you know, the Falkland Chase apartments were built in the 1930's as part of President Roosevelt's *New Deal* to provide housing for moderate income, working families. Now, in the Montgomery County we know today, December 2007, we are facing some of the same challenges to make housing affordable.

In Action In Montgomery's 29 member congregations, we have been hearing more than an identification of affordable housing as a "problem." We have been experiencing a mourning, a *deep* mourning, for a time when people's children could afford to move back to the county after completing college without living in their parents' basements to make ends meet; when teachers, nurses, county employees and police officers could afford to live where they serve; where people who had worked a lifetime and invested in a community could plan to retire here.

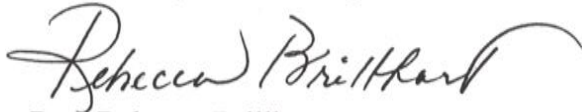

Because of the significant loss of affordable housing in the county, we are again in a time when we need another *New Deal*. We need a *New Deal* so that our families can live near each other. We need a *New Deal* so our corps our county employees can forego commuting long distances and be close to the people they serve on a daily basis. We need a *New Deal* so that those who have invested in our communities with their lives do not need to leave when they need their community most, as in their retirement years. In my congregation, we say goodbye to too many folks who find they must move out of county to be tended to by total strangers. This is not just "too bad." It is devastating and rips at the very fabric of a community.

Home Properties redevelopment, with 182 MPDUs and 100 workforce housing units, will preserve the original *intent* of the *New Deal* housing, while also preserving two parcels of

All are gifted, all are valued.

historic buildings. We believe Home Properties is offering a New kind of Deal for Montgomery County, a unique example of how a developer can and will work to increase affordable housing for those who need it. I urge you to support it.

Respectfully submitted by,

A handwritten signature in cursive script that reads "Rebecca Brillhart". The signature is written in black ink and is positioned above the printed name.

Rev. Rebecca Brillhart

Speaker #10

Testimony for Park and Planning Hearing Concerning Falkland North Development and Historic Preservation

**Rev. Rachel Cornwell, Senior Pastor
Woodside United Methodist Church, 8900 Georgia Avenue
Silver Spring, MD 20810**

Background on Woodside UMC:

We are currently an active congregation of around 400 families. Our church family is economically and culturally diverse—coming from 21 different nations. Many of our long time members live in the Woodside neighborhood. For many years, however, people had to move further from downtown Silver Spring to find affordable housing—we have people who come from as far away as Gaithersburg and Virginia. But most of our newer members are people who have recently moved into the revitalized downtown Silver Spring. Many of them live in apartment building around the church.

We have been part of the Silver Spring community for 135 years, in three different locations along Georgia Avenue. Each of our moves have been related to the development of Silver Spring, however we feel that we still have an historic presence within the community. We believe that the history of Silver Spring has less to do with buildings and more with the culture, the diversity and the on-going vitality of our community.

Why we support the development of Falkland North by Home Properties, Inc.:

1. As a congregation located and invested in the heart of downtown Silver Spring, we see the benefits of the public use and amenities of this development project.
2. As a congregation that is growing with young professionals and young families and that strongly values our cultural and economic diversity, we support this development because it represents “smart growth” and also promises to provide more affordable and market-rate rental units.
3. As a member congregation of Action in Montgomery, we feel that this project is in line with our goals of increasing affordable housing in the county and that the developer is also working on issues related to pedestrian safety.

Personal Testimony:

I am a new Silver Spring resident—I live in the church parsonage in the Woodside neighborhood. I am personally concerned about affordable housing, because even on two incomes, my family could not afford to buy the home we live in today. As a parent with one (soon to be two) child/ren in the Woodlin Elementary School District, I am aware and concerned with the school issues related to development in Silver Spring. However, my family very much enjoys the urban life that we have by living close to downtown Silver Spring. We feel that living within walking distance to the Metro, several groceries stores, parks,

and a library all offer a high quality of life. I believe that more people should have the opportunity to have this quality of life—and that that was the historic intent of the original Falkland development for working people in Silver Spring. I believe that this new development is in keeping with the spirit of the original development and expands the opportunity to have a convenient, rich and affordable lifestyle to more working people in the Silver Spring community.

HISTORIC PRESERVATION OF FALKLAND-CHASE

Mary Sinclair Jacobs, President, Charter House Residents Association, Inc.

Landmark proprieties are cornerstones of a healthy informed society. Preservation is the trademark of sound business practices. Nine acres comprises the Falkland-Chase Property of family homes, gardens, trees, and a natural stream bed at the corner of 16th Street in Silver Spring, Maryland at the opposite end of the White House of the United States of America. This 9 acres site should be treated the same as the White House's 82 acres at 1600 Pennsylvania Avenue, NW, Washington, DC because they share a rich history. The cornerstone for the White House was laid October 13, 1792 and the Falkland-Chase 1936-38. The White House stands gracefully as an example of preservation and retrofitting. We should learn something from history through preservation of precious housing stock that is soundly constructed.

Displacement is a most traumatic experience. In my opinion It ranks very close to losing a love one. At 72 years old I was among the over 200 residents 55+ in age, who were displaced from The Charter House Apartments on November 30, 2006. Residents of The Charter House were fortunate to have the tax payers of Maryland to pick up most of the tab and were also fortunate to be able to return to a building, known as our home; in spite of the over 290 code violations which are fixable. **Now!**

1. Does Parks and Planning have a plan in place to relocate the residents from Falkland-Chase?
2. Does Parks and Planning have a financial plan available to house the displaced residents from Falkland-Chase?
3. Will Parks and Planning be responsible for and will pay for the displaced residents while the destruction and construction go forward?
4. Does Parks and Planning have knowledge of a phase in plan program while construction is in progress?
5. Does Parks and Planning have a plan in place for the residents who will return to qualify for an apartment at the same rate as to when they were forced to leave?

Should another humpty-dumpty towering structure continue to compromise our health? We need livable housing communities. Further, the surrounding community shall inherit noise pollution, suffocating heat, blocked out sunlight, and inhalation of more filthy unhealthy air from vehicular traffic jams. Good Lord, how will Homeland Security deal with this congested corridor for an evacuation plan?

No replacement will make up for destruction of one's life and livelihood. There is evidence that reconstruction is half the cost rather than tearing down sound structures to start from scratch. **These same issues will be re-hashed in about 10 to 20 years before a different group of faces,** unless some gut wrenching decision is made now to stop the need to be a disposable society. Destroying this landmark property will not solve the **availability nor affordability** issues of rental housing in this community. . **None so blind as one who will not**

see, except through greed-grinded lens.

This landmark property known as the Falkland–Chase should continue to stand in tact as the cornerstone of a wealthy neighborhood in Silver Spring, Montgomery County, MD. In closing , **any resident that is evacuated or displaced is without a home...this person is homeless.**

Thank you.

I am a current resident of Falkland-Chase Apartments and I am holding copies of over 50 signatures of other current residents who, like me, are imploring the Planning Board to accept the Historic Preservation Commission's recommendation to save Falkland, our home, by designating the entire Falkland complex as historic.

I first discovered Falkland-Chase, (or Falkland, as it was called then) back in 1972 and lived with my roommate in the SW segment. I rediscovered Falkland two years ago on a visit here from Michigan where I had been living. I was absolutely thrilled to see the landmark buildings still standing and continuing to serve as a visual gateway to Maryland from D.C. I moved back to Falkland last November, this time in the North section. I truly felt I could come home again.

But sometime after I moved in I learned that part of Falkland, where I was living, was in danger of being demolished. Once I realized that this was not a done deal as I had been led to believe by the management, I helped to gather tenant signatures.

Without exception, 100 percent of the residents I asked to sign the letter did so without hesitation. And, I should add that also without exception, the residents I talked to either thought the proposed tear-down was a certainty and that they had no say in what would happen to their home, or they had no idea whatsoever that such a plan existed. The latter was the case with Mr. Abese Mengesita who has lived at Falkland for 9 years. But, both responses are not surprising because Home Properties tries to keep residents either misinformed or totally uninformed. Case in point, a flyer I put in my building was immediately torn down by Home Properties staff.

I don't believe that anyone else has asked the people living at Falkland how they feel about the proposal or what they want. I asked representatives of AIM if they, themselves, had talked to the residents and got no response. AIM seems to think that displacing 182 households and destroying historic buildings is justified by making a deal with the developer to get a few dozen lower-priced apartments in White Oak. Why should current residents pay the price so that AIM can put a feather in their cap? How dare they tell me where I and the rest of the current residents living in the North section of Falkland may live. Why should we and Falkland be the band aid for Montgomery County's affordable housing problem?

The residents I spoke with love living at Falkland and do not want to be forced to move. They chose Falkland for many reasons, including diversity of residents, green, open spaces and a sense of community. Falkland is a safe place where residents plant flowers and herb gardens and put carved pumpkins on the stone walls at Halloween. Even Home Properties' website touts Falkland as having "the unique extra...mature landscaping not found in most urban apartment communities." Ironic that Home Properties is willing to use the rarity of the setting as a selling point while preparing to obliterate the very same.

It simply is not very logical to dismember the Falkland complex, declaring one-third less historic and less important than the remaining two-thirds. When signing up to rent at Falkland there is nothing distinguishing the sections; all were designed by the same architect; and the north parcel not only is joined to the south by a streambed which runs under East-West Highway, but also by an underground tunnel still used by maintenance staff to get from one section to the other. Why, now would one section not be considered historic while the other two are? It might make more sense to explore developing a high-rise housing project on the parcel that contains the Rite Aid and the Kinkos and backs up on the metro.

The fate of Falkland currently rests with you, the Montgomery County Planning Board. I urge you, on behalf of myself and the 50+ residents who signed the letter thus far, to please save all of the Falkland-Chase Apartments and designate the entire complex as an historic landmark so that the buildings will remain as the important part of Silver Spring that they have always been since Eleanor Roosevelt cut the opening ribbon in 1937.

Thank you for allowing me to testify.

Falkland Historic Designation Hearing Before Planning Board, December 6, 2007
Louis Justement, Architect
Statement by Marcie Stickle, Silver Spring Historical Society Advocacy Chair, 12/6/07

The extraordinary expertise of architect and progressive city planner Louis Justement continues to be unearthed, new information revealed. Extensive research has been carried out about this exceptional architect and the New Deal Falkland Garden Apartments over the last 20 years:

(1) Andrea Rebeck, registered and restoration architect, calls Justement an architectural "master" in her 1987 "Montgomery County in the Early Twentieth Century, A Study of Historical and Architectural Themes," completed for the Montgomery County Historic Preservation Commission and the Maryland Historical Trust, 12/87. She was engaged to survey the County and bring the Locational Atlas into the 20th Century. She places Justement in the same company as Frank Lloyd Wright and John Ebersohn, of "national prominence" ("Theme VI: C. Important Buildings, or Works by "Masters," p. 30). She recommends The Falkland's placement on the National Register.

"He developed a design which combined masterful site planning with a novel mixture of townhouse units placed among apartment blocks. The success of this project encouraged a number of similar developments in the Southern portion of the County" . . . p. 10.

Andrea Rebeck also states: "The first garden apartment complex in Montgomery County, and by far the largest and most ambitious, was the Falkland Apartments built in 1936-1938 by the Blair family on part of their former farm in Silver Spring. The Falkland's architect, Louis Justement, studied many projects for moderate income families, including Colonial Village in Arlington, Va., and Chatham Village near Pittsburgh."

Justement: "An existing Y-shaped valley has been carefully preserved and this has permitted the retention of practically every tree on the original site. The use of courts opening on the surrounding streets permits greater variety in appearance and a more economical use of the land, while providing the same density per acre as typical row housing. The preservation of existing trees provides privacy as well as agreeable surroundings. The living porches generally face the rear garden and there are play areas for small children," "New Cities for Old," pp. 140-141.

Justement won professional acclaim for his Falklands project.

(2) American Architects Directory, 1962, 2nd Edition, notes Falklands won an international award, an Honorable Mention from the Fifth Pan American Congress of Architects, 1940. Justement also designed Howard University Law School, Medical School, Administration Building; Sibley Memorial Hospital; the Meridian Hotel, which won an Award of Merit from the Washington Board of Trade, 1942. In 1921, won two out of three first prizes in the "National Own Your Own Home Competition." Admitted to AIA in 1921.

(3) **"In 1946, he was one of only eight architects elected a Fellow of the American Institute of Architects, the highest honor the profession can bestow on its peers,"** Karel Yasko, FAIA, Counselor for Fine Arts & Historic Preservation, and assistant commissioner for design and construction, General Services Administration, 10/84, letter to County Council.

"Previous to the award, the leading architectural magazine in 1938 in extensive coverage cited Falkland as a prime example of multiple housing in its concept and planning advances. Through these publications Falkland had a great influence on post-war housing planning, beyond the borders of Montgomery County."

"Within the architectural profession, he [Justement] was held in great esteem . . . and established a national reputation for his urban planning and housing," Karel Yasko, Ibid., 1984.

(4) **Justement's 1952 E. Barrett Prettyman Federal (United States) Courthouse on Constitution Ave. is National Register eligible, and a contributing building to the Pennsylvania Avenue National Historic Site, according to the Wash., D.C., Preservation Office, and the D.C. Preservation League, 3/28/05. The Pa. Ave. National Historic Site extends from Capitol Hill to the White House.**

Justement's Federal Courthouse is also on the General Services Administration Fine Arts & Arts Commissions' Historic Properties List, National Capital Region. Prettyman Courthouse is included in an American Institute for Architects Guidebook.

Justement was awarded the contract for the design, drawing and specification preparation of the new Courthouse in 1945; **Harry Truman laid its cornerstone in June 1950**, according to the Federal Courthouse Web site:

"On September 5, 1945, the Commissioner of Public Buildings awarded a contract to local architect Louis Justement for the design, drawing and specification preparation of the new courthouse. The District of Columbia officially deeded Reservation 10 to the federal government in 1949. Louis Justement generally conformed to the stripped classical styles and massing of the surrounding buildings, but the spacial arrangements and site planning for the E. Barrett Prettyman Federal Courthouse differed from its neighbors. New technologies, such as fluorescent lighting and air conditioning, allowed Louis Justement to abandon the previous structures' courtyard plan-type, and arrange rooms within a large, continuous floor plate. Louis Justement's work was approved on January 14, 1948, and ground was broken in August of 1949. On June 27, 1950, the first day of the Korean War, President Harry S. Truman laid the cornerstone, and the building opened in November of 1952."

(5) **Justement's Harris & Ewing Photographic Studio, is on the National Register, 1311-1313 F St., N.W., D.C., 1900-1924, in Renaissance style, added 1994. At that time of his design, he was junior partner of Sonneman & Justement.**

(6) Justement designed the Longworth House Office Building on Capitol Hill in 1933.

(7) **Photographs of Justement's D.C. bridges are in the prestigious Historic**

American Buildings Survey and Historic American Engineering Record Collection, since 1933, at the Library of Congress, in the "Built in America Collection." <http://memory.loc.gov/cgi-bin/query>. Bridges he designed:

- a. K Street Bridge, Spanning Rock Creek & Potomac Parkway, Washington, D.C.
- b. Massachusetts Avenue Bridge, Spanning Rock Creek & Potomac Parkway, Washington, DC.

HABS/HAER collections document achievements in architecture, engineering, and design in the United States and its territories through a comprehensive range of building types and engineering technologies.

(8) Photograph of a Justement's winning House design ("Own Your Home Competition") for "Own A Home Exposition, Inc.," 1920 or 1921, in Library of Congress Prints & Photographs Collection.

(9) **Photographs of Justement's works are in architect Arthur Heaton's LOC collection;** they were colleagues in the Washington Renovise movement of the 1930s. "Architectural drawing for a model house ("exhibition house") for the "Renovize Washington Campaign," Washington, D.C. (Heaton was first supervising architect of Washington National Cathedral, designed National Geographic buildings, Washington, D.C., National Dry Cleaning Institute, Silver Spring.)

(10) **31 of Justement's works are photographed and featured within the Library of Congress extensive collection of renowned photographer Theodore Horydczak, 1890-1971, in "Washington as It Was, 1923 to 1959," of architecture and social life of the Washington metropolitan area.**

Justement used Horydczak's aerial photograph of the "Falklands," and Fort Dupont Houses, in his book, "New Cities for Old." See: Library of Congress, <http://memory.loc.gov/ammem/thchtml/thhome.html>

(11) See: www.architectureweek.com/2001/0829/classic_home.html

"Architecture Week," Page H1, 29 August 2001, Features Justement's "Classic Home" on first page of its Web site, to advertise "500 Small Houses of the Twenties," 1990 edition, Dover Publications, currently being sold on Amazon.com, and elsewhere, compiled from original "The Books of a Thousand Homes," 1923.

"Garden side overview of Classic Home 002, designed by Louis Justement, architect: This plan indicates a dwelling somewhat like a compact four-room house, but providing considerably more living space. Exterior construction is straightforward stucco, and the use of Spanish-type garden walls is indicated as adding considerably to the size and architectural effect of the house. On the first floor there is a dining room, where the four room house would just have an alcove, and upstairs is a cozy deck." From "500 Small Houses of the Twenties," compiled by Henry Atterbury Smith, from "The Books of a Thousand Homes," copyright 1923. The 1990 edition is published by Dover Publications, ISBN 0-486-26300-2.

(12) George Washington University Gelman Library contains Justement's manuscripts as a "major holding."

(13) Author James Goode's photographs in the LOC collection for his book "**Best Addresses: A Century of Washington's Distinguished Apartment Houses**" (Smithsonian, 1988), include Justement's **Harvard Hall Apartments, 1928, first standard apartment with indoor swimming pool**, in Adams Morgan, D.C., and other Justement works, along with those of other exceptional architects.

From 1988 until 1989, James Goode had a special "Best Addresses" exhibit at The Building Museum, Wash., D.C.

Enclosure:

AIA Press Release Upon Louis Justement Attaining AIA Fellow Status, 1946,
Before he had designed the Federal Courthouse and other works:

Louis Justement, Washington, D.C. Chapter

Admitted to the Institute in 1921. Has made notable contributions to the profession of architecture, particularly in group housing. A pioneer in this field, his executed work bears eloquent testimony to his sensitive and thorough understanding of this problem and to his noteworthy ability as a designer. His writings and activities in the field of city planning have further increased his usefulness and effectiveness to the profession and the public. In recognition of his architectural achievements and of his extensive and valuable services to The Institute and the Washington Chapter, he has been advanced to Fellowship in The American Institute of Architects.

See <http://www.loc.gov/rr/print/adecenter/essays/Scott.html> (house designs as models):

"In 1921 the Own a Home Exposition Company with offices in Chicago and New York sponsored a competition entitled 'Own Your Home Competition,' in which architects were invited to provide designs for modest suburban homes in four categories established according to materials. Washington architect Louis Justement won first prizes for his four-room frame Colonial cottage as well as his house constructed with metal lath, back plaster and stucco (ADE - UNIT 2879, no 17 A size). His entry for a six-room stucco cottage earned a mention"

It is important to note that the Planning Board in 2003 said that for Locational Atlas for Historic Properties designation "**it's either the Falkland or the Saint Charles (Garden) Apartments**"; in 2003 the Planning Board decided that the entire Falklands should be placed on the Locational Atlas. Sadly, we just recently lost the St. Charles and its environmental setting, including a huge catalpa tree green home to the residents' beloved mocking bird.

Thursday, December 06, 2007 America Online: MarciPro

Falkland Garden Apartments: Testimony of Support for Master Plan Status (Entire Site), before the Planning Board, 12/06/07, by George French, 510 Albany Ave, Takoma Park, MD, SSHS Treasurer.

I have had over 30 years experience in the construction trades and I have worked on historic homes from Georgetown to Germantown . Including the Water's house and bank barn and the Belle Dawson House both owned by the Montgomery County Historical Society. The Loughborough House in Bethesda , and the Bratenal House (Bishop's quarters) and the Headmaster of St. Alban's home, both owned by the National Cathedral.

The Falkland Apartments are a significant historic resource that begs for the highest measure of protection from Montgomery County for the enjoyment of all that visit or live there. They are an important part of our county, state and national heritage. The HPC has already confirmed the importance of this historic treasure many times, as has this planning board twice lately for Historical Atlas listing. I am glad to see the Falkland owners legal challenge against Locational Atlas listing has been dismissed, a challenge that was due only to a purported error of procedure, not based on architectural merit, that was shamefully exploited by the owners and their legal team. Please affirm the place of Falkland **in its totality** in our County heritage as a Master Plan Resource.

The case for including Falkland in the atlas has grown stronger over the past two years and support has increased.

Many preservationists were hoping for a thematic historic district for Garden Apartments as recommended by the consultant that conducted the CBD historical survey in 2003. There are so many interesting Garden Apartments worthy of designation, notably the exquisite and recently demolished St. Charles , but paramount in importance is Falkland .

Here the architect Justement respected the site topography and worked with the natural contours and features of the land. There are the original daylighted Brooks running through two sections (now intermittent in the north parcel), and behind the third (west sector) with stands of native trees significant in size and importance. Rock outcroppings retained by the architect and builder, dot the property and each enhance the natural setting and thus the aesthetic enjoyment of the area. The common areas are full of trees, gardens and green space, surrounded by architectural beauty, free from the noise and pollution of the city outside, which is how it was designed. Buildings facing the major thoroughfares have generous setbacks and trees in front. **Looking from one section toward another the major thoroughfares and traffic seem to disappear and Falkland becomes continuous.**

Each section has uniqueness, but all are connected by a common unifying theme in the Colonial Revival style, including the creation of courts and yards, separated by brick or stone low-rise walls. There is symmetry and order to the building layout in all quadrants, showing the extraordinary degree of planning involved, considering the natural, but desirable lay of the land.

Adjoining buildings are staggered or of a different style so as not to give the impression of row houses, but allow for a variety of apartment types and comparable densities. The side-gable buildings, all of white brick, except for one, are interspersed with the flat-roof parapet buildings, which are natural brick, except for two designed to be white brick in one courtyard. A few of the free standing gable-roof buildings have full gable returns on each end, facing front and back, with fireplaces and brick masonry chimneys.

Each section has a hidden array or two, of brick car garages, reminiscent of horse stables or carriage houses. One of these supports a ninety-foot cylindrical smokestack, constructed of square brick, possibly the incinerator or part of the power plant. There are oculi windows over many entrances.

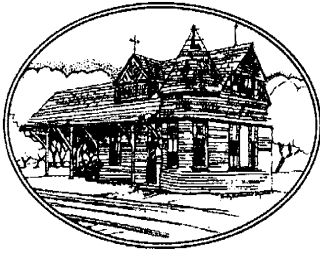

Some are circular with eight radial panes others vertically elongated and octagonal with nine panes. All double-sash windows throughout the project are six over six in the Colonial style. All have louvered shutters. Flemish bonding of the exterior brick walls is prevalent throughout.

There is a variety of intriguing entrances. Some have porticos with fluted columns. Some have beveled limestone surrounds leading into a recessed double entryway with a quarry tile floor. Some have flush limestone casing or brick design with matching dentils. The corner entrances have quarter conical or tent-like copper roofs with square columns. Quoins (the architectural corner ornamentation) are limestone or recessed brick. Watercourses can be stone or quarter round brick. Some of the buildings have stone foundations. Stringcourses are of limestone, staggered brick and even some stone. Other architectural aspects have been well documented.

Falkland is steeped in history and character in an extraordinary environmental setting with impeccable architectural significance.

We are not so desperate for housing in the Silver Spring CBD that we need to give up this irreplaceable outstanding historic resource. New multifamily housing approved, under construction, or recently completed since 2002 equal about 3700 units. Adding in proposed projects brings the total of new units to over 5000, not including the Falkland North proposal.

This massive proposal would build 1059 new units in towers and another supermarket in an area already choked by traffic, the largest housing development ever constructed in downtown Silver Spring (the Blairs are larger, but the Blairs are *several* complexes and in any case stretch over 27 acres). We are in danger of sinking in a sea of concrete high-rises in the SS CBD. Smart growth aside, we should draw the line somewhere and Falkland is, of course, the logical and crucial place.

Historic Takoma, Inc.

"Preserving the Heritage of Takoma Park-MD and Takoma-DC"

December 6, 2007

Mr. Royce Hanson, Chairman
Montgomery County Planning Board
8787 Georgia Avenue
Silver Spring, MD

Dear Mr. Hanson,

Historic Takoma, Inc. supports the placement of the entire Falkland Apartment complex on the Montgomery County Master Plan for Historic Preservation. It is clear that this property meets the criteria for placement on the Master Plan.

The support for this designation is overwhelming. There are scores of national, state and county organizations that support this designation, including notably the National Trust for Historic Preservation. As Montgomery County transforms itself to meet its needs for the future, it is critical that it recognizes the importance of preserving its significant historic resources, which are very few and are worthy of protection. Montgomery County's leadership on this issue will be closely observed.

There is tremendous community support for this action. We urge you to protect the entire Falkland Apartment complex by placing it on the county Master Plan for Historic Preservation.

Sincerely,

Sabrina Alcorn Baron
President

Lorraine J. Pearsall
Vice President

Montgomery County Group

Testimony Before the Planning Board in Support of Adding the Falkland Apartment Complex to the County's Master Plan for Historic Preservation, December 6, 2007

For the record, I am Anne Ambler, speaking on behalf of the Sierra Club, Montgomery County Group. My testimony reflects our Executive Committee's vote on this issue in February 2007. The Audubon Naturalist Society also supports this statement.

The Sierra Club's mantra has long been dense development close to rapid transit, a key component of Smart Growth. But Smart Growth is not just high rises and mixed use around Metro stations; it is also creation or preservation of a sense of place through excellent design, variety, historical continuity, and moments of green respite.

Is it "smart," then, to consign to the landfill a well-designed, artistically detailed, solidly built, historically and environmentally significant complex of below market rate apartments? We don't think so, and strongly support the recommendation of the Historic Preservation Commission to add the entire Falkland Apartment complex to the County's Master Plan for Historic Preservation.

Last Saturday here I heard experts lament the lack of design in modern urban America. But in 1936 when the Blairs began to build Falkland, their architect Louis Justement paid considerable attention to the layout of the buildings, the detail of their facades, the variety of their frontages and roof lines, and the *environmental attributes of the site*, which he intentionally preserved.

As to these attributes, Falkland's remnant forest of large native trees--oaks, hickories, locusts, sassafras, tulips, red maples, black walnut, and even American elms--provide a shade break for refugees from the Silver Spring "heat island" and remove carbon dioxide from the air. All three sectors of the Falkland property have a wide variety of trees, some planted at construction; many predating construction. The north parcel, currently most at risk, contains nine species of specimen trees. These trees need the protection that the Master Plan can provide.

Architect Justement wrote: "...an existing Y-shaped valley has been carefully preserved." Indeed, this Rock Creek tributary that originates in the north sector and continues in the southeast sector is the last above-ground stream in downtown Silver Spring. Will we lose this one as well?

The Falkland complex provides precious, irreplaceable green space and variety—much-needed amenities in this CBD, host to over 5,000 new, approved, under construction, and proposed units, exclusive of the Falkland proposal, with more surely coming.

We preserved the Silver Theater and the B&O Station as landmarks of Silver Spring. We also preserved the corner strip mall at Georgia Ave. & Colesville Rd., totally out of place in an urban setting. But the strip mall adds the sense of place and historical continuity to Silver Spring. So too should we preserve the Falkland complex, the Blair family legacy of social responsibility and environmental protection.

The Sierra Club urges you to add the entire Falkland Apartment complex to the County's Master Plan for Historic Preservation. This is an investment in the future of Silver Spring and the county. Thank you for your consideration.

December 3, 2007

Mr. Royce Hanson, Chairman
Montgomery County Planning Board
8787 Georgia Avenue
Silver Spring, MD 20910

Dear Mr. Hanson:

Speaking from personal experience, I am a statistic that could also become the plight of residents currently living in the Falkland-Chase garden apartments. A little background information— On November 30, 2006 I was abruptly forced out of my apartment home and displaced for 45 days. Approximately 200 residents live at the Charter House. During this displacement, we were sheltered by the tax payers of Maryland.

Concerning future plans for the current residents of Faulkland-Chase, I have several concerns and questions:

1. Where will Parks and Planning house the evacuees?
2. Who will pay for the residents' shelter while their home is being destroyed and a new structure is built?
3. Will the residents be able to afford the new apartment once complete?
4. Will there be adequate parking for the huge increase in apartment units?
5. What will be the health risks while fewer trees will be there to filter the air from automobile emissions in such a small space with another high rise apartment in close proximity?
6. Aesthetically speaking, should yet another high rise building be constructed right across from a high rise complex along with another one close by where nearly 5000 new units are already planned, excluding the Falkland's landmark property?
7. Lastly, will the current sewer/water and electrical systems be able to accommodate this additional proposed usage? If not, what plans are being made for both short term and long range usage?

In the name of sanity, I implore you to kindly allow the nine (9) acres of landmark properties to remain in tack.

Your consideration is greatly appreciated.

Sincerely,

Yvonne Dunlap
1st Vice President

Re: Home Properties Falkland North Proposal

I serve Cedar Lane Unitarian Universalist Church as the Assistant Minister and Minister for Pastoral Care. While I am a called minister of the congregation, my views may not reflect those of all of our members.

Our members live all throughout the District and Montgomery County – with a large number in Silver Spring. The Cedar Lane congregation is about 860 adults, 300 children and a couple hundred loosely-affiliated “friends” of the church. Our annual budget is close to one million dollars. We are proud to be one of the founding communities of Action in Montgomery.

Our congregation has a long history of engaging with environmental issues through research, advocacy, prophetic witness from the pulpit and celebration of the Earth - its beauty and its many precious resources. Continuing this tradition, our congregation voted in March of 2007 to name global warming and environmental health the primary focus of our social justice resources this year. It is in this context that I come before you and ask you to consider the unique environmental benefits that the Home Properties development of Falkland North would offer the County.

The Falkland North project would create more green space in downtown Silver Spring by renovating and opening a one-acre park on the east parcel. As Silver Spring grows in density, it is the rare project that offers to *increase* the amount of park land that can be enjoyed by all residents and visitors of the city.

The Falkland North proposal is in harmony with a model of “Smart Growth” by situating more than 1000 units of housing within 700 yards of a Metro station and in close proximity to stores, doctor’s offices and other amenities. With the critical need to decrease carbon emissions in our environment, this development would allow more Montgomery County residents to commute to work and school and live active lives without needing a car.

In addition, Home Properties plans to build Falkland North and its other new development in Silver Spring (on East-West Highway) **in compliance with “green building” standards.**

And, finally, there are few properties in Montgomery County with so much land in such close proximity to a Metro station that it would be difficult to transfer this environmentally-sound model to another area of Silver Spring. This makes support of the Falkland North proposal all the more urgent.

We have this innovative opportunity with Home Properties and Falkland North. In the spirit of environmental stewardship, on behalf of the many residents whose lives would be enhanced by this project, I encourage you to clear the way for Home Properties to move forward uninhibited with their plans.

With respect,

A handwritten signature in cursive script, appearing to read "Heather K. Janules".

DEPARTMENT OF PLANNING
THE MARYLAND-NATIONAL CAPITAL
PARK AND PLANNING COMMISSION

Re: Falkland Apartments (M:36-12)

Dear Mr. Hanson:

I understand that the Planning Board will evaluate the Falkland Apartments for eligibility for designation on the Montgomery County Master Plan for Historic Preservation on December 6, 2007, and would like to offer the following for your consideration. The Falkland complex is included in the Maryland Inventory of Historic Properties as M:36-12. This office believes it is also eligible for listing in the National Register of Historic Places.

The Falkland Apartments is an outstanding example of a 1930s garden apartment complex, designed by prominent architect Louis Justement. The first garden apartment complex in Montgomery County, and the first large-scale rental housing project in Maryland whose mortgage was backed by the Federal Housing Administration, the property is associated with significant trends in housing development during the Depression era. It derives additional significance from its association with the Garden City movement of the period, whose principles are evident in its site planning and design, providing quality, affordable housing in pleasant surroundings. The entire range of resources occupying the entire 22-acre parcel is integral to its significance, and the loss of any portion of the complex would compromise the National Register eligibility of the remainder.

I hope these comments may be of some use in your deliberations. Please do not hesitate to contact Peter Kurtze at (410) 514-7649 with any questions.

Very truly yours,

J. Rodney Little
Director, Maryland Historical Trust
State Historic Preservation Officer

HPC

Testimony of Dr. David Rotenstein to the
Montgomery County Planning Board
6 December 2007

Evaluation for Master Plan for Historic Preservation Eligibility, Falkland Apartments, Locational
Atlas Resource #36/12

Good afternoon. For the record, I am David Rotenstein, a member of the Historic
Preservation Commission.

The Montgomery County Historic Preservation Commission has determined that the
Falklands Apartments merits designation in the Montgomery County *Master Plan for Historic
Preservation*. The Falkland Apartments are listed in the Montgomery County *Locational Atlas
and Index of Historic Sites*. The HPC held a hearing at its August 15, 2007, meeting to evaluate
whether the Falkland Apartments merits designation in the *Master Plan for Historic
Preservation* and we heard testimony from the preservation proponents who nominated the
property and from the property owners and their representatives. In its review, the HPC found
that the Falkland Apartments **meets three of the nine criteria** codified at Chapter 24-A of the
Montgomery County Code for designation in the *Master Plan for Historic Preservation*. We
found that the Falkland Apartments merits designation in the *Master Plan*.

In its consideration of *Locational Atlas* resources that are subject to demolition plans,
Montgomery County Code requires the planning board make a determination of eligibility for
designation, considering **criteria related to a property's historical and cultural significance as
well as its architectural and design significance**. Historic preservation staff have determined that
the Falkland Apartments is eligible for designation **for its historical and cultural associations and
its architectural and landscape qualities**. Our responsibilities today are to evaluate not future land
uses but how the Falkland community does or does not meet the criteria for designation.
Proposed land uses at this site are a separate topic and should be the subject of future Planning
Board discussions.

This is the second time I have had the opportunity as a member of the Historic
Preservation Commission to hear a case related to the historical significance of the Falkland
Apartments; the first was in the spring of 2005. I voted enthusiastically to support adding the
property to the *Locational Atlas* back then and I voted this past August that the property meets
the designation criteria for addition to the *Master Plan for Historic Preservation*. My votes were
informed by the outstanding scholarship documenting the property by the Silver Spring
Historical Society and its collaborators as well as the thorough analysis by Historic Preservation
Section staff in their application of Montgomery County's designation criteria. I also based my
votes on more than two decades of professional experience in historic preservation documenting
and evaluating buildings and landscapes under federal, state, and local historic preservation laws.
The Falkland Apartments property **meets and indeed exceeds the minimum criteria established**
by law in the Montgomery County Code for designation in the *Master Plan for Historic
Preservation*. This is a conclusion reached by eminent historians and architectural historians with
expertise in twentieth century architecture, urbanism, and social history, as evidenced by the

many letters of support written to the Board, as well as the County's expert historic preservation staff.

The three parcels on which the Falkland Apartments were constructed in two phases between 1936 and 1938 collectively tell a story about Montgomery County's past that resonates loudly and clearly in the twenty-first century. Montgomery County is a chapter in an American history that also includes chapters a few miles to the south in Washington and in Pittsburgh, Arlington, and New York City. It is a story about economics, aesthetics, and pragmatism.

A basic human need is the requirement for safe, decent, and affordable housing. The Falkland Apartments and its counterparts throughout the United States were built at a time of economic crisis when private sector investment in real estate and construction was constricting in the grip of Depression. Conceived at a time when Garden City design principles and public sector interventions combined to spur the construction of garden apartment communities throughout the nation, the Falkland Apartments provide a three-dimensional view of Silver Spring and the county on the eve of the Second World War. Workers were drawn to the Washington metropolitan area in search of federal jobs and along with them came needs for housing, infrastructure, and retail enterprises. The Falkland Apartments created affordable density on a humane scale in a safe and aesthetically pleasing environment.

The Falkland community has physical ties to Silver Spring's historic commercial district, commuter rail, and civic institutions. As a whole, all three parcels and the buildings with their associated landscapes are dynamic living symbols of Silver Spring's interwar development and postwar boom. Unlike other historic properties in Montgomery County that survive as mere shells of their former appearances and uses, the Falkland Apartments of 2007 recapitulates the Falkland Apartments of 1940 in location, design, materials, setting, feeling and, in that dimension that makes historic properties relevant to today, use.

The Falkland Apartments property merits designation as a Montgomery County historic district. I ask that the Montgomery County Planning Board join the other regulatory agencies who have reviewed the Falkland Apartments' significance in local, state, and even national history and who have found that the district warrants the protection afforded by designation as a legally recognized historic property. The HPC furthermore supports "Option 2" as presented in your staff report and recommends that the Planning Board direct staff to prepare an amendment to the *Master Plan for Historic Preservation* for the HPC and other reviewing bodies to review in the near future. In accordance with Montgomery County Code Chapter 24A, the Planning Board should vote to find all three parcels comprising the Falkland Apartments eligible for designation.

Resolution No. 10-1357
Introduced: June 11, 1985
Adopted: June 11, 1985

COUNTY COUNCIL FOR MONTGOMERY COUNTY, MARYLAND
SITTING AS THE DISTRICT COUNCIL FOR THAT PORTION
OF THE MARYLAND-WASHINGTON REGIONAL DISTRICT
WITHIN MONTGOMERY COUNTY, MARYLAND

By: District Council

Subject: Amendment to the Approved and Adopted Master Plan for Historic Preservation in Montgomery County, Maryland re: Falkland Apartments

Background:

1. On September 5, 1985, the Montgomery County Planning Board transmitted to the Montgomery County Council a Final Draft Amendment to the Historic Preservation Master Plan indicating the Falkland Apartments as not suitable for regulation under the Historic Preservation Ordinance, Chapter 24A of the Montgomery County Code.
2. Sites found unsuitable for designation are listed in an appendix to the Master Plan for Historic Preservation in order to clarify that such sites have been reviewed and considered but excluded from historic designation and therefore not subject to protection and limitation under the Historic Preservation Ordinance.
3. The Montgomery County Planning Board has recommended to the Council that the marginal historic significance of the Falkland Apartments do not outweigh the importance of the property in implementing two major goals of the Silver Spring Sector Plan: 1) spurring economic development in the Silver Spring CBD, and 2) providing addition residential opportunities in close proximity of METRO.
4. The Montgomery County Historic Preservation Commission has recommended to the County Council that the entire Falkland Apartment complex be designated for historic preservation for the following reasons:
 - Falkland was a prototype for garden apartment development, community building, and site planning in Montgomery County.
 - Falkland is an example of the classical design elements which have evolved from the "Garden City" movement.
 - As one of the first three projects insured by the Federal Housing Administration (FHA), Falkland served as a model for subsequent projects.
 - Falkland's architect, Louis Justement, pioneered a new aspect of architectural practice--and his plan for Falkland represents the work of a "Master" in this emerging field of "environmental architecture."
 - Falkland is a landmark entrance to Montgomery County on Sixteenth Street.

Exhibit "B"

5. On October 23, 1984, the Montgomery County Council held a public hearing regarding the Final Draft Amendment to the Master Plan for Historic Preservation, at which time testimony was presented for and against the designation of the Falkland Apartments as an historic resource.
6. On April 19, 1985, the Planning, Housing and Economic Development Committee reviewed the public hearing testimony, and the issues raised in connection with the master plan amendment.
7. The Planning, Housing and Economic Development Committee was advised at the April 19, 1985 meeting that the prospective redevelopers of the Falkland property are committed to rehabilitating and retaining 450 of the Falkland Apartments as low-rise, garden apartments for a minimum of fifteen (15) years.
8. It was the position of the Planning, Housing and Economic Development Committee and was so recommended to the County Council, that only that portion of the Falkland Apartments identified as the 'cupola building' be designated for historic preservation, and that the remainder of the complex be listed in the appendix of the Historic Preservation Master Plan as not suitable for historic preservation.
9. On June 11, 1985, the Montgomery County Council reviewed the proposed Final Draft Amendment to the Historic Preservation Master Plan, and the recommendation of the Planning, Housing and Economic Development Committee.

Action

For these reasons, the County Council for Montgomery County, Maryland, sitting as the District Council for that portion of the Maryland-Washington Regional District in Montgomery County, Maryland approves the following resolution:

The Master Plan for Historic Preservation is hereby amended as follows:

1. Designate the portion of the Falkland Apartment complex known as the 'cupola building', located at 8301 Colesville Road, in Silver Spring, as suitable for regulation under the Historic Preservation Ordinance, Chapter 24A, of the Montgomery County Code.
2. Indicate in the appendix to the Master Plan for Historic Preservation that the balance of the Falkland Apartment complex has been reviewed and found not suitable for regulation under the Historic Preservation Ordinance.

This is a correct copy of Council action.

Mary A. Edgar, Acting Deputy Secretary
County Council

- 1995f *HAER Documentation of the Kelly-Springfield Tire Plant, Cumberland, Maryland* (Principal Investigator). Prepared for the Allegany County Commissioners, Cumberland, Maryland.
- 1996a *Historical and Architectural Documentation of the Elmer Wolfe High School* (with Deborah Whelan). Submitted to Carroll County Public Schools, Westminster, Maryland.
- 1996b *Mason Row Maintenance Plan and National Register Documentation, Naval Weapons Station, Yorktown, Virginia* (with Katherine Grandine, Hugh McAloon, and Brooke V. Best). Submitted to Naval Facilities Engineering Command.
- 1996c *Historic American Building Survey Documentation: 5900-5910 Dalecarlia Place, Washington Aqueduct* (Principal Investigator; by Lori B. O'Donnell). Prepared for U.S. Army Corps of Engineers, Baltimore District.
- 1996d *Cultural Resource Investigations at Bayou Rapides Drainage Structure and Pumping Plant, Alexandria, Louisiana* (Principal Investigator; by Hugh McAloon). Submitted to U.S. Army Corps of Engineers, Vicksburg District.

- 1996e *HAER Recordation of Naval Surface Warfare Center Carderock Buildings 7, 11, 12, 13, 138, 139, 157* (Principal Investigator; by Geoffrey Melhuish). Submitted to Engineering Field Activity-Chesapeake, Washington D.C.
- 1996f *Architectural Investigations for the Wedgewood Industrial Park*. Submitted to Parker, Cade & Large, Inc., Millersville, Maryland.
- 1996g *Langley Air Force Base Cultural Resource Management Plan* (Principal Investigator; by Brooke V. Best, Martha Williams, and Lex Campbell). Submitted to the U. S. Army Corps of Engineers, Baltimore District.
- 1996h *Documentation of Bowie Tobacco Barn, Westwood Property, Prince George's County, Maryland* (Principal Investigator). Prepared for Donatelli & Klein, Inc.
- 1997a *Cultural Resources Investigations for Alignment and Environmental Studies, Halfway Boulevard Extended and Newgate Boulevard (PUR-577), Washington County, Maryland* (with April L. Fehr, Martha Williams, W. Patrick Giglio, and Ellen Saint Onge). Prepared for KCI Technologies.
- 1997b *Historical and Architectural Resources Protection Plan (HARP), Naval Surface Warfare Center, Carderock Division, Maryland* (Principal Investigator; by Geoffrey E. Melhuish and April L. Fehr). Submitted to Engineering Field Activity - Chesapeake.
- 1997c *Revised National Register Documentation for "Guilford", Frederick County, Maryland* (Principal Investigator; by Lex F. Campbell). Prepared for Claggett Enterprises, Inc.
- 1997d *Navy Cold War Communication Context: Resources Associated with the Navy's Communication Program, 1946-1989* (Principal Investigator; by Brooke V. Best, Katherine Grandine, and Stacie Y. Webb). Submitted to Atlantic Division, Naval Facilities Engineering Command.
- 1997e *Intensive Architectural Survey at Naval Base Norfolk, Virginia* (Principal Investigator; by Katherine E. Grandine). Submitted to Atlantic Division, Naval Facilities Engineering Command.
- 1997f *Washington Aqueduct Cultural Resource Management Plan* (Principal Investigator; by Eliza E. Burden and Martha R. Williams). Submitted to the U.S. Army Corps of Engineers, Baltimore District.
- 1997g *Architectural Investigations of St. Juliens Creek Annex* (Principal Investigator; by Hugh B. McAloon, Geoffrey E. Melhuish, William T. Dod, and Martha R. Williams). Submitted to Atlantic Division, Naval Facilities Engineering Command.
- 1997h *Architectural Scoping Study: The Villages at Urbana, Frederick County, Maryland* (with Geoffrey L. Melhuish). Submitted to Monocacy Land Company, L.L.C.
- 1997i *Architectural and Historic Evaluation, U.S. Naval Air Station Keflavik, Keflavik, Iceland* (Principal Investigator; by Brooke V. Best, Geoffrey E. Melhuish, and Thomas W. Davis). Prepared for Atlantic Division, Naval Facilities Engineering Command.
- 1997j *Dalecarlia Water Treatment Plant Historic American Engineering Record Documentation and Dalecarlia Employee Dwellings Historic American Building Survey Documentation* (with Lori O. Thursby). Prepared for Baltimore District, U.S. Army Corps of Engineers.

- 1997k *Architectural Impact Assessment for the Bethesda Trolley Trail, Bridges Over I-495 and I-270* (with Lex F. Campbell). Prepared for Hurst-Rosche Engineers, Inc.
- 1997l *Supplemental Phase I Archeological Investigations for the Proposed Storm Water Retention Pond, Naval Surface Warfare Center Carderock, Montgomery County, Maryland* (Principal Investigator; by April L. Fehr and Andrew D. Madsen). Prepared for Engineering Field Activity -Chesapeake, Washington, D.C.
- 1997m *Addendum Report to Phase I Archeological and Architectural Investigations for the Monrovia Wastewater Treatment Plant, Frederick County, Maryland* (with Geoffrey E. Melhuish and April L. Fehr). Prepared for Frederick County Department of Public Works.
- 1997n *Center of Military History, U.S. Army Ordnance Museum, Outdoor Ordnance Collection at Aberdeen Proving Ground, National Register Nomination* (Principal Investigator; by Katherine Grandine and Jane Armstrong). Prepared for Aberdeen Proving Ground and Baltimore District, U.S. Army Corps of Engineers.
- 1997o *HABS Recordation of Stephen J. Barbre Middle School, Kenner, Louisiana*. Submitted to Southeast Regional Office, National Park Service.
- 1997p *Architectural Survey and Impact Assessment for the Proposed Royal Oaks Subdivision, New Market, Maryland* (Principal Investigator; by Lex F. Campbell). Prepared for NML Corporation.
- 1997q *Architectural Evaluations of Properties I and IV for the Washington Gas Company Pipeline, Prince George's and Charles Counties, Maryland* (Principal Investigator; by Lori O. Thursby). Prepared for Stone & Webster Environmental Technology & Services.
- 1997r *Architectural Documentation of the Guilford Tenant House, Frederick, Maryland* (Principal Investigator; by Lex Campbell). Prepared for Clagett Enterprises, Inc.
- 1997s *Object Inventory, Edgewood Area, Aberdeen Proving Ground Summary Report* (with Katherine Grandine and Jane Armstrong). Prepared for Baltimore District, U.S. Army Corps of Engineers.
- 1997t *Architectural Investigation of St. Timothy's School, Baltimore County, Maryland* (with Lex Campbell and Jane Armstrong). Prepared for St. Timothy's School, Stevenson, Maryland.
- 1997u *Historic American Buildings Survey Documentation: Abbey Mausoleum and Washington Navy Yard Buildings 28, 142, 143, 198, 201, 104, and 197* (Principal Investigator; by Katherine Grandine and Geoffrey Melhuish). Prepared for Engineering Field Activity - Chesapeake.
- 1997v *Architectural Investigations of the Pettingall/Bussard Farm, Frederick County, Maryland* (Principal Investigator; by W. Patrick Giglio and Jane Armstrong). Prepared for Maryland National Golf Club.
- 1997w *Architectural Resources Survey of 3,700 Acres, Naval Security Group Activity, Northwest, Chesapeake, Virginia* (Principal Investigator; by Brooke V. Best). Submitted to Atlantic Division, Naval Facilities Engineering Command.
- 1997x *Historic Preservation Plan: United States Naval Academy, Annapolis, Maryland* (Co-Principal Investigator; by Lex Campbell, John Seidel, and Martha Williams). Prepared for Engineering Field Activity - Chesapeake.

- 1997y *Preservation Analysis of the Derr House, Frederick, Maryland* (Principal Investigator). Prepared for Natelli Associates, Inc.
- 1998a *Architectural Analysis of Gateway Park Development, Prince George's County, Maryland* (Principal Investigator). Prepared for Federal Realty Investment Trust.
- 1998b *Intensive Level Architectural Survey at Naval Surface Warfare Center, Carderock Division, Annapolis Detachment, Annapolis, Maryland* (Principal Investigator; by Geoffrey Melhuish and Lori O. Thursby). Submitted to the Department of the Navy, Engineering Field Activity-Chesapeake.
- 1998c *Historic American Engineering Record Documentation: Caryville Bridge, Holes and Washington Counties, Florida* (Principal Investigator; by Lex Campbell, Brooke Best, and Michael Godzinski). Prepared for Florida Department of Transportation.
- 1998d *National Register Documentation for Indian Head White Plains Railroad, Indian Head Naval Surface Warfare Center, Charles County, Maryland* (Principal Investigator; by Elaine Kiernan and Lex Campbell). Prepared for Engineering Field Activity - Chesapeake, Washington Navy Yard.
- 1998e *Mason Row National Register Nomination, Naval Weapons Station Yorktown, Yorktown, Virginia* (Principal Investigator; by Katherine Grandine). Prepared for Atlantic Division, Naval Facilities Engineering Command.
- 1998f *Architectural Investigations at Naval Station Roosevelt Roads, Roosevelt Roads, Puerto Rico* (Principal Investigator; by Brooke Best, W. Patrick Giglio, Geoffrey Melhuish, and Julian Granberry). Prepared for Atlantic Division, Naval Facilities Engineering Command.
- 1998g *MHT Documentation for the Gay Street Historic District* (Principal Investigator; by Elaine Kiernan). Prepared for Maryland Department of General Services.
- 1998h *Aberdeen Proving Ground Cold War Era Historic Context* (Principal Investigator; by Katherine Grandine). Prepared for Baltimore District, U.S. Army Corps of Engineers.
- 1998i *Architectural Investigations at Marine Corps Air Station Cherry Point, North Carolina* (Principal Investigator; by W. Patrick Giglio, Brooke Best, Lex Campbell, and Hugh McAloon). Prepared for Atlantic Division, Naval Facilities Engineering Command.
- 1998j *Historical and Architectural Resources Protection Plan (HARP), Naval Surface Warfare Center, Carderock Division, Maryland* (Principal Investigator; by Geoffrey Melhuish and April Fehr). Prepared for Engineering Field Activity - Chesapeake.
- 1998k *Architectural Survey and Assessment of Naval Amphibious Base, Little Creek, Virginia Beach, Virginia* (Principal Investigator; by Lex F. Campbell and Lori B. O'Donnell). Prepared for Atlantic Division, Naval Facilities Engineering Command.
- 1998l *Historical Assessment of the Laurel Machine Shop, Laurel, Maryland* (Principal Investigator; by Brian Clevon). Prepared for Chester Engineers.
- 1998m *Architectural Inventory of Norfolk Naval Shipyard and Satellite Activities, Norfolk, Virginia* (with Hugh B. McAloon, Geoffrey E. Melhuish, William T. Dod, and Martha R. Williams). Submitted to the Naval Facilities Engineering Command, Atlantic Division.

- 1998n *Wyoming Valley Levee Raising Project: Intensive Architectural Survey in the Susquehanna River Valley* (Principal Investigator; with Katherine Grandine, Elaine Kiernan, and Jane Armstrong). Submitted to the Baltimore District, U.S. Army Corps of Engineers.
- 1998o *Architectural Investigations of the Proposed Villages of Urbana Planned Urban Development (PUD) Frederick County, Maryland* (Principal Investigator; by Geoffrey Melhuish). Prepared for Monocacy Land Co., L.L.C.
- 1998p *Phase III Jackson Historic Resources Survey* (Principal Investigator; by Lex Campbell and Sheila Lewis). Prepared for City of Jackson, MS.
- 1998q *Chemical Area Storage Yard (CASY), Aberdeen Proving Ground, Edgewood Area, MHT Historic Properties Inventory Form* (Principal Investigator; with Katherine Grandine). Prepared for Dynamac Corporation.
- 1998r *Maryland Historical Trust State Historic Sites Inventory Form for Building Numbers 115, 123, 132, 144, and 153, Naval Surface Warfare Center, Carderock Division* (Principal Investigator; by Lex Campbell). Prepared for Naval Surface Warfare Center, Carderock Division.
- 1998s *Supplemental Architectural Investigations, Determination of Eligibility Documentation for Select Buildings, Indian Head Naval Surface Warfare Center, Charles County, Maryland* (Principal Investigator; by Lex Campbell, W. Patrick Giglio, and Elaine Kiernan). Prepared for Engineering Field Activity – Chesapeake.
- 1998t *Preliminary Cultural Resources Management Plan for Defense Supply Center Richmond (DSCR), Chesterfield County, Virginia* (Co-Principal Investigator with Ann Markell; Brooke Best, Bradley McDonald, Ann Markell, Henry Measells, and Brian Clevon). Prepared for Mill Creek Environmental Consultants, Ltd.
- 1998u *Phase I Architectural Survey and Archeological Investigations at Naval Communication Detachment Cheltenham, Prince George's County, Maryland* (Principal Investigator with Christopher R. Polglase; April Fehr and Katherine Grandine). Submitted to the Baltimore District, U.S. Army Corps of Engineers.
- 1998v *Integrated Cultural Resources Management Plan, US Army Garrison, Fort Belvoir, Virginia* (Co-Principal Investigator with Christopher R. Polglase; Brooke Best, W. Patrick Giglio, and Martha Williams). Submitted to Dewberry & Davis on behalf of the Environmental & Natural Resources Division, Fort Belvoir, Virginia.
- 1999a *Architectural Survey and Assessment of Naval Air Station Oceana and Naval Auxiliary Landing Field Fentress, Virginia* (Principal Investigator; by Geoffrey E. Melhuish). Prepared for Atlantic Division, Naval Facilities Engineering Command.
- 1999b *Archival and Architectural Investigations at Naval Station Roosevelt Roads, Puerto Rico* (Principal Investigator; by Brooke V. Best, W. Patrick Giglio, Geoffrey Melhuish, and Julian Granberry). Prepared for Naval Facilities Engineering Command.
- 1999c *Architectural Survey of NSGA Sabana Seca, Sabana Seca, Puerto Rico* (Principal Investigator; by Brooke V. Best). Prepared for Atlantic Division, Naval Facilities Engineering Command.

- 1999d 800 Carroll Parkway, Frederick, Maryland, National Register Nomination (Principal Investigator; by Katherine Grandine). Prepared for Stuart/Grey Corporation.
- 1999e *Architectural Reconnaissance Survey of the Proposed Beech Tree Development, Prince George's County, Maryland* (Principal Investigator; by Katherine Grandine, Elaine Kiernan, and Brian Cleven). Prepared for Ryko Development, Inc.
- 1999f National Register of Historic Places Registration Form for Florida Avenue Siphon, New Orleans, Louisiana (Principal Investigator; by Brian Cleven and Ralph Draughon). Prepared for U.S. Army Corps of Engineers, New Orleans District.
- 1999g *Indian Head Division, Naval Surface Warfare Center, Historic and Archeological Resource Protection Plan* (Principal Investigator; by Thomas W. Davis). Prepared for Engineering Field Activity-Chesapeake.
- 1999h *Historic American Engineering Record Documentation: Florida Avenue Bridge, New Orleans, Louisiana* (with Brian Cleven and Ralph Draughon). Prepared for the United States Coast Guard Eighth Coast Guard Division.
- 1999i *Archeological Evaluation of Dudderar Farm (18FR729), Urbana, Frederick County, Maryland* (with Sonja Ingram, Hugh McAloon, and Geoffrey Melhuish). Submitted to Monocacy Land Company, LLC.
- 1999j *Architectural Inventory of New Jersey Army National Guard Facilities* (Principal Investigator; by Elaine K. Kiernan). Prepared for Southwest Missouri State University.
- 1999k *Interim Report on Architectural Reconnaissance Survey of the Proposed Independence Pipeline Corridor through Lawrence, Butler, Armstrong, Clarion, Jefferson, Forest, and Elk Counties, Pennsylvania* (Principal Investigator; by Elaine Kiernan, Patrick Giglio, Brooke Best, and Martha Williams). Submitted to ANR Pipeline Company.
- 1999l *Architectural Evaluation of the Farmstead on Rosenstock North Farm* (Principal Investigator; by Katherine Grandine). Submitted to Buckeye Development Construction Company, Inc.
- 1999m Visual Impact Assessment for Hunters Brooke Subdivision. Submitted to Universal Development Company, LLC.
- 1999n National Register Evaluation of the Claiborne Storehouse (Principal Investigator; by Katherine Grandine and Ralph Draughon). Submitted to New Orleans District, U.S. Army Corps of Engineers.
- 1999o *Architectural Documentation of the Sebastian Derr House, Frederick, Maryland* (Principal Investigator; with Katherine Grandine, W. Patrick Giglio, Brian Cleven, and Barry Warthen). Submitted to Natelli Communities.
- 1999p *Letter Report for MD 18: U.S. 301 to Greenspring Road, Queen Anne's County, Maryland* (Principal Investigator; with Katherine E. Grandine, W. Patrick Giglio, and Justin Edgington). Submitted to Maryland Department of Transportation.
- 1999q *Walter Reed Army Medical Center Integrated Cultural Resources Management Plan* (Principal Investigator; with W. Patrick Giglio). Submitted to U.S. Army Corps of Engineers, Baltimore District.

- 1999r *Architectural and Historical Assessment of 9150 Darnestown Road, Rockville, Maryland* (Principal Investigator; with Brian Clevon and Katherine Grandine). Prepared for Dr. Bor-Chung Lee through Miller, Miller, & Canby, Rockville, Maryland.
- 1999s *Preliminary Cultural Resources Management Plan for Defense Supply Center Richmond (DSCR)* (Principal Investigator with Ann Markel; with Brooke Best, Henry Measells, and Brian Clevon). Prepared for Mill Creek environmental Consultants, Ltd., Hampton, Virginia,
- 1999t *Architectural and Historical Evaluation of the Kelly-Brewser House, 1853 Reisterstown Road, Pikesville, Maryland.* Prepared for Southwood Holding Corporation, Baltimore, Maryland.
- 1999u *National Register Documentation for Indian Head White Plains Railroad, Indian Head Naval Surface Warfare Center, Charles County, Maryland* (Principal Investigator; with Elaine K. Kiernan and Lex Campbell). Submitted to Department of the Navy, EFA Chesapeake.
- 2000a *Letter Report for Frederick House (BA-1206)* (Principal Investigator; with Katherine Grandine). Submitted to Mr. Arthur S. Tracey Personal Representative Eda Ensor Estate.
- 2000b *Rehabilitation Analysis of the Edward Campbell Farmstead, Frederick, Maryland* (Principal Investigator; with W. Patrick Giglio and Brian Clevon). Submitted to Millennium Development Group, L.L.C.
- 2000c *Integrated Cultural Resource Management Plan: Naval Surface Warfare Center, Carderock Division* (Principal Investigator; with April L. Fehr and Brooke V. Best). Submitted to Naval Surface Warfare Center.
- 2000d *Historic American Engineering Record Documentation: Galvez Street Wharf, New Orleans, Louisiana* (Principal Investigator; by Brian Clevon). Submitted to United States Coast Guard.
- 2000e *Integrated Cultural Resource Management Plan, United States Naval Academy, Annapolis, Maryland* (Principal Investigator; by Lex Campbell, John L. Seidel, and Martha R. Williams). Prepared for Engineering Field Activity – Chesapeake.
- 2000f *Campbell Farmstead (F-8-23) Addendum to Maryland Inventory of Historic Properties Form* (Principal Investigator; by Katherine E. Grandine and Brian Clevon). Prepared for Riverside Investment Group, LLC.
- 2000g *Architectural Recordation of Frederick Memorial Hospital and Nurses' Home, Frederick Maryland* (Principal Investigator; by Justin Edgington and Katherine E. Grandine). Prepared for Frederick Memorial Hospital.
- 2000h *Evaluation of National Register Eligibility of Bayou Boeuf, Bayou Sorrel, and Berwick Locks and the Calumet and Charenton Floodgates in the Atchafalaya Basin, Louisiana* (Principal Investigator; by Brian Clevon and Brooke V. Best). Prepared for the New Orleans District, U.S. Army Corps of Engineers.
- 2000i *Historic American Engineering Record Documentation: Rock Creek Trestle, Montgomery County, Maryland* (Principal Investigator; by Brian Clevon). Prepared on behalf of Hurst-Rosche Engineers, Inc. for Montgomery County Department of Public Works and Transportation.

- 2000j *Historic American Engineering Record Documentation: Keystone Lock and Dam, St. Martinville, Louisiana* (Principal Investigator; by Brian Cleven). Prepared for the New Orleans District, U.S. Army Corps of Engineers.
- 2000k *National Register Assessment of the Lock Keepers Dwelling at the Keystone Lock and Dam, St. Martin Parish, Louisiana* (with Brian Cleven). Prepared for the New Orleans District, U.S. Army Corps of Engineers.
- 2000l *Architectural Inventory of the Gordon Building, 57 South Market Street, Frederick, Maryland* (Principal Investigator; by Brian Cleven and Nathaniel Patch). Prepared for the City of Frederick, Maryland.
- 2000m *Village on Falling Spring Transportation Enhancement Project, Borough of Chambersburg, Franklin County, Pennsylvania*. Prepared for Gannett Fleming, Inc.
- 2000n *Maryland Inventory of Historic Property Form: Birkhead House, 23629 Woodfield Road, Montgomery County* (Principal Investigator; with Katherine Grandine). Prepared for Iko Development, Inc.
- 2000o Speaker. *Tools for Preservation Planners*. Preservation and Revitalization Conference, Preservation Maryland.
- 2000p *Analysis of Regulations for Compliance with Section 106 of the National Historic Preservation Act of 1966, as Amended* (with April Fehr). Submitted to The INGAA Foundation, Inc.
- 2000q *Historical and Architectural Investigation of Memorial Stadium, Baltimore, Maryland* (with Brian Cleven). Prepared for Maryland Stadium Authority, Baltimore, Maryland.
- 2000r *Documentation of Federated Charities Building, 22 South Market Street, Frederick, Maryland* (Principal Investigator with Brian Cleven, Katherine Grandine, Justine Edgington, and Barry Warthen). Prepared for Federated Charities Corporation of Frederick.
- 2000s Sheffer House, Middletown, Maryland. Federal and State Historic Rehabilitation Tax Certification prepared for Mr. & Mrs. Goodloe E. Byron.
- 2000t Francis Scott Key Hotel, Frederick, Maryland. Federal Historic Rehabilitation Tax Certification prepared for Struever Bros., Eccles & Rouse, Inc.
- 2000u Thomas Cannery, Montgomery County, Maryland. Federal and State Historic Rehabilitation Tax Certification prepared for Rockville Fuel and Feed.
- 2000v *National Register Nomination for the Sheffer House* (Principal Investigator; with Katherine Grandine). Prepared for Mr. & Mrs. Goodloe E. Byron.
- 2000w *Study of Building Ornamentation at Langley Air Force Base, Langley, Virginia* (Principal Investigator; with Katherine Grandine and Justine Edgington). Submitted to the Baltimore District, U.S. Army Corps of Engineers.
- 2000x *Marketing Prospectus for the Edward Campbell Farm, Frederick, Maryland*. Prepared for Millennium Development Corporation.

- 2000y *MD 26: Liberty Reservoir to MD 32, Carroll County, Maryland, Project No. CL850B11* (Principal Investigator; with Katherine Grandine). Prepared for the Maryland State Highway Administration.
- 2001a *Communications Tower Sites in Frederick County Maryland – Murphy Farm and Buffington Farm*. Assessment prepared for Sprint PCS.
- 2001b *Fairview (71A-13) Environmental Setting*. Letter report prepared for the Prince George's County Planning Department.
- 2001c *National Register Assessment of the Broadmoor Neighborhood* (with Katy Coyle). Prepared for the New Orleans District, U.S. Army Corps of Engineers.
- 2001d Speaker. *Symposium on the Management of Capehart-Wherry Era Housing*. Department of the Army.
- 2001e *Energy Panel*. Task Force on Energy, Advisory Council on Historic Preservation Meeting, San Francisco, California.
- 2001f *Aberdeen Proving Ground Integrated Cultural Resources Management Plan*. (Principal Investigator with Christopher R. Polglase; with Katherine Grandine and Thomas W. Davis) Submitted to Advanced Technology Systems, Inc.
- 2001g *Historic American Engineering Record Documentation: St. Claude Bridge, New Orleans, Louisiana* (Principal Investigator; with Brian Clevon). Prepared for the New Orleans District, U.S. Army Corps of Engineers.
- 2001h *Historic American Engineering Record Documentation: Inner Harbor Navigation Canal Lock, New Orleans, Louisiana* (Principal Investigator; with Brian Clevon). Prepared for the New Orleans District, U.S. Army Corps of Engineers.
- 2001i *Supplemental Architectural and Historical Investigations for the Proposed Duke Energy Facility on the Vernon-Hines and Urciolo Properties, Frederick County, Maryland* (Principal Investigator; by Katherine Grandine, Brian Clevon, and Nathaniel Patch). Prepared for Environmental Consulting & Technology, Inc.
- 2001j *Jesup Blair House and Park, Montgomery County, Maryland, Maryland Inventory of Historic Properties Form* (Principal Investigator; with Kirsten Peeler). Prepared for Montgomery College.
- 2001k *Phase I Archeological Survey for the Proposed Duke Energy North America (DNA), LLC Powerplant, German Township, Fayette County, Pennsylvania (Pennsylvania Environmental Report #2001-1219-051-C)* (with Jesse Kulp, Peter Holmes, Brian Clevon, Katherine Grandine, Michael Hornum, and Scott Meacham). Prepared for CH2M Hill.
- 2001l *Archeological and Historical Investigations for the Proposed Duke Energy Facility on the Offutt Property, Frederick, Maryland* (Principal Investigator; by Katherine Grandine, Brian Clevon, Scott Meacham, and Nathaniel Patch). Prepared for Environmental Consulting & Technology, Inc.
- 2001m *Architectural Investigation of Buildings and Structures at the Naval Surface Warfare Center Carderock Division Memphis Detachment, Memphis, Tennessee* (Principal Investigator; by Scott Meacham and Katherine Grandine). Prepared for Public Works Department.

- 2001n *Historic Context for Army Fixed-Wing Airfields 1903-1989* (Principal Investigator; by Katherine Grandine, Brian Clevon, Thomas W. Davis, and Nathaniel Patch). Prepared for U.S. Army Environmental Center.
- 2002a *Historic Properties Report on Hangars 745, 755, and 756, Langley Air Force Base, City of Hampton, Virginia VDHR File No. _____* (Principal Investigator; by Katherine Grandine and Brian Clevon). Prepared for Science Applications International Corporation (SAIC).
- 2002b *Evaluation of the National Register Eligibility of Calcasieu Lock, Calcasieu Parish, Louisiana* (Principal Investigator; with Brian Clevon). Prepared for U.S. Army Corps of Engineers.
- 2002c *Historic American Buildings Survey Documentation: Fort Monroe, Buildings 65, 66, 67, 68, 69, 70, and 79* (Principal Investigator; by Katherine Grandine). Prepared for DPW Environmental Office.
- 2002d *HABS/HAER Level II Documentation of the Paint and Oil Storehouse (Building No. 216), Naval Air Station Patuxent River, St. Mary's County, Maryland* (Principal Investigator; by Carrie Albee). Prepared for Naval Air Station Patuxent River.
- 2002e *Maryland Historical Trust Architectural Inventory Documentation Duke Energy North America Facility in Frederick County, Maryland* (Principal Investigator; by Katherine Grandine, Brian Clevon, and Nathaniel Patch). Prepared for Environmental Consulting & Technology, Inc.
- 2002f *Archival, Architectural, and Geophysical Remote Sensing Investigation at the Montevue Property, Frederick County, Maryland* (Principal Investigator with Christopher R. Polglase; by William Lowthert IV, Scott Meacham, Nate Patch, Brian Clevon, Jean B. Pelletier, and Katherine Grandine). Prepared for the Frederick County Department of Public Works.
- 2002g *Middletown Primary School Site Assessment, Middletown, Maryland* (Principal Investigator; by Brian Clevon). Prepared for Frederick County Public Schools.
- 2002h *Research Design for Cultural Resource Assessment of Six State Parks, State Owned Cultural Resource Assessment Program, Department of Natural Resources Pilot Study* (Principal Investigator with Christopher R. Polglase; by Katherine E. Grandine, Jeffrey H. Maymon, and Martha Williams). Prepared for Maryland Historical Trust.
- 2002i *Archeological, Historical, and Architectural Reconnaissance Study of Crab Cay, Exuma Island, The Bahamas* (with Suzanne L. Sanders, R. Christopher Goodwin, and Jennifer A. Brown). Prepared for Islands By Design Ltd.
- 2002j *Baltimore East/South Clifton Park Historic District National Register Nomination* (Principal Investigator; by Katherine E. Grandine, Brian Clevon, Kirsten G. Peeler, Carrie Albee, and Nathaniel S. Patch). Prepared for Center Development Corporation.
- 2002k *Charity Ellen Frazier Farm Assessment, Knoxville, Maryland* (Principal Investigator; by Brian Clevon and Christine Heidenrich). Prepared for Hailey Development LLC.
- 2002l *HABS/HAER Level II Documentation of Boat House No. 2 (Building 214) Naval Air Station Patuxent River, St. Mary's County, Maryland* (Principal Investigator; by Katherine Grandine). Prepared for Naval Air Station Patuxent River.

- 2003a *Unaccompanied Personnel Housing (UPH) during the Cold War (1946-1989)* (Principal Investigator; with Brian Cleven, Nathaniel Patch, Katherine Grandine, and Christine Heidenrich). Prepared for the U.S. Army Environmental Center.
- 2003b *Neighborhood Design Guidelines for Army Wherry and Capehart Family Housing* (Principal Investigator; by Kirsten Peeler and Reid Wraase) Prepared for the Department of the Army.
- 2003c *Housing an Army: The Wherry and Capehart Era Solutions to the Postwar Family Housing Shortage (1949-1962) Historic Context* (Principal Investigator; with Kirsten Peeler, Christine Heidenrich, Carrie Albee, and Katherine Grandine). Prepared for the Department of the Army.
- 2003d *Comus Inn National Register Nomination*. Prepared for the Comus Inn, Comus, Maryland.
- 2003e *Maryland Heritage Preservation & Federal Historic Preservation Certification Applications, Parts 1 & 2*. Prepared for the Comus Inn, Comus, Maryland.
- 2003f *Heritage Preservation Public Interpretation Kiosk* (Principal Investigator; with Reid Wraase and Christine Heidenrich). Prepared for Ikea, Inc.
- 2003g *Section 106 Effects Report, and Alternate Assessment for the Community Clinical and Behavioral Health Center, Baltimore, Maryland* (Principal Investigator; with Dr. R. Christopher Goodwin). Prepared for Kennedy Krieger Institute, Inc.
- 2003h *Historical and Architectural Investigations of Milcon P160, Indian Head Division, Naval Surface Warfare Center, Indian Head, Charles County, Maryland* (Principal Investigator; by Brian Cleven). Prepared for Indian Head Division, Naval Surface Warfare Center, Indian Head.
- 2004a *Determination of Eligibility Report Owens Property (Landing Road Cider Mill [MIHP #HO-420]), Howard County, Maryland* (Principal Investigator; by Brian Cleven, and Kathryn G. Smith). Prepared for The Keelty Company.
- 2004b *Maryland Heritage Preservation and Federal Historic Preservation Certification Applications. Parts 1, 2, & 3, Francis Scott Key Hotel, Frederick, Maryland*. Prepared for Struever Bros., Eccles & Rouse, Inc.
- 2004c *Draft Programmatic Agreement*. Prepared for Indian Head Division, Naval Surface Warfare Center, Indian Head.
- 2004d *Architectural Survey for the Proposed Crown Landing Project Logan Township, Gloucester County, New Jersey and New Castle County, Delaware* (Principal Investigator; by Brian Cleven and Martha Williams). Prepared for Environmental Resource Management.
- 2004e *Historical and Architectural Investigation of 1950s-era Industrial Areas and Miscellaneous Buildings, Indian Head Division, Naval Surface Warfare Center, Indian Head, Charles County, Maryland* (Principal Investigator; by Brian Cleven). Prepared for Indian Head Division, NSWC.
- 2004f *Determination of Eligibility Report; Feaga-Albaugh Farmstead, Frederick County, Maryland* (Principal Investigator; by Kathryn G. Dixon). Prepared for Horizon Frederick II LLC.
- 2005a *Determination of Eligibility Forms for Griffith's Adventure (Joshua F.C. Worthington House BA-0011)* (Principal Investigator; by Kirsten Peeler). Prepared for Whitney, Bailey, Cox & Magnani.

- 2005b *Determination of Eligibility Reports; Demarr Property (CH812), Quarles Property (CH-814), and Vliet Property (CH-813)* (Principal Investigator; by Kirsten Peeler, Kathryn Dixon, and Christine Heidenrich). Prepared for Whitman, Requardt and Associates, LLP.
- 2005c *Architectural Investigations for the Proposed Sudley Manor Drive Public-Private Transportation Act (PPTA), Prince William County, Virginia* (Principal Investigator; by Katherine Grandine and Martha Williams). Prepared for CH2M Hill.
- 2005d *Focused Literature Search – Naval Air Station Atlantic City* (Principal Investigator; by Dean Doerrfeld and Brian Clevon). Prepared for TRC Environmental Corporation.
- 2005e *Determination of Eligibility Report; Elmwood Farm, Washington County, Maryland MIHP No. WA-I-018* (Principal Investigator; by Kathryn G. Dixon and Kirsten Peeler). Prepared for Elmwood Farm Development, LLC c/o Terra Consultants, Inc.
- 2005f *An Addendum Report to Phase I Archeological Investigation of 15 Acres within the West Campus Shepherd University, Jefferson County, West Virginia* (Principal Investigator; by Dean A. Doerrfeld and Chris Heidenrich). Prepared for Shepherd University Facilities Management.
- 2005g *National Register of Historic Places Nomination for Spring Hill Farm, Loudoun County, Virginia* (Principal Investigator; by Dean Doerrfeld and Chris Heidenrich). Prepared for Larry Ritchie Williams.
- 2005h *National Register of Historic Places Nomination for Whiteford-Cardiff Historic District* (Principal Investigator; by Christine A. Heidenrich and Kirsten Peeler). Prepared for Whiteford, Pylesville, Cardiff Community Association, Inc.
- 2005i *Determination of Eligibility Form for Christian Kemp Farmstead (MIHP F-1-179)* (Principal Investigator; by Christine Heidenrich and Dean Doerrfeld). Prepared for Ausherman Development Corporation.
- 2005j *Gap Analysis, Mitigation for Cold War Era Unaccompanied Personnel Housing, World War II, and Cold War Era Ammunition Bunkers and Army Ammunition Plants* (Principal Investigator; by Dean A. Doerrfeld). Prepared for U.S. Army Medical Research Acquisition Activity.
- 2005k *MIHP Form: PG:71-38, Bridge No. 16017, MD 450 Over CSX Railroad, Bowie, Maryland* (Principal Investigator; by Kathryn Dixon). Prepared for Maryland Department of Transportation.
- 2005l *Historic Context for Washington State Air National Guard* (with Kirsten Peeler, Dean A. Doerrfeld, and Christine Heidenrich). Prepared for Air National Guard Readiness Center.
- 2005m *Walter Reed Army Medical Center Integrated Cultural Resources Management Plan* (Principal Investigator; by Katherine E. Grandine). Prepared for USAMRAA.
- 2005n *Environmental Assessment for the Disposition of Belle Chance Residence and Outbuildings, Andrews AFB, MD* (Principal Investigator; by Brian Clevon). Prepared for the Department of the Air Force.
- 2005o *World War I Barracks (E4400 Block) and Service Buildings at Edgewood Arsenal, Historical Documentation* (Principal Investigator; by Kathryn G. Dixon). Prepared for Aberdeen Proving Ground through U.S. Army Medical Research Acquisition Activity.

- 2005p *Determination of Eligibility Form for Bishop Field, United States Naval Academy* (Principal Investigator; by Dean A. Doerrfeld and Kathryn Dixon). Prepared for A. Morton Thomas Associates, Inc.
- 2005q *Maryland Determination of Eligibility Report for Lord Golf Project Fox Hall Farm* (Principal Investigator; by Dean A. Doerrfeld and Kathryn Dixon). Prepared for Lionheart Consulting.
- 2005r *Determination of Eligibility for Smith Farm (F-2-111)* (Principal Investigator; by Kirsten G. Peeler and Kathryn G. Dixon). Prepared for Jefferson Valley, LLC c/o Ausherman Development Corporation.
- 2005s *MIHP Form for Edgewood Area Industrial Area, Edgewood Area, Aberdeen Proving Ground, Maryland* (Principal Investigator; by Katherine Grandine). Prepared for Aberdeen Proving Ground.
- 2006a *BRAC/EIS Cultural Resources Support*. Prepared for Weston Solution, Inc.
- 2006b *Summary Report of Archival Research Department of the Navy Unaccompanied Personnel Housing (1946-1989) and Ammunition Storage Facilities (1939-1984)* (Principal Investigator; by Dean A. Doerrfeld).
- 2006c *Determination of Eligibility Form for Good Fellowship, MIHP #HO-190, Howard County, Maryland* (Principal Investigator; by Dean A. Doerrfeld). Prepared for Davis Branch LLC.
- 2006d *Housing an Air Force and a Navy: The Wherry and Capehart Era Solutions to the Postwar Family Housing Shortage (1949-1962)* (Principal Investigator; by Kirsten Peeler, Christine Heidenrich, Katherine E. Grandine, and Dean A. Doerrfeld). Prepared for the United States Departments of the Air Force and Navy.
- 2006e *Maryland Inventory of Historic Properties Form: Feaga-Albaugh Farmstead, Frederick County, Maryland; MIHP No. F-3-226* (Principal Investigator; by Kathryn G. Dixon). Prepared for Cannon Bluff, LLLP.
- 2007a *Maryland Inventory of Historic Properties Form for Broadway Squares (B-5138) Baltimore City, Maryland* (Principal Investigator; by Kirsten Peeler, M.S.). Prepared for Madison Street Properties, Inc.
- 2007b *National Register Assessment of Buildings 7033, 7034, 7036, and 7215, Custer Hill Troop Area, Fort Riley, Kansas* (Principal Investigator; by Brian Clevon). Prepared for Fort Riley Kansas and U.S. Army Environmental Center.
- 2007c *Survey of the Architectural and Archeological Cultural Resources at the Virginia Air National Guard Installations at the Richmond International Airport, Henrico County and the State Military Reservation, Camp Pendleton, City of Virginia Beach, Virginia* (Principal Investigator; with Ann B. Markell, Katherine Grandine, and Nathan Workman). Prepared for ANGR/CEVP.
- 2007d *Army Ammunition and Explosives Storage During the Cold War (1946-1989)* (Principal Investigator; by Kathryn Dixon, Dean A. Doerrfeld, Rebecca Gatewood, Kirsten Peeler, Christine Heidenrich, and Katherine E. Grandine). Prepared for USAEC.

2007e *Maryland Inventory of Historic Properties Addendums for 14 Properties* (Principal Investigator; by Brian Clevin and Kirsten Peeler). Prepared for H.B. Mellott Estate, Inc.

EDUCATION

Bachelor of Arts with Honors in Political Science, Tulane University, 1971. Honors Thesis: United States Seabed Resource Policy

Master of Science in Anthropology (Archeology), Florida State University, Tallahassee, Florida, 1974.

Doctor of Philosophy (Ph.D.) in Anthropology (Archeology), Arizona State University, Tempe, Arizona, 1979.

Postdoctoral Fellow - Scholar in Residence, Smithsonian Institution, Washington, D.C., 1979-1980.

Workshop "Property Transfer Site Assessment Research Methods," Illinois State Museum, Springfield, Illinois, 1992.

Workshop "National Environmental Policy Act." University of Southern Maine, Summer Session Program, 1999.

Workshop "Environmental Inspection and Construction Compliance," Southern Gas Association, Houston, Texas, February 7-9, 2000.

HONORS

Phi Eta Sigma Honor Society (1967); Alpha Epsilon Delta Honor Fraternity (1968); Pi Sigma Alpha Honor Society (1969); Sigma Xi Scientific Research Society (1977); University Fellow, Arizona State University (1978-1979); Elected Fellow, Virgin Islands Archeological Society (1978); Postdoctoral Fellow, Smithsonian Institution (1979-1980); Certificate of Merit, Universidad Central de Venezuela (1981); Certificate of Appreciation, International Wedgwood Society (1984); Friend of the Chitimacha Indians (1985); Certificate of Appreciation, Universidad del Norte, Barranquilla, Colombia (1985); Achievement in Archeology Award, Anne Arundel County Trust for Historic Preservation, Inc. (1991); Achievement in Archeology Award, Anne Arundel County Trust for Historic Preservation, Inc. (1992); National Preservation Honor Award, National Trust for Historic Preservation (1992); *Who's Who in Leading American Executives (1992)*; *Who's Who Among Outstanding Americans (1995-96)*; Small Business Administration's Administrator's Award of Excellence (1996-7). College of Liberal Arts and Sciences CLASS Leader/Distinguished Alumni Award, Arizona State University (1999).

PROFESSIONAL EXPERIENCE

President & Director of Research, R. Christopher Goodwin & Associates, Inc., 1981 to present.

Visiting Professor, Department of Anthropology, Universidad del Norte, Barranquilla, Colombia, 1985.

Visiting Professor, Department of Anthropology, Universidad Central de Venezuela, Caracas, Venezuela, 1982.

Elected to Board of Directors, Museo Regional Altos de Chavon, Dominican Republic, 1981.

- 1980b Demographic Change and the Crab-Shell Dichotomy. *Proceedings of the Eighth International Congress for the Study of Pre-Columbian Cultures of the Lesser Antilles*, pp. 45-68. Tempe, Arizona.
- 1980c The Conservation of Shell and Shell Artifacts from Archeological Contexts (with A.E. Dittert, Jr. and E.S. Sipe). *Anthropological Research Papers No. 22*, pp. 218-236. Tempe, Arizona.

- 1986g *Cultural Resources Inventory of the Montz Freshwater Diversion Project Corridor, St. Charles Parish, Louisiana* (with Herschel A. Franks, Jill-Karen Yakubik, Jeffrey E. Treffinger, and Paul C. Armstrong). Submitted to the U.S. Army Corps of Engineers, New Orleans District.
- 1986h *Ethnohistory of the Filipinos of Southern Louisiana* (with Herschel A. Franks, Debra M. Stayner, and Kenneth R. Jones). Submitted to U.S. Department of the Interior, National Park Service, Jean Lafitte National Historical Park, Louisiana.
- 1986i *Cultural Resources Survey of the New Orleans to Venice Hurricane Protection Project, Reach C Enlargement, Plaquemines Parish, Louisiana*, 3 vols. (with Marvin D. Jeter, Mark A. Catlin, Jeffrey E. Treffinger, Paul C. Armstrong, Jill-Karen Yakubik, Roderick Lincoln, Mary K. Knill, Herschel A. Franks, and Carol Poplin). Submitted to the U.S. Army Corps of Engineers, New Orleans District.
- 1986j *Cultural Resources Inventory of the Bonnet Carre' Spillway, St. Charles Parish, Louisiana* (with Jill-Karen Yakubik, Herschel A. Franks, and Carol Poplin). Submitted to U.S. Army Corps of Engineers, New Orleans District.
- 1986k *Archeological Research to Locate and Identify the French "Fort on the Mississippi" (1700-1707), Plaquemines Parish, Louisiana* (with Marvin D. Jeter). Submitted to the U.S. Army Corps of Engineers, New Orleans District.
- 1986l *Cultural Resources Survey of the Wax Lake Outlet Control Weir, Atchafalaya Basin, Louisiana Project* (with Kenneth R. Jones). Submitted to the U.S. Army Corps of Engineers, New Orleans District.
- 1986m *A Cultural Resources Survey of the Western Sections of the Larose to Golden Meadow Hurricane Protection Project* (with Eric C. Poplin, Kenneth G. Kelly, and Donald L. Bascle). Submitted to the U.S. Army Corps of Engineers, New Orleans District.
- 1986n *Archeological Assessment of the Barataria Unit, Jean Lafitte National Historical Park* (with John Stuart Speaker, Joanna Chase, Carol Poplin, and Herschel Franks). Submitted to the National Park Service, Southwest Region.
- 1987a *Cultural Resources Assessment of the Faulkner Lake Revetment, East Baton Rouge Parish, Louisiana* (with Eric C. Poplin). Submitted to the U.S. Army Corps of Engineers, New Orleans District.
- 1987b *Cultural Resources Survey of the East Atchafalaya Basin Protection Levee Item E-44, Iberville Parish, Louisiana* (with Kathy Manning, Paul C. Armstrong, and Eric C. Poplin). Submitted to the U.S. Army Corps of Engineers, New Orleans District, New Orleans, Report No. COELMN/PD-87/02.
- 1987c *Evaluation of the National Register Eligibility of the Inner Harbor Navigation Canal Lock in Orleans Parish, Louisiana*. Submitted to the U.S. Army Corps of Engineers, New Orleans District.

- 1987d *Cultural Resources Investigations and Assessment of the Mound City Shipyard and Marine Ways (11 PU 40), Pulaski County, Illinois* (with Kenneth R. Jones). Submitted to the U.S. Army Corps of Engineers, Memphis District, Memphis.
- 1987e *Archeomalacology on a Small West Indian Island. In Coasts, Plains and Deserts: Essays in Honor of Reynold J. Ruppe'*. *Arizona State University Anthropological Research Papers* No. 38.
- 1987f *Level II Archeological Survey, Big Woods Development Area Environmental Educational Center-Phase I Barataria Unit, Jean Lafitte National Historical Park, Jefferson Parish, Louisiana* (with Eric C. Poplin). Submitted to the National Park Service, Southwest Region.
- 1987g *Identification of Historic Ceramic Sherds from Archeological Compliance Excavations, Chalmette Unit, Jean Lafitte National Historical Park* (with Vergil E. Noble). Submitted to the National Park Service, Southwest Region.
- 1987h *Cultural Resources Review of the Fort Benning Master Plan - Phase II* (with Eric C. Poplin). Submitted to Gulf South Research Corporation and the U.S. Army Corps of Engineers, Savannah District, Savannah, Georgia.
- 1987i *Historic Overview of Jones Point, Barataria Unit, Jean Lafitte National Historical Park* (with Paul C. Armstrong). Submitted to the National Park Service, Jean Lafitte National Historical Park.
- 1987j *Cultural Resources Survey of St. John the Baptist and St. Charles Parish Construction Items* (with George W. Shannon, Jr. and Laura A. Landry). Submitted to U.S. Army Corps of Engineers, New Orleans District.
- 1987k *Phase I Archeological Survey of A 21-Acre Parcel Known as the "Avondale Property," Carroll County, Maryland* (with Kenneth Robinson, April M. Fehr, and Richard Geidel). Submitted to Ridgeview Chase Association.
- 1987l *New Orleans is Looking Forward to its Past, an Archeological Survey and Plan for Sections of New Orleans* (with Paul C. Armstrong, Eric C. Popline, David Moore, and Carol J. Poplin). Submitted to the Department of Cultural, Recreation and Tourism, Baton Rouge, Louisiana.
- 1988a *An Ethnohistory of Yugoslavs in Louisiana*. Submitted to the National Park Service.
- 1988b *Archeological Testing at Two Sites Near White Castle, Iberville Parish, Louisiana: 16IV147 and 16IV149* (with Paul C. Armstrong, E. Jeanne Harris, and James M. Wojtala). Submitted to the New Orleans District, U.S. Army Corps of Engineers.
- 1988c *An Archeological and Historical Overview of the Wyoming Valley Flood Protection Study Area, Susquehanna River Valley, Luzerne, Montour, and Northumberland Counties, Pennsylvania* (with April M. Fehr, Richard Geidel, Kenneth Robinson, and Thomas W. Neumann). Submitted to the Baltimore District, U.S. Army Corps of Engineers.
- 1988d *Phase I Archeological Investigation of the Taylor Land Resources, Inc., Bayard Road Tract, Anne Arundel County, Maryland* (with April M. Fehr and Leslie D. McFaden). Submitted to Taylor Land Resources.
- 1988e *Phase I Archeological Survey of 262 Acres at Fort Belvoir, Virginia* (with April M. Fehr, Leslie D. McFaden, and Richard Geidel). Submitted to the Baltimore District, U.S. Army Corps of Engineers.

- 1988f *Phase I Archeological Survey of the Saybrooke Pond and Windrush Farm Subdivisions, Anne Arundel County, Maryland* (with April M. Fehr, Paul Patterson, and Leslie D. McFaden). Submitted to G. W. Koch Associates.
- 1988g *Phase I Archeological Survey of Northern Virginia Electric Cooperative Properties in Prince William and Fauquier Counties, Virginia* (with Richard Geidel, Leslie D. McFaden, and April M. Fehr). Submitted to Northern Virginia Electric Cooperative.
- 1988h *Archeological Survey and Testing on Main Street, Downtown Jeanerette, Iberia Parish, Louisiana* (with E. Jeanne Harris and Paul C. Armstrong). Submitted to the State of Louisiana, Department of Culture, Recreation, and Tourism.
- 1988i *Archeological Monitoring of the Jackson Avenue to Thalia Street (Phase I) Floodwall Project in the City of New Orleans, Orleans Parish, Louisiana* (with E. Jeanne Harris, James M. Wojtala, John A. Turner, and Leslie D. McFaden). Submitted to the New Orleans District, U.S. Army Corps of Engineers.
- 1988j *Phase I Archeological Investigation of the Greenspring East Lime Kiln Site (18BA326), Baltimore County, Maryland* (with Leslie D. McFaden, Richard Geidel, and April M. Fehr). Submitted to Daft-McCune-Walker.
- 1988k *Phase I Archeological Survey of The Windsor Farm Subdivision, Anne Arundel County, Maryland* (with Paul Patterson, E. Jeanne Harris, Leslie D. McFaden, and April M. Fehr). Submitted to Harrison C. Murray.
- 1988l *Level II Cultural Resources Survey at 16SB41, A Prehistoric Shell Midden in St. Bernard Parish, Louisiana* (with John A. Turner). Submitted to St. Bernard Parish.
- 1988m *The Battle of Fort Bisland: Historical Research and Development of an Archeological Research Design* (with Eric C. Poplin and Lawrence L. Hewitt). Submitted to the New Orleans District, U.S. Army Corps of Engineers.
- 1988n *Archeological Monitoring of the Montegut Street to Independence Street Floodwall Project in the City of New Orleans, Orleans Parish, Louisiana* (with Eric C. Poplin). Submitted to the New Orleans District, U.S. Army Corps of Engineers.
- 1988o *Cultural Resources Sample Survey Mechanized Infantry Training Area Fort Benning, Georgia* (with Eric C. Poplin). Submitted to Gulf Engineers & Consultants, Inc., and the Savannah District, U.S. Army Corps of Engineers.
- 1988p *Cultural Resources Survey Selected Timber Harvesting Areas Fort Benning, Georgia* (with Eric C. Poplin). Submitted to Gulf Engineers and Consultants, Inc., and the Savannah District, U.S. Army Corps of Engineers.
- 1988q *Phase II of the Cultural Resources Inventory of the Bonnet Carre' Spillway, St. Charles Parish Louisiana* (with Eric C. Poplin, Paul C. Armstrong, and Carol Poplin). Submitted to the New Orleans District, U.S. Army Corps of Engineers.
- 1988r *Phase I Archeological Investigation of the Robert Thieme Minor 88-316 Subdivision, Anne Arundel County, Maryland* (with April M. Fehr).

- 1988s *Step I of the Mitigation Procedures (Phase III), Cowanesque Lake Modifications, Tioga County, Pennsylvania* (with Thomas W. Neumann, E. Jeanne Harris, April M. Fehr, and Janet S. Shoemaker). Submitted to Baltimore District, U.S. Army Corps of Engineers.
- 1988t *Cultural Resources Survey of Gretna Phase II Levee Enlargement Item, M-99.4 to 95.5-R*, (with William P. Athens, Stephen Hinks, Paul C. Armstrong, and Jennifer A. Cohen). Submitted to New Orleans District, U.S. Army Corps of Engineers.
- 1988u *Cultural Resource Survey of Three Iberville Parish Levee Enlargement and Revetment Construction Items* (with Rebecca E. Bruce, Lawrence L. Hewitt, and E. Jeanne Harris). Submitted to New Orleans District, U.S. Army Corps of Engineers.
- 1988v *Phase I Archeological Survey of the Loch Haven Manor Subdivision, Anne Arundel County, Maryland* (with April M. Fehr, Paul Patterson, and Leslie D. McFaden). Submitted to Maryland Land Trust.
- 1989a *Significance Assessment of 16AN26 New River Bend Revetment Ascension Parish, Louisiana* (with Stephen Hinks, Jennifer A. Cohen, Paul C. Armstrong, Sylvia I. Favret, Lawrence L. Hewitt, and William P. Athens). Submitted to New Orleans District, U.S. Army Corps of Engineers.
- 1989b *Phase I and Phase II Archeological Investigations of the Barbara Fritchie Tea Room, Frederick, Maryland* (with April M. Fehr, E. Jeanne Harris, and Janet S. Shoemaker). Submitted to Gregory Franta Architecture, Inc.
- 1989c *Phase A and B Cultural Resources Evaluation of the Gillis Falls Reservoir Project, Carroll County, Maryland* (with Thomas W. Neumann, April M. Fehr, and Janet S. Shoemaker). Submitted to Black and Veatch, Inc.
- 1989d *Phase I Archeological Survey of the Pettebone Farm Development, Anne Arundel County, Maryland* (with April M. Fehr, Paul Patterson, and Janet S. Shoemaker). Submitted to Dennis Hudak, Patten Corporation.
- 1989e *Intensive Archeological Survey of the Dearbought Farm Development, Frederick County, Maryland* (with April M. Fehr, Larry Hewitt, Janet S. Shoemaker, Paul Patterson, and E. Jeanne Harris). Submitted to Maerk Limited Real Estate Developers.
- 1989f *Phase I Archeological Sampling within the Wyoming Valley Local Flood Protection Study Area, Susquehanna River Valley, Luzerne County, Pennsylvania* (with Gary D. Shaffer, Antonio Segovia, and April Miller Fehr). Submitted to Department of the Army, Baltimore District, Corps of Engineers.
- 1989g *Phase I Archeological Investigation of the North Shore at the Anchorage Project Area, Boston Street, Canton National Historic District, Baltimore, Maryland* (with Leslie D. McFaden and Paul Patterson). Submitted to Anchorage Plaza Ltd. Partnership, c/o Manekin Corporation.
- 1989h *Phase I Historical Archeological Investigations at the Cowanesque Lake Reformulation Project Area Tioga County, Pennsylvania* (with Kenneth Robinson, Richard Geidel, Thomas W. Neumann, and Leslie D. McFaden). Submitted to the Department of the Army, Baltimore District, U.S. Army Corps of Engineers.
- 1989i *An Intensive Phase I Survey of the Herman/Schindel Farm, Washington County Airport, Washington County, Maryland* (with Paul Patterson, Janet S. Shoemaker, and E. Jeanne Harris).

- Submitted to The Board of Commissioners of Washington County and the Federal Aviation Administration.
- 1989j *Phase II Investigations at 36Ti31 and 36Ti47, Tioga County, Pennsylvania* (with Thomas W. Neumann). Submitted to Baltimore District, U.S. Army Corps of Engineers.
- 1989k *Phase I Cultural Resources Reconnaissance, Washington D.C. and Vicinity Local Flood Protection Project* (with Janet S. Shoemaker, E. Jeanne Harris, and April M. Fehr). Submitted to Baltimore District, U.S. Army Corps of Engineers.
- 1989l *Phase I Archeological Investigations of Proposed Recreational and Campground Sites at Curwensville Lake, Clearfield County, Pennsylvania* (with Gary D. Shaffer). Submitted to Department of the Army, Baltimore District.
- 1989m *Phase I Survey of the Proposed Naval Intelligence Command Headquarters Location at the Suitland Federal Center, Prince Georges County, Maryland* (with April M. Fehr and Janet Shoemaker). Submitted to Department of the Navy, Chesapeake Division, Naval Facilities Engineering Command.
- 1989n *Archeological Reconnaissance of Back Bay National Wildlife Refuge, Virginia Beach, Virginia* (with April M. Fehr and Leslie McFaden, with contributions by Antonio Segovia). Final report submitted to U.S. Fish and Wildlife Service.
- 1989o *Phase I Archeological Investigations of the Brightwood Development, Baltimore County, Maryland* (with Janet S. Shoemaker and Thomas W. Neumann). Submitted to MacKenzie & Associates, Inc.
- 1989p *A Phase I Intensive Archeological Investigation of Catoctin Furnace (18 FR 29), Cunningham Falls State Park, Frederick County, Maryland* (with Thomas W. Neumann). Submitted to the State of Maryland, Office of Engineering and Construction, Department of General Services.
- 1989q *Archeological Reconnaissance of the Chandler Point Addition Subdivision, Anne Arundel County, Maryland* (with April M. Fehr, and Leslie D. McFaden). Submitted to Koch Associates, Inc.
- 1989r *Phase I Archeological Survey of the Rock Hills Subdivision, Anne Arundel County, Maryland* (with Gary D. Shaffer, Leslie D. McFaden, and Paul Patterson). Submitted to Anarex, Inc.
- 1989s *Archeological Reconnaissance of the Eastern Shore of Virginia National Wildlife Refuge, Northampton County, Virginia* (with April M. Fehr, and Leslie McFaden, with contributions by Antonio Segovia). Submitted to U.S. Fish and Wildlife Service.
- 1989t *Phase III Archeological Data Recovery From 36Ti33, 36Ti34, and 36Ti37, Cowanesque Lake Reformulation Project, Tioga County, Pennsylvania* (with Thomas W. Neumann, Neal H. Lopinot, Leslie D. McFaden, and Jennifer Cohen). Submitted to U.S. Army Corps of Engineers, Baltimore District.
- 1989u *Archeological Data Recovery From Prehistoric Site 36Fa363, Grays Landing Lock and Dam* (with Thomas W. Neumann, William C. Johnson, Jennifer Cohen, and Neal H. Lopinot). Submitted to U.S. Army Corps of Engineers, Pittsburgh District.
- 1989v *Phase I Archeological Investigation of the Wayne Township Landfill, Clinton County, Pennsylvania* (with Gary D. Shaffer and Michelle Moran). Submitted to Clinton County Solid Waste Authority.

- 1989w *Historic Archeological Testing at the Long Hill Property, Nanticoke Hundred, Wicomico County, Maryland* (with Leslie D. McFaden). Submitted to Mrs. Donald C. Graham/Michael F. Trostel, A.I.A.
- 1989x *Phase I Survey of the Proposed Physical Sciences Laboratory Building, College Park, Maryland* (with Christopher R. Polglase and Michelle Moran). Submitted to U.S. Army Corps of Engineers, Baltimore District.
- 1989y *Phase I Archeological Survey of Woodhaven, Section One, Anne Arundel County, Maryland* (with Christopher R. Polglase and Michelle Moran). Submitted to Wallace Baker & Associates.
- 1989z *Intensive Archeological Survey of the Old Frederick Road Bridge Over Hunting Creek, Frederick, Maryland* (with Christopher R. Polglase and Michelle Moran). Submitted to Frederick County Department of Public Works.
- 1989aa *Phase I, II, and III Archeological Investigations of the Barbara Fritchie Tea Room, Frederick, Maryland* (with April M. Fehr). Submitted to Gregory Franta Architecture, Inc.
- 1989ab *An Archeological and Historical Overview of the Proposed Baltimore Gas and Electric 115kV Transmission Line Corridor, Finksburg to Westminster, Carroll County, Maryland* (with April M. Fehr, Thomas W. Neumann, and Michelle Moran). Submitted to Burns & McDonnell.
- 1989ac *Phase II Intensive Survey, Historic and Prehistoric Archeological Investigations at Lock Haven, Clinton County, Pennsylvania* (Principal Investigator; Thomas W. Neumann). Submitted to U.S. Army Corps of Engineers, Baltimore District.
- 1989ad *Phase II Archeological Survey Adjacent to the Lewinsville House, Lewinsville Park, Fairfax County, Virginia* (with Christopher R. Polglase, and Michelle Moran). Submitted to Fairfax County Park Authority, Division of Historic Preservation.
- 1989ae *Phase I Archeological Investigation of the Strange/Dorr and Dolgoff Properties, Anne Arundel County, Maryland* (Principal Investigator; Christopher R. Polglase, April M. Fehr, Michelle Moran, and Leslie D. McFaden). Submitted to Genstar Stone Products Company.
- 1989af *Historical Background Investigations of the Frederick Community Center and Homeless Shelter Site, Frederick, Maryland* (with April M. Fehr and Leslie D. McFaden). Submitted to the City of Frederick, Department of Housing and Community Development.
- 1989ag *Phase I Archeological Survey of the Eagle Passages Subdivision, U.S. 50 at South River, Anne Arundel County, Maryland* (with Christopher R. Polglase, April M. Fehr, Leslie D. McFaden, and Jim Wojtala). Submitted to D.S. Thaler, Storm & Associates, Inc.
- 1989ah *Archeological Reconnaissance of the Chincoteague National Wildlife Refuge, Accomack County, Virginia and Worcester County, Maryland* (with April M. Fehr, Leslie McFaden, and Eva Jeanne Harris, with contributions by Antonio Segovia). Submitted to the U.S. Fish and Wildlife Service.
- 1989ai *Phase I Archeological Investigations of the Proposed Harrisburg Mail Facility/Vehicle Maintenance Facility in Susquehanna Township, Dauphin County, Pennsylvania* (with Gary D. Shaffer, and Michelle Moran). Submitted to the United States Postal Service.

- 1989aj *Archeological Testing and Evaluation of the 86-Mile Pipeline Route from Ellaville to Near Jacksonville, Florida* (with William P. Athens, Teresa L. Paglione, Jennifer A. Cohen, Lawrence L. Hewitt, and Paul C. Armstrong). Submitted to Southern Natural Gas Company.
- 1989ak *Cultural Resources Investigations of Three Borrows Area, New Orleans to Venice Hurricane Protection Project, Plaquemines Parish, Louisiana* (with William P. Athens, James M. Wojtala, Stephen Hinks, Jennifer A. Cohen, and William A. Morgan). Submitted to the U.S. Army Corps of Engineers, New Orleans District.
- 1989al *Phase I Archeological Investigation of the Strange/Dorr Properties, Anne Arundel County, Maryland* (with Christopher R. Polglase, April M. Fehr, Michelle T. Moran, and Leslie D. McFaden). Submitted to Genstar Stone Products Company.
- 1989am *Archeological Data Recovery at Site 16SJB29, Near Willow Bend, St. John the Baptist Parish, Louisiana* (with William P. Athens, Stephen Hinks, E. Jeanne Harris, Paul C. Armstrong, and Jennifer Cohen). Submitted to the U.S. Army Corps of Engineers, New Orleans District.
- 1989an *Level II Cultural Resources Survey for a One Acre Borrow Area Located at 16140 Chef Menteur Highway, New Orleans, Louisiana* (with Stephen Hinks, Paul C. Armstrong, Sylvia Favret, Lawrence L. Hewitt, and William P. Athens). Submitted to River Road Construction, Inc.
- 1989ao *Cultural Resources Investigations of the West Bank Hurricane Protection Project, Jefferson Parish, Louisiana* (with Stephen Hinks, William P. Athens, Paul C. Armstrong, Sylvia I. Favret, Jennifer A. Cohen, and James M. Wojtala). Submitted to the U.S. Army Corps of Engineers, New Orleans District.
- 1989ap *Cultural Resources Survey of Missouri Bend and Plaquemine Bend Revetment Items, West Baton Rouge and Iberville Parishes, Louisiana* (with Stephen Hinks, William P. Athens, James M. Wojtala, Paul C. Armstrong, Jennifer A. Cohen, Julie McClay, and William A. Morgan). Submitted to the U.S. Army Corps of Engineers, New Orleans District.
- 1989aq *A Cultural Resource Survey, Chauvin Bayou Flood Protection Project, Ouachita Parish, Louisiana* (with Teresa L. Paglione, Julie H. McClay, William P. Athens, and William A. Morgan). Submitted to the U.S. Army Corps of Engineers, Vicksburg District.
- 1989ar *Cultural Resources Survey of the Bawcomville Levee Project, Ouachita Parish, Louisiana* (with Teresa L. Paglione, Julie H. McClay, Jennifer A. Cohen, William A. Morgan, William P. Athens, and James M. Wojtala). Submitted to the U.S. Army Corps of Engineers, Vicksburg District.
- 1989as *Phase I Archeological Survey of the Schwerer Property, Anne Arundel County, Maryland* (with Christopher R. Polglase and Michelle Moran). Submitted to Anarex, Inc.
- 1989at *Phase I Intensive Archeological Survey of the Aisquith Farm Planned Unit Development, Anne Arundel County, Maryland* (with Gary D. Shaffer and Leslie D. McFaden). Submitted to the Halle Companies.
- 1989au *Phase II Cultural Investigation of the Knapps Narrows and Tilghman Harbor Maintenance Dredging Project: Upland Dredge Disposal Site, Talbot County, Maryland* (with Janet S. Shoemaker and E. Jeanne Harris). Submitted to the Baltimore District, U.S. Army Corps of Engineers.

- 1989av *Level II (Phase I) Archeological Investigations of the Proposed Logansport 16" Pipeline Right-of-Way in Desoto, Red River, and Bienville Parishes, Louisiana* (with James M. Wojtala, William P. Athens, Lawrence L. Hewitt, Jennifer A. Cohen, and Sylvia I. Favret). Submitted to Southern Natural Gas Company.
- 1989aw *Phase II Archeological Investigations of the Sebastian Derr House Site (18FR638), Frederick County, Maryland* (with Christopher R. Polglase). Submitted to MAERK, Ltd.
- 1989ax *Phase I Archeological Investigations of the Proposed Sandy Hook Water Project, Washington County, Maryland* (with Thomas W. Neumann and Michelle Moran). Submitted to Washington County Sanitary District.
- 1989ay *A Phase I Archeological Investigation of the Hallameyer Property, Anne Arundel County, Maryland* (with Thomas W. Neumann and Martha Williams). Submitted to Trotter Kent, Inc.
- 1989az *Phase I Archeological Survey of the Planned Royersford Main Post Office, Montgomery County, Pennsylvania* (with Thomas W. Neumann and Michelle Moran). Submitted to the United States Postal Service, Facilities Service Center.
- 1989ba *Architectural Survey of the Planned Royersford Main Post Office, Montgomery County, Pennsylvania* (with Kathryn M. Kuranda and Michelle T. Moran). Submitted to the United States Postal Service, Facilities Service Center.
- 1989bb *Phase I Archeological Investigation of the Pettebone Farms 88-186 Subdivision, Anne Arundel County, Maryland* (with April M. Fehr, Paul Patterson, Janet Shoemaker, and E. Jeanne Harris). Submitted to Mr. Dennis Hudak, Patten Corporation.
- 1990a *Phase I Archeological Testing at the New Castle Disposal Site, Lawrence County, Pennsylvania* (with Christopher R. Polglase and Michelle T. Moran). Submitted to Blazosky Associates, Inc.
- 1990b *A Phase I Archeological Investigation of the Windermere Estates Section 2 Project Area, Anne Arundel County, Maryland* (with Thomas W. Neumann and Martha Williams). Submitted to the Belle Grove Corporation.
- 1990c *A Phase I Intensive Archeological Investigation of the Proposed Brock Bridge Estates Project Area, Anne Arundel County, Maryland* (with Thomas W. Neumann and Michelle T. Moran). Submitted to Development Facilitators, Inc.
- 1990d *Detailed Archeological and Architectural Investigations of the Tabard Village Project Area, Cedar Grove Complex (AA-881), and Archeological Site 18AN594, Anne Arundel County, Maryland* (with Thomas W. Neumann, Kathryn M. Kuranda, and Michelle T. Moran). Submitted to Classic Community Corporation.
- 1990e *A Phase I Intensive Archeological Investigation of the Proposed Waste Water Discharge Pipeline Corridor, C & O Canal National Historic Park, Washington County, Maryland* (with Thomas W. Neumann and Michelle T. Moran). Submitted to W.D. Byron & Sons, Inc./Garden State Tanning, Inc.
- 1990f *Phase II Archeological Testing of Sites 18CH334, 18CH335, and 18CH336, Charles County Landfill No. 2, Waldorf, Maryland* (with Thomas W. Neumann, Christopher R. Polglase, Martha Williams, and Michelle T. Moran). Submitted to the Interstate General Company, LP.

- 1990g *A Phase I Intensive Archeological Investigation of the Proposed Ridge Commons Project Area, Anne Arundel County, Maryland* (with Thomas W. Neumann and Michelle T. Moran). Anarex, Inc.
- 1990h *A Phase I and Phase II Intensive Archeological Investigation of the Proposed Monocacy River Interceptor Sewer Line Corridor, Frederick County, Maryland* (with Thomas W. Neumann and Michelle T. Moran). Submitted to Frederick County, Department of Engineering.
- 1990i *Phase III Archeological Data Recovery from Sites 18AN685 and 18AN687, Anne Arundel County, Maryland* (with Thomas W. Neumann and Christopher R. Polglase). Submitted to the Russett Center Limited Partnership.
- 1990j *Phase I and II Archeological Investigations of Bachelor's Hope Farm, St. Mary's County, Maryland* (with Martha Williams, Kathryn M. Kuranda, and Suzanne Sanders). Submitted to Archetype.
- 1990k *A Phase I Archeological Survey of the Shipley's Choice Area K Commercial Complex Subdivision, Anne Arundel County, Maryland* (with Martha R. Williams and Michelle T. Moran). Submitted to Greenebaum & Rose Associates, Inc.
- 1990l *Phase I Archeological Survey of the Proposed Water Line for Resource Recovery Facility Dickerson, Maryland* (with Martha R. Williams and Michelle T. Moran). Submitted to ENSR Consulting and Engineering.
- 1990m *Phase II Archeological Testing of Sites 44FX923 and 44FX924, Fairfax County, Virginia* (with Martha R. Williams and Suzanne Sanders). Submitted to Copper Land Company.
- 1990n *A Phase I Intensive Archeological Investigation of the Novak Property, Anne Arundel County, Maryland* (with Thomas W. Neumann and Martha R. Williams). Submitted to Brown & Brown Builders, Ltd.
- 1990o *Archeological and Architectural Reconnaissance of the Suitland Federal Center, Prince Georges County, Maryland* (with Christopher R. Polglase, April Fehr, Michelle Theresa Moran, Janet S. Shoemaker, and Kathryn M. Kuranda). Submitted to Ward/Hall Associates, Inc.
- 1990p *Island Carib Origins: Evidence and Non-Evidence* (with Dave D. Davis). *American Antiquity* 55:37-48.
- 1990q *Phase I Archeological Survey of the Proposed Land Proffer from Gettysburg National Military Park to Gettysburg College, Gettysburg, Pennsylvania* (with Christopher R. Polglase, Peter H. Morrison, Michelle T. Moran, and Martha R. Williams). Submitted to Gettysburg College.
- 1990r *Phase I & II Archeological Investigations in the Shaw and Fourteenth Street Urban Renewal Areas, Washington, D.C.* (with Suzanne L. Sanders and Michelle T. Moran). Submitted to the Government of the District of Columbia.
- 1990s *Phase I Archeological Investigations of Billingsley Road, U.S. Route 301 to the Charles County Sanitary Landfill No. 2, Waldorf, Maryland*, (with Kathryn M. Kuranda and Michelle T. Moran). Submitted to Whitman, Requardt and Associates.

- 1990t *Phase I Intensive Archeological Investigations of the Mountain View Subdivision, Anne Arundel County, Maryland* (with Christopher R. Polglase, Martha R. Williams, Peter H. Morrison, and Michelle T. Moran). Submitted to Development Facilitators, Inc.
- 1990u *Phase III Archeological Data Recovery at Russett Site 8 (18AN666), Anne Arundel County, Maryland* (with Christopher R. Polglase and Thomas W. Neumann). Submitted to Russett Center Limited Partnership.
- 1990v *Phase II Investigations at the Water Intake Pumphouse Site, Brunswick, Maryland* (with Martha R. Williams and Michelle T. Moran). Submitted to the Town of Brunswick.
- 1990w *Architectural Survey of the Planned Oakmont Green Development, Carroll County, Maryland* (with Kathryn M. Kuranda, Michelle T. Moran, and Mary Kendall Shipe). Submitted to Oakmont Green Limited Partnership.
- 1990x *A Cultural Resource Survey Upper Yazoo Project, Item 3A-2, Mississippi* (with William P. Athens, William A. Morgan, James M. Wojtala, Ralph Draughon, Jr., Susan Barrett Smith, and Jennifer A. Cohen). Submitted to the U.S. Army Corps of Engineers, Vicksburg District.
- 1990y *Cultural Resources Investigations of the Citrus Lands Area, New Orleans to Venice Project, Plaquemines Parish, Louisiana* (with William P. Athens, James M. Wojtala, Susan Barrett Smith, Ralph Draughon, Jr., Julie H. McClay, Jennifer A. Cohen, and William A. Morgan). Submitted to the U.S. Army Corps of Engineers, New Orleans District.
- 1990z *Cultural Resource Investigations, Jackson Metropolitan Area, Mississippi* (with William P. Athens, Stephen Hinks, Julie McClay, and William A. Morgan). Submitted to the U.S. Army Corps of Engineers, Vicksburg District.
- 1990aa *Gas System of Cartersville 12-Inch O.D. Diameter Pipeline in Bartow and Floyd Counties, Georgia* (with William P. Athens, James M. Wojtala, Robert J. Hard, William A. Morgan, Julie H. McClay, and Jennifer A. Cohen). Submitted to Southern Natural Gas Company.
- 1990ab *A Cultural Resources Survey of the Proposed Bayou Sale Loop 20-Inch O.D. Pipeline Project* (with William P. Athens, James M. Wojtala, William A. Morgan, Stephen Hinks, Julie H. McClay, Jennifer A. Cohen, and Robert J. Hard). Submitted to Trunkline Gas Company.
- 1990ac *Level II Cultural Resources Survey of the 20-Inch O.D. Erath - South Section 28 Pipeline Near Erath, Louisiana* (with William P. Athens, James M. Wojtala, William A. Morgan, Julie H. McClay, and Jennifer A. Cohen). Submitted to Southern Natural Gas Company.
- 1990ad *Literature Search and Research Design, Amite River and Tributaries Project* (with William P. Athens, Stephen Hinks, Lawrence L. Hewitt, and William A. Morgan). Submitted to the U.S. Army Corps of Engineers, New Orleans District.
- 1990ae *Phase I/Phase II Archeological Investigations in Mississippi* (with William P. Athens, James M. Wojtala, April Miller Fehr, Ralph Draughon, Jr., Julie H. McClay, Jennifer A. Cohen, Paul V. Heinrich, and William A. Morgan). Submitted to Texas Eastern Gas Pipeline Company, Houston, Texas.

- 1990af *A Cultural Resource Survey of Portions of the Slidell Levee Protection Project, St. Tammany Parish, Louisiana* (with William P. Athens, Stephen Hinks, William A. Morgan, Susan Barrett Smith, Ralph Draughon, Jr., and Jennifer Cohen). Submitted to the U.S. Army Corps of Engineers, Vicksburg District.
- 1990ag *Level II Cultural Resources Survey of an Approximately 15 Acre Borrow Area Located at 16140 Chef Menteur Highway, New Orleans, Louisiana* (with William P. Athens, Stephen Hinks, and Susan Barrett Smith). Submitted to River Road Construction, Inc., Mandeville, Louisiana.
- 1990ah *Evaluation of Magnetic Anomalies Located in Lower Bayou Teche, St. Mary Parish, Louisiana* (with William P. Athens and Allen R. Saltus, Jr.). Submitted to the U.S. Army Corps of Engineers, New Orleans District.
- 1990ai *A Phase I Archeological Investigation of the Chisolm Choice Subdivision, Glen Burnie, Anne Arundel County, Maryland* (Principal Investigator; Martha R. Williams and Michelle T. Moran). Prepared for Development Facilitators, Inc.
- 1990aj *Phase I Intensive Archeological Survey of the Runway 15L and Runway 33R Improvement Areas, Baltimore/Washington International Airport, Anne Arundel County, Maryland* (with Thomas W. Neumann). Submitted to Kibler Construction.
- 1990ak *Phase II Intensive Survey of Historic and Prehistoric Archeological Components at the Packer Site (36CN7A), Clinton County, Pennsylvania* (with Jennifer A. Cohen, Thomas W. Neumann, and Stephen Hinks). Submitted to Baltimore District, U.S. Army Corps of Engineers.
- 1991a *Preliminary Archeological Reconnaissance of the Folly Branch SWM Facility, Prince Georges County, Maryland* (with Martha R. Williams, Michelle T. Moran, and Christopher R. Polglase). Submitted to Engineering Technologies Associates, Inc.
- 1991b *Archeological Survey and Architectural Investigation of the Proposed 7-Mile BG&E Dublin Extension Pipeline, Harford County, Maryland* (with Kathryn M. Kuranda, Michelle Moran, Mary K. Shipe, and Martha R. Williams). Submitted to Biohabitats.
- 1991c *Phase I Archeological Survey and Architectural Investigation of the Proposed 24-Mile BG&E Pipeline, Harford County, Maryland* (with Kathryn M. Kuranda, Martha R. Williams, Mary K. Shipe, and Peter Morrison). Submitted to Biohabitats.
- 1991d *Phase I Intensive Archeological Investigations of the Proposed Cattail Creek Country Club, Oakland, Howard County, Maryland* (with Suzanne L. Sanders and Michelle T. Moran). Submitted to Cattail Creek Country Club.
- 1991e *Historical and Archeological Investigations of the Planned Washington National Airport Surveillance Radar Facility Site, Washington, D.C.* (with Christopher R. Polglase and Martha R. Williams, with contributions by Lawrence Hewitt). Submitted to City of Manassas Park.
- 1991f *Phase II and IIIA Archeological Investigations of the Signal Hill and Bobby Tracts, Prince William County, Virginia; Volume I: The Non-Military Sites* (with Suzanne L. Sanders and Martha Williams, with contributions by Lawrence Hewitt). Submitted to City of Manassas Park.
- 1991g *Phase II and IIIA Archeological Investigations of the Signal Hill and Bobby Tracts, Prince William County, Virginia; Volume II: The Military Sites* (with Suzanne L. Sanders and Martha Williams, with contributions by Lawrence Hewitt). Submitted to City of Manassas Park.

- 1991h *Overview, Inventory, and Assessment of Cultural Resources in the Louisiana Coastal Zone* (with William P. Athens, Paul Heinrich, and Stephen Hinks). Submitted to Coastal Management Division, Department of Natural Resources.
- 1991i *A Cultural Resource Survey Upper Yazoo Project, Item 3A-2, Leflore and Holmes Counties, Mississippi* (with William P. Athens, Stephen Hinks, William A. Morgan, April M. Fehr, Ralph Draughon, Jr., Julie H. McClay, Susan Barrett Smith, Jennifer A. Cohen, and Robert Hard). Submitted to the U.S. Army Corps of Engineers, Vicksburg District.
- 1991j *Survey and Testing of Three Items on the Red River in Pools 4 and 5 Red River Waterway, Louisiana* (with William P. Athens, Paul Heinrich, James M. Wojtala, Ralph Draughon, Jr., Susan Barrett Smith, Allen R. Saltus, Jr., and William Morgan). Submitted to the U.S. Army Corps of Engineers, Vicksburg District.
- 1991k *A Cultural Resource Survey Brown Bend Realignment and Slay Bend Revetment, Red River Waterway, Arkansas* (with William P. Athens, James M. Wojtala, Julie H. McClay, Teresa L. Paglione, William A. Morgan, Jennifer A. Cohen, and James Allen Green, Jr.). Submitted to the U.S. Army Corps of Engineers, Vicksburg District.
- 1991l *A Cultural Resource Survey Howard Realignment and Williams Downstream Revetment, Red River Waterway, Louisiana* (with William P. Athens, James M. Wojtala, Julie H. McClay, William A. Morgan, and Jennifer A. Cohen). Submitted to the U.S. Army Corps of Engineers, Vicksburg District.
- 1991m *A Cultural Resource Survey of the Proposed ConAgra Broiler Company Facility, Union Parish, Louisiana* (with William P. Athens, Stephen Hinks, Susan Barrett Smith, Paul Heinrich, and Jennifer A. Cohen). Submitted to The Honorable Mayor J. Carlton White.
- 1991n *Phase I Archeological Survey of the Riddle Tract, Anne Arundel County, Maryland* (with Peter H. Morrison, Michelle T. Moran, and Christopher R. Polglase). Submitted to Reds Dove, Inc.
- 1991o *Phase I Archeological Investigations of the Traville Development Corporation (CENAB-OP-RS, 90-00132-5), Willows of Potomac Shady Grove Road Club (CENAB-OP-RX, 91-0048-9), and Traville Partnership (CENAB-OP-RP, 91-00713-5) Properties, Montgomery County, Maryland* (with Suzanne L. Sanders and Michelle T. Moran). Submitted to Traville Development Corporation, Shady Grove Road Club, and Traville Partnership.
- 1991p *Phase I Archeological Survey of the AES/Warrior Run Cogeneration Facility, Allegany County, Maryland* (with Thomas W. Neumann, and Martha R. Williams, with contributions by Christopher R. Polglase). Submitted to AES/Warrior Run Inc.
- 1991q *Phase IB Archeological Investigations of a Proposed 230-kV Transmission Line and Construction Access Road, Clover Power Generation Plant, Halifax County, Virginia* (with Thomas W. Neumann and Martha R. Williams). Submitted to Old Dominion Electric Cooperative.
- 1991r *La edad ceramista en las Antillas Menores*, in Marcio Veloz M., Ed. *Panorama Historico del Caribe Precolombino*, Banco Central de la Republica Dominicana
- 1991s *Archeological Inventory and Testing of the Monocacy - Mount Airy 230 kV Transmission Line, the 230 kV Eaglehead Loop, and the Eaglehead 230 kV Substation, Frederick County, Maryland* (Principal Investigator; Suzanne L. Sanders, Michelle T. Moran, Thomas W. Neumann, and Christopher R. Polglase). Prepared for Allegheny Power System.

- 1991t *Phase I and II Intensive Archeological Investigations of the James Drane House, Accident, Garrett County, Maryland* (Principal Investigator; Suzanne L. Sanders, April L. Fehr, and Michelle T. Moran). Prepared for the Town of Accident.
- 1991u *Phase IA Historical Background Study and Phase IB Archeological Investigations of the Maryland Library for the Blind and Physically Handicapped, Baltimore, Maryland* (Principal Investigator; Martha R. Williams). Prepared for Ayers Saint Gross.
- 1991v *Phase I Archeological Investigation of the Carr's Grant Subdivision, Anne Arundel County, Maryland* (Principal Investigator; Christopher R. Polglase, Michelle T. Moran, and Martha R. Williams). Submitted to Anchor Capital Group, Inc.
- 1991w *Historical and Architectural Investigations of the Humphrey Wolfe Farm, Howard County, Maryland* (Principal Investigator; Kathryn M. Kuranda and Michelle T. Moran). Prepared for Cattail Creek Country Club.
- 1991x *Combined Phase I and Phase II Archeological Investigations of Centre 9500, Howard County, Maryland* (Principal Investigator; Suzanne L. Sanders and Michelle T. Moran). Prepared for Land Design Engineering, Inc.
- 1991y *A Phase I Intensive Archeological Investigation of the Degrange Project Area, Anne Arundel County, Maryland* (Principal Investigator; Martha R. Williams). Prepared for Brenton & Associates, Inc.
- 1991z *Cultural Resources Management Plan and Maintenance, Rehabilitation, and Repair Guidelines for Fort Detrick, Maryland* (Principal Investigator; Deborah K. Cannan, Christopher R. Polglase, John Mintz, William Henry, and Estella K. Bryans-Munson). Prepared for the U.S. Army Corps of Engineers, Baltimore District.
- 1991aa *A Study of Secondary Impacts to Historic Resources Resulting from Construction of the Proposed Montgomery County Resource Recovery Facility, Dickerson, Maryland* (with Kathryn M. Kuranda and Michelle T. Moran). Submitted to ENSR Consulting and Engineering.
- 1991ab *Phases I and II Archeological Investigations of the Frederick Municipal Golf Course, Frederick County, Maryland* (with Thomas W. Neumann and Michelle T. Moran, with contributions by Kathryn M. Kuranda). Submitted to City of Frederick, Maryland.
- 1991ac *Phase I Archeological Investigations of the Percon Property - Waverly Development, Howard County, Maryland* (with Thomas W. Neumann, Michelle T. Moran, and Christopher R. Polglase). Submitted to GTW Joint Venture.
- 1991ad *Phase I and II Archeological Investigations of Sites 18AN779 and 18AN780, Heather Heights Subdivision, Anne Arundel County, Maryland* (with Thomas W. Neumann, Martha R. Williams, and Michelle T. Moran). Submitted to Maryland Community Developers.
- 1991ae *Phase I Intensive Archeological Investigations of the Ice House Square, Gettysburg, Adams County, Pennsylvania* (with Suzanne L. Sanders, Ralph Draughon, Jr., and Michelle T. Moran). Prepared for Historic Properties of Gettysburg, Inc.
- 1991af *Architectural History Investigations of the Washington National Airport Surveillance Radar Facility, Washington, D.C.* (with Kathryn M. Kuranda and Michelle T. Moran). Submitted to Information Systems and Network Corporation.

- 1991ag *Phase II Archeological Investigations of 18PR377, Barnes Farm, Prince Georges County, Maryland* (with Suzanne L. Sanders, Ralph Draughon, Michelle T. Moran, Christopher R. Polglase, and Cynthia A. Whitley). Prepared for U.S. Army Corps of Engineers, Baltimore District).
- 1991ah *Phase II Archeological Investigations of Sites 18CR18 and 18CR196, London Square Business Park, Carroll County, Maryland* (Principal Investigator; Christopher R. Polglase). Prepared for London Square Partnership.
- 1991ai *Phase I Archeological Survey of the Proposed Corbalis Water Treatment Plant to Loudoun County Line 36" Water Main Alignment, Fairfax County, Virginia* (Principal Investigator; Martha R. Williams). Submitted to Loudoun County Sanitation Authority.
- 1991aj *Phase I Archeological Investigations of Oakmont Green, Carroll County, Maryland* (with Suzanne L. Sanders and Mary Shipe). Prepared for Oakmont Green Limited Partnership.
- 1991ak *Phase I Archeological Investigations and Architectural Reconnaissance Survey of the BG&E Utility Corridor from Herald Harbor Road to Maryland Route 3, Anne Arundel County, Maryland* (with Christopher R. Polglase, William R. Henry, Kathryn M. Kuranda, and Michelle T. Moran). Prepared for Baltimore Gas & Electric Company.
- 1991al *Suitland Federal Center Historic Preservation Compliance Section 110 and 106 Compliance, Prince George's County, Maryland* (with Kathryn M. Kuranda, Michelle T. Moran, and Deborah Cannan). Submitted to Ward/Hall Associates, AIA.
- 1991am *Archeological Investigations at the Third Haven Meeting House (18TA241), Talbot County, Maryland* (with Thomas W. Neumann and Martha R. Williams). Prepared for Third Haven Friends Meeting.
- 1991an *Phase I Archeological Survey of the Proposed Expansion, Wildewood Planned Unit Development, St. Mary's County, Maryland* (Principal Investigator; Pamela Crane and Martha Williams). Prepared for Paragon Builders, Inc.
- 1991ao *Phase II Archeological Investigations within the Wyoming Valley Local Flood Protection Study Area, Susquehanna River Valley, Luzerne County, Pennsylvania* (with Gary D. Shaffer, April M. Fehr, and Michelle Moran). Submitted to Baltimore District, U.S. Army Corps of Engineers.
- 1991ap *Phase I Archeological Investigation at the Meadows, Baltimore County, Maryland*, (with Kathryn M. Kuranda and Suzanne L. Sanders). Submitted to The Macks Group.
- 1992a *Phase I and Phase II Archeological and Architectural Investigations for the Proposed Site of the William H. Natcher Building, National Institutes of Health, Bethesda, Maryland* (with Kathryn M. Kuranda and Suzanne L. Sanders). Prepared for AEPA Architects Engineers.
- 1992b *Phase II Archeological Evaluation of Site 46RD142, Randolph County, West Virginia* (with Thomas W. Davis and Thomas W. Neumann). Submitted to the U.S. Army Corps of Engineers, Baltimore District).
- 1992c *Supplemental Archeological Investigations of Lower Bayou Teche, St. Mary Parish, Louisiana* (with William P. Athens, Stephen Hinks, Ralph Draughon, Susan Barrett Smith, Jennifer A. Cohen, and Paul Heinrich). Submitted to the U.S. Army Corps of Engineers, New Orleans District.

- 1992d *Cultural Resources Investigations for the Westbank Hurricane Protection Project, Plaquemines and Jefferson Parishes, Louisiana* (with William P. Athens, Stephen Hinks, Ralph Draughon, Susan Barrett Smith, Jennifer A. Cohen, and Paul Heinrich). Submitted to the U.S. Army Corps of Engineers, New Orleans District.
- 1992e *Cultural Resource Survey and Testing of Eight Items on the Red River in Pool 5, Red River Waterway, Louisiana* (Stephen Hinks, Ralph Draughon, Susan Barrett Smith, Jennifer A. Cohen, and Paul Heinrich). Submitted to the U.S. Army Corps of Engineers, Vicksburg District.
- 1992f *Historical and Archeological Investigations of Fort Bisland and Lower Bayou Teche, St. Mary Parish, Louisiana* (with William P. Athens, Stephen Hinks, Ralph Draughon, Jennifer A. Cohen, William A. Morgan, Allen R. Saltus, Jr., and Paul V. Heinrich). Submitted to the U.S. Army Corps of Engineers, New Orleans District.
- 1992g *Southern Natural Gas 1992 Pipeline Replacement Program 14" O.D. Logansport Line - Logansport District, DeSoto Parish, Louisiana* (with William P. Athens, David Courington, Paul V. Heinrich, and Julie McClay). Submitted to Southern Natural Gas, Birmingham, Alabama.
- 1992h *Southern Natural Gas 1992 Pipeline Replacement Program 14" O.D. Logansport Line - Logansport District, Shelby County, Texas* (with William P. Athens, David Courington, Paul V. Heinrich, and Julie McClay). Submitted to Southern Natural Gas, Birmingham, Alabama.
- 1992i *Archeological Testing of Site 16EBR80, East Baton Rouge Parish, Louisiana* (with William P. Athens, Stephen Hinks, Susan Barrett Smith, and Jennifer A. Cohen). Submitted to the United States Postal Service, Memphis, Tennessee.
- 1992j *Archeological Survey of a Planned Postal Facility Parcel, Mandeville, St. Tammany Parish, Louisiana* (with William P. Athens, Stephen Hinks, Susan Barrett Smith, and Jennifer A. Cohen). Submitted to the U.S. Postal Service, Memphis, Tennessee.
- 1992k *Archeological Survey of Gillis W. Long Hansen's Disease Center, Iberville Parish, Louisiana* (with William P. Athens, Stephen Hinks, Ralph Draughon, Jr., and Jennifer A. Cohen). Submitted to the Department of Health and Human Services, Gillis W. Long Hansen's Disease Center, Carville, Louisiana.
- 1992l *Cultural Resource Survey and Testing of the East Jefferson Parish Levee Gap Closure, Jefferson Parish, Louisiana* (with William P. Athens, Stephen Hinks, Susan Barrett Smith, and Jennifer Cohen). Submitted to the U.S. Army Corps of Engineers, New Orleans District.
- 1992m *Cultural Resources Investigations of Larose to Golden Meadow Hurricane Protection Project Levee Section D, Lafourche Parish, Louisiana* (with William P. Athens, Stephen Hinks, Paul V. Heinrich, and Susan Barrett Smith). Submitted to the U.S. Army Corps of Engineers, New Orleans District.
- 1992n *Phase I/Level II Cultural Resource Survey of an Approximately 22.2 Acre Borrow Area Located South of Chef Menteur Highway, Orleans Parish, Louisiana* (with William P. Athens, Stephen Hinks, and Susan Barrett Smith). Submitted to Logistics Services International, Metairie, Louisiana.
- 1992o *Battery No. 3 and Parapet Excavations, the Chalmette Unit, Jean Lafitte National Historical Park, St. Bernard Parish, Louisiana* (with William P. Athens, Stephen Hinks, Ralph Draughon, Jr., and Jennifer A. Cohen). Submitted to the National Park Service, Santa Fe, New Mexico.

- 1992p *Phase I Cultural Resources Investigation of the Florida Gas Transmission Company Proposed Phase III Expansion West Leg Mainline Extension Natural Gas Pipeline Corridor* (with William P. Athens, Paul V. Heinrich, and Julie McClay). Submitted to Enron Gas Pipeline Operating Company.
- 1992q *Phase I Cultural Resources Investigation of the Florida Portion of the Florida Gas Transmission Company Proposed Phase III Expansion Natural Gas Pipeline Corridor* (with William P. Athens, Paul V. Heinrich, and Julie McClay). Submitted to Enron Gas Pipeline Operating Company.
- 1992r *Phase I Cultural Resources Investigation of the Florida Gas Transmission Company Proposed Phase III Expansion, Orlando Loop Natural Gas Pipeline Corridor* (with William P. Athens, Paul V. Heinrich, and Julie McClay). Submitted to Enron Gas Pipeline Operating Company.
- 1992s *Phase I Cultural Resources Investigation of the Florida Gas Transmission Company Proposed Phase III Expansion, Sarasota Loop Natural Gas Pipeline Corridor* (with William P. Athens, Paul V. Heinrich, and Ralph Draughon, Jr.). Submitted to Enron Gas Pipeline Operating Company.
- 1992t *Phase I Cultural Resources Investigation of the Florida Gas Transmission Company Proposed Phase III Expansion, St. Petersburg Loop Natural Gas Pipeline Corridor* (with William P. Athens, Paul V. Heinrich, and Ralph Draughon, Jr.). Submitted to Enron Gas Pipeline Operating Company.
- 1992u *Phase I Cultural Resources Investigation of the Mississippi Portion of the Florida Gas Transmission Company Proposed Phase III Expansion Natural Gas Pipeline Corridor* (with William P. Athens, Paul V. Heinrich, and Julie McClay). Submitted to Enron Gas Pipeline Operating Company.
- 1992v *Phase I Cultural Resources Investigation of the Alabama Portion of the Florida Gas Transmission Company Proposed Phase III Expansion Natural Gas Pipeline Corridor* (with William P. Athens, Paul V. Heinrich, and Julie McClay). Submitted to Enron Gas Pipeline Operating Company.
- 1992w *Phase I Cultural Resources Investigation of the Louisiana Portion of the Florida Gas Transmission Company Proposed Phase III Expansion Natural Gas Pipeline Corridor* (with William P. Athens, Paul V. Heinrich, and Susan Barrett Smith). Submitted to Enron Gas Pipeline Operating Company.
- 1992x *A Cultural Resource Survey, Preliminary Areas, Lake George Mitigation, Yazoo Basin, Yazoo County, Mississippi* (with William P. Athens, Jennifer Cohen, Paul V. Heinrich, Susan Barrett Smith, Steve Hinks, and James Wojtala). Submitted to the U.S. Army Corps of Engineers, Vicksburg District.
- 1992y *Architectural and Archeological Investigations in and adjacent to the Bywater Historic District, New Orleans, Louisiana* (with William P. Athens, Stephen Hinks, Jack B. Irion, Kathryn M. Kuranda, Ralph Draughon, Jr., and Paul V. Heinrich). Submitted to the U.S. Army Corps of Engineers, New Orleans District.
- 1992z *Cultural Resource Investigations Upper Yazoo Project, Greenwood to Darling, Mississippi* (with William P. Athens and Stephen Hinks). Submitted to the U.S. Army Corps of Engineers, Vicksburg District.
- 1992aa *Cultural Resources Investigations of Larose to Golden Meadow Hurricane Protection Project Levee Section D-North (Compromise Alignment), Lafourche Parish, Louisiana* (with William P.

- Athens, Stephen Hinks, Susan Barrett Smith, and Paul V. Heinrich). Submitted to the U.S. Army Corps of Engineers, New Orleans District.
- 1992ab *Supplemental Archeological Investigations at the Gillis W. Long Hansen's Disease Center, Iberville Parish, Louisiana* (with William P. Athens, Stephen Hinks, and Jennifer A. Cohen). Submitted to Department of Health and Human Services, Gillis W. Long Hansen's Disease Center, Carville, Louisiana.
- 1992ac *Phase I Cultural Resources Investigation of Various Items along the St. Petersburg - Sarasota Connector Lateral and Phase II Testing and Evaluation of the Big Cowhuna Site (8HI4039), Hillsborough County, Florida* (with William P. Athens, Bradley M. Mueller, Floyd B. Largent, Jennifer Cohen, Paul Heinrich, Thomas Neumann, and Susan Barrett Smith). Submitted to Enron Gas Operating Company, Houston, Texas.
- 1992ad *Phase I Cultural Resources Investigation of the Florida Gas Transmission Company Proposed Phase III Expansion, Customer Facilities Natural Gas Pipeline Corridor* (with William P. Athens, Bradley Mueller, and Floyd B. Largent, Jr.). Submitted to Enron Gas Pipeline Operating Company.
- 1992ae *Phase I Cultural Resources Investigation of the Florida Gas Transmission Company Proposed Phase III Expansion, West Leg Extension Natural Gas Pipeline Corridor* (with William P. Athens, Bradley Mueller, and Floyd B. Largent, Jr.). Submitted to Enron Gas Pipeline Operating Company.
- 1992af *Phase I Cultural Resources Investigation of the Florida Gas Transmission Company Proposed Phase III Expansion, Mainline Loop South Natural Gas Pipeline Corridor* (with William P. Athens, Bradley Mueller, and Floyd B. Largent, Jr.). Submitted to Enron Gas Pipeline Operating Company.
- 1992ag *Phase IB Terrestrial and Underwater Archeological Investigations of the Proposed Cogentrix Coal-Fired Power Plant, Mayaguez, Puerto Rico* (with Suzanne L. Sanders, Jack B. Irion, and Martha R. Williams). Submitted to ENSR Consulting and Engineering.
- 1992ah *Phase I Cultural Resource Investigations of the Lake Shore Athletic Complex, Anne Arundel County, Maryland* (with Christopher R. Polglase, Pamela Crane, and Hugh McAloon). Submitted to Anne Arundel County, Maryland.
- 1992ai *Cultural Resource Reconnaissance and Sensitivity Study for the C & D Canal Feasibility Study, Chesapeake Bay and Delaware River* (with Christopher R. Polglase, Kathryn M. Kuranda, Michelle T. Moran, Peter H. Morrison, Katherine E. Grandine, and Thomas W. Neumann). Submitted to the Maryland Port Administration.
- 1992aj *Phase I Archeological Investigations of Parcel 4 of the Sandy Hill Creative Disposal Project Expansion, Prince George's County, Maryland* (with Suzanne L. Sanders, Pamela Crane, Estella Bryans-Munson, and Cynthia Whitley). Submitted to Loiderman Associates, Inc.
- 1992ak *Phase II Archeological Investigations of Three Shipwreck Sites in the Baltimore Harbor and Channels Federal Navigation 50 ft Project, Chesapeake Bay, Maryland and Virginia* (Principal Investigator; Peter H. Morrison, Stephen R. James, and Michael Pohoski). Prepared for the U.S. Army Corps of Engineers, Baltimore District.

- 1992al *Phase I Archival and Archeological Investigations of the Proposed Courts of Belle Pointe Subdivision, Anne Arundel County, Maryland* (Principal Investigator; John J. Mintz, Katherine Grandine, and Justine Woodard). Submitted to New England Developers, Inc.
- 1992am *Phase I Archeological Investigation of the Proposed Alternate 4 ("East") Gunston Road Extension, Fort Belvoir, Fairfax County, Virginia* (Principal Investigator; Martha R. Williams).
- 1992an *Phase I Archeological Survey of the Colonial Beach Wastewater Treatment Facility, Westmoreland County, Virginia* (Principal Investigator; Thomas W. Neumann, Martha R. Williams, Justine Woodard, and Colby Child). Prepared for U.S. Environmental Protection Agency and Virginia State Water Control Board. Submitted to Patton Harris, Rust & Associates.
- 1992ao *Phase IA Investigations of the Proposed Dalecarlia to Chain Bridge Water Supply Main Project, Washington, D.C., and Montgomery County, Maryland* (Principal Investigator; Martha R. Williams and Suzanne L. Sanders). Prepared for Gannett Fleming, Inc.
- 1992ap *Phase I Archeological Investigations of the Proposed Gallatin Woods Subdivision, Anne Arundel County, Maryland* (with Thomas W. Neumann and Michelle T. Moran). Submitted to Adventures in Home Building, LTD, c/o Anarex, Inc.
- 1992aq *Phase IA Reconnaissance of the Proposed Harwood's Mill Raw Water Pipeline in James City County, York County and the City of Newport News, Virginia* (Principal Investigator; Suzanne L. Sanders and Michelle T. Moran). Prepared for Gannett Fleming, Inc.
- 1992ar *Phase II Archeological Evaluation of Site 44YO163, Newport News City Park, Virginia* (Principal Investigator; Thomas W. Davis, Leo Hirrel, and Christopher R. Polglase). Prepared for the U.S. Army Corps of Engineers, Norfolk District, submitted to Gannett Fleming, Inc.
- 1992as *Phase III Archeological Data Recovery of Site 18FR55, Frederick County, Maryland* (Principal Investigation; Thomas W. Neumann). Submitted to Frederick County Division of Public Works.
- 1992at *Phase I Archival and Archeological Investigations of the Proposed New Market 230 kV Loop Transmission Line and the New Market Substation and Access Road, Frederick County, Maryland* (with John J. Mintz, Pamela Crane, and Hugh B. McAloon). Prepared for Allegheny Power System.
- 1992au *Phase I Archeological Investigations of Portions of the Proposed Nicholson's Manor Subdivision, Baltimore County, Maryland* (Principal Investigator; Suzanne L. Sanders, Michael A. Simons, and Katherine E. Grandine). Prepared for McKee and Associates, Inc.
- 1992av *Phase I Architectural and Archeological Investigations of the Original and Realigned BG&E Perryman to Sharon Gate and James Run Pipeline Corridors, Harford County, Maryland* (with Kathryn N. Kuranda, Michelle T. Moran, Mary K. Shipe, and Martha R. Williams). Prepared for Biohabitats.
- 1992aw *Archeological and Architectural Survey of the Potomac Palisades, Arlington County, Virginia* (Principal Investigator; Martha R. Williams, Deborah K. Cannan, Christopher R. Polglase, Pamela Crane, and Thomas W. Neumann). Prepared for Arlington County Department of Community Planning, Housing and Development.

- 1992ax *Phase IA Reconnaissance and Historical Background Study of the Proposed Prince William County Service Authority Western Zone Water Transmission Line* (Principal Investigator; Thomas W. Davis and Martha R. Williams). Prepared for Gannett Fleming, Inc.
- 1992ay *Architectural Investigations of a Portion of Camp Shelby, Mississippi* (Principal Investigator; Kathryn M. Kuranda and Leo P. Hirrel).
- 1992az *Historical and Architectural Investigations of the Shipley House, Howard County, Maryland* (Principal Investigator; Deborah Cannan, Tom Dod, and Hugh McAloon). Prepared for J. Christopher Batten, Inc.
- 1992ba *Phase I Archeological Survey of the Texaco Well Test Site, Charles County, Maryland* (Principal Investigator; John Mintz and Hugh McAloon). Prepared for Texaco USA.
- 1992bb *Archeological and Historical Investigations of the South Road Area, Sully Historic Site, Fairfax County, Virginia* (with Suzanne L. Sanders, Cynthia A. Whitley, Martha R. Williams, and with contributions by Pamela Crane). Submitted to the Fairfax County Park Authority.
- 1992bc *Archeological and Architectural Investigations at Camden Yards, Baltimore, Maryland* (with Kathryn M. Kuranda, Elizabeth Pena, Martha R. Williams, Suzanne M. Sanders, and with a contribution by David B. Landon). Submitted to the Maryland Stadium Authority.
- 1993a *Phase II/III Archeological Investigations at the Garman Site (18AN486), Woodside Ridge Subdivision, Anne Arundel County, Maryland* (with Christopher R. Polglase, Thomas W. Neumann, and Peter Morrison).
- 1993b *Archival and Architectural Investigations of the Mississippi Basin Model, Clinton, Mississippi* (Principal Investigator; Kathryn M. Kuranda, Martha Williams, and Bethany Usher). Prepared for the U.S. Army Corps of Engineers, Vicksburg District.
- 1993c *Conditions Analyses and Preservation Treatment Recommendations for Historic Brick Buildings at Aberdeen Proving Ground* (Principal Investigator; Brooke V. Best and Kathryn M. Kuranda). Prepared for the U.S. Army Corps of Engineers, Baltimore District.
- 1993d *Historical and Archeological Investigations for the Proposed U.S. Army Materiel Command Army Research Laboratory, Aberdeen Proving Ground, Maryland* (Principal Investigator; John J. Mintz, Michelle T. Moran, Alice Crampton, and Thomas W. Davis). Prepared for the U.S. Army Corps of Engineers, Baltimore District.
- 1993e *Phase I and II Archeological Investigations at Benjamin Banneker Historical Park, Baltimore County, Maryland* (Principal Investigator; Suzanne L. Sanders, Michelle T. Moran, Martha R. Williams, Michael A. Simons, and Justine Woodard). Prepared for Baltimore County, Office of Central Services.
- 1993f *Phase I Archeological Survey of the Beards Creek Estates Subdivision, Anne Arundel County, Maryland* (Principal Investigator; John J. Mintz, Michelle T. Moran, Colby A. Child, Thomas W. Davis, and Christopher R. Polglase). Prepared for Mandrin Construction Company, Inc.
- 1993g *Cultural Resource Investigation Brown's Battery Breaking Site Berks County, Pennsylvania* (Principal Investigator; Thomas W. Davis, John J. Mintz, Leo Hirrel, Hugh B. McAloon, Christopher R. Polglase, and Kathryn M. Kuranda). Prepared under Contract to U.S. Army Corps of Engineers, Baltimore District.

- 1993h *Phase II Archeological Evaluations of Sites 18CV61 and 18CV62, Calvert County, Maryland* (Principal Investigator; Thomas W. Davis, Leo Hirrell, Thomas W. Neumann, Timothy Silva, Kathleen Federline, Justine Woodard, and Christopher R. Polglase). Prepared for Baltimore Gas & Electric Co.
- 1993i *Phase IB Archeological Investigations of the Proposed Dalecarlia Reservoir to Chain Bridge Water Supply Main, Washington, D.C., and Montgomery County, Maryland* (Principal Investigator; John J. Mintz, Justine Woodard, Martha Williams, and Suzanne L. Sanders). Submitted to Gannett Fleming, Inc.
- 1993j *Phase II/III Archeological Investigations of the Gott's Court Parking Facility, Annapolis, Maryland* (with Suzanne L. C. Sanders, Michelle T. Moran, and David Landon). Submitted to the City of Annapolis.
- 1993k *Phase I Investigations of Segment "O" of the Harwood's Mill Raw Water Pipeline, York County, Virginia* (Principal Investigator; Colby A. Child, Thomas W. Davis, and Suzanne L. Sanders). Prepared for the U.S. Army Corps of Engineers, Norfolk District, submitted to Gannett Fleming, Inc.
- 1993l *Phase I and Phase II Archeological Investigations for the Villages of Lyonsfield Run, Baltimore County, Maryland* (Principal Investigator; Jeffrey H. Maymon, Michael A. Simons, Christopher R. Polglase, and Hugh B. McAloon). Prepared for Westinghouse Credit Corporation.
- 1993m *Cultural Resource Management Plan for Morgantown Energy Technology Center* (Principal Investigation; Christopher R. Polglase, Michelle T. Moran, Thomas W. Davis, Hugh McAloon, and Timothy Silva). Submitted to Department of Energy, Morgantown, West Virginia.
- 1993n *Phase I Archeological Investigations for Proposed Vegetation Maintenance/Management Areas and a Proposed Wetlands Restoration Project, Naval Air Station Oceana, Virginia Beach, Virginia* (Principal Investigator; Thomas W. Davis, William T. Dod, and John J. Mintz). Submitted to Atlantic Division, Naval Facilities Engineering Command.
- 1993o *Phase I Archeological Investigations of Portions of Pemberton Historical Park Wicomico County, Maryland* (Principal Investigator; Suzanne L. Sanders and Michelle T. Moran). Submitted to Wicomico County, Department of Recreation and Parks.
- 1993p *Phase I Archeological Survey of the Parker's Creek Road Materials Storage Yard for the Proposed Baltimore Gas & Electric Company Calvert Cliffs Nuclear Power Station to Chalk Point Power Station 500 kV Transmission Line Corridor, Calvert County and Prince George's County, Maryland* (Principal Investigator; Thomas W. Davis and Michael Simons). Submitted to Black & Veatch.
- 1993q *Phase I Investigations of the Russett Board of Education Property, Anne Arundel County, Maryland* (Principal Investigator; Thomas W. Davis, Michelle T. Moran, and Colby A. Child). Prepared for Curtis F. Peterson, Inc.
- 1993r *Phase III Archeological Data Recovery at Russett Site 5 (18AN665), Anne Arundel County, Maryland* (Principal Investigator; Christopher R. Polglase, Jeffrey H. Maymon, Kathleen Child, and S. Justine Woodard). Prepared for Russett Center Limited Partnership.

- 1994a *Phase I Archeological Survey of the Proposed AES/Warrior Run Power Line Right-of-Way to the Town of Ridgeley, Mineral County, West Virginia* (Principal Investigator; Michael B. Hornum, W. Patrick Giglio, and Henry W. Measells, IV). Submitted to AES/Warrior Run, Inc.
- 1994b *Phase IA Archeological Investigations at Poplar Island, Talbot County, Maryland* (Principal Investigator; John J. Mintz, Martha R. Williams, Patrick R. Jennings, and S. Justine Woodard).
- 1994c *Phase I Archeological Survey for the Proposed Sagamore Run Subdivision, Anne Arundel County, Maryland* (Principal Investigator; Lance K. Trask, W. Patrick Giglio, and Michael B. Hornum). Prepared for G. W. Koch & Associates, Inc.
- 1994d *Phase I/II Archeological Investigations for the Proposed Baltimore Convention Center Expansion, Baltimore, Maryland* (Principal Investigator; Suzanne L. Sanders and Martha R. Williams). Prepared for the Maryland Stadium Authority.
- 1994e *Phase I Archeological Survey and Architectural Investigations of the Proposed Delmarva Power & Light Company Easton-Steele 138 kV Transmission Line, Maryland* (Principal Investigator; Michael A. Simons, Geoffrey E. Melhuish, W. Thomas Dod, Kathryn M. Kuranda, and Christopher R. Polglase). Prepared for Delmarva Power & Light Company.
- 1994f *Phase II Archeological Investigations of the Proposed ASR-9 Radar Facility, Anacostia, Washington, D.C., S.E.* (Principal Investigator; Suzanne L. Sanders, Martha R. Williams, Donald J. Maher, and Michael A. Simons). Prepared for Information Systems & Networks Corporation.
- 1994g *Historic American Buildings Survey: 120 East South Street (Garage) and 122 East South Street (House)* (Principal Investigator; W. Patrick Giglio and Deborah K. Cannan). Submitted to Way Station, Inc.
- 1994h *Cultural Resources Investigations at the Defense Information School (DINFOS) (Formerly Defense Media School), Fort George G. Meade, Anne Arundel County, Maryland* (Principal Investigator; Martha R. Williams and Hugh B. McAloon). Prepared for the U.S. Army Corps of Engineers, Baltimore District.
- 1994i *Fort George G. Meade, Cultural Resource Management Plan* (Principal Investigator; Hugh B. McAloon, John J. Mintz, Martha R. Williams, William T. Dod, Kathleen F. Child, Leo P. Hirrel, and Kathryn M. Kuranda). Prepared for the U.S. Army Corps of Engineers, Baltimore District.
- 1994j *Phase I and Phase II Archival, Architectural, and Archeological Investigations for the Local Flood Control Project, Moorefield, Hardy County, West Virginia* (Principal Investigator; John J. Mintz, Thomas W. Davis, Thomas W. Neumann, Christopher R. Polglase, Deborah K. Cannan, Michelle T. Moran, Ralph Draughon, and Kathryn J. Saul). Prepared for the U.S. Army Corps of Engineers, Baltimore District.
- 1994k *Archeological Investigations at Sites 310N533, 310N534, and 310N536 Camp Lejeune, Onslow County, North Carolina* (Principal Investigator; Christopher R. Polglase, John J. Mintz, Martha R. Williams, April M. Fehr, S. Justine Woodard, and Kathleen Child). Submitted to Atlantic Division, Naval Facilities Engineering Command.
- 1994l *Phase II Archeological Investigations of Portions of the Sanders/Rawls Section of the "Coston Family Cemetery," Onslow County, North Carolina* (Principal Investigator; Suzanne L. Sanders, John J. Mintz, Martha Williams, Kathleen F. Child, and S. Justine Woodard). Submitted to Atlantic Division, Naval Facilities Engineering Command.

- 1994m *Phase I Archeological Survey of Approximately 300 Acres at the New Kent Leased Property, Fleet Surveillance Support Command, New Kent County, Virginia* (Principal Investigator; Michael B. Hornum and Martha R. Williams). Submitted to Atlantic Division, Naval Facilities Engineering Command.
- 1994n *Phase I Archeological Survey of 860 Acres at Naval Station Roosevelt Roads, Ceiba, Puerto Rico* (Principal Investigator; Suzanne L. Sanders, Jose R. Oliver, Eliza Edwards, John A. Calabrese, and Donald J. Maher). Submitted to Atlantic Division, Naval Facilities Engineering Command.
- 1994o *Phase I Archeological Survey of Approximately 2,000 Acres at Naval Air Station Oceana, Virginia Beach, Virginia, and Naval Auxiliary Landing Field Fentress, Chesapeake City, Virginia* (Principal Investigator; Michael B. Hornum, W. Patrick Giglio, and William T. Dod). Submitted to Atlantic Division, Naval Facilities Engineering Command.
- 1994p *Phase I Underwater Archeological Investigations, Borrow Area 9, Atlantic Coast Project, Ocean City, Maryland* (Principal Investigator; Jack B. Irion, Patrick Jennings, and Michael Pohuski). Submitted to U.S. Army Corps of Engineers, Baltimore District.
- 1995a *Documentation of Several Historic Vernacular Watercraft on Bayou DuLarge, Terrebonne Parish, Louisiana* (Principal Investigator; David S. Robinson and John L. Seidel). Submitted to New Orleans District, U.S. Army Corps of Engineers.
- 1995b *Phase II Archeological Investigations of Shipwreck Kentucky (Site 16BO358) at Eagle Bend, Pool 5, Red River Waterway, Bossier Parish, Louisiana* (Principal Investigator; John L. Seidel and David S. Robinson). Submitted to the U.S. Army Corps of Engineers, Vicksburg District.
- 1995c *Stage IA Cultural Resources Reconnaissance in Support of a Shallow Draft Navigation Reconnaissance Study of Reynolds Channel and New York State Boat Channel, Nassau and Suffolk Counties, New York* (Principal Investigator; April L. Fehr, Martha R. Williams, and David S. Robinson). Prepared for the U.S. Army Corps of Engineers, New York District.
- 1995d *Archeological Investigations of the Proposed C&D Canal, Maryland and Delaware* (Principal Investigator; Jack B. Irion, Geoffrey Melhuish, Antonio Segovia, and David V. Beard). Prepared for the Maryland Port Administration.
- 1995e *Phase I Archeological Investigations for the Proposed Denitration/Acid Mix Facility Indian Head Division, Naval Surface Warfare Center, Maryland* (Principal Investigator; Thomas W. Davis and Eliza H. Edwards). Submitted to ECG, Inc.
- 1995f *National Historic Context for Department of Defense Installations, 1790 - 1940* (Principal Investigator; Deborah K. Cannan, Leo Hirrel, Katherine E. Grandine, Kathryn M. Kuranda, Bethany M. Usher, Hugh B. McAloon, and Martha R. Williams). Prepared for the U.S. Army Corps of Engineers, Baltimore District.
- 1995g *Archeological Investigations at the Maggie L. Walker National Historic Site, Richmond, Virginia* (Principal Investigator; Suzanne L. Sanders and Martha R. Williams). Prepared for the National Park Service, Mid-Atlantic Region.
- 1996a *Phase I Terrestrial and Marine Archeological Surveys for the Poplar Island Reclamation Project and Phase II Investigations of Site 18T237 and Six Marine Anomalies, Talbot County, Maryland* (Principal Investigator; April Fehr, David S. Robinson, Martha Williams, John L. Seidel, Jack Irion, and Donald Maher). Prepared for GBA-M&N, A Joint Venture.

- 1996b *Phase I Archeological Investigations of the Maryland-National Capital Park and Planning Commission Recreation Complex Site, Prince George's County, Maryland* (Principal Investigator; Martha R. Williams). Prepared for Redskins Stadium, Inc.
- 1996c *U.S. Army Consultation Guidelines for Army and Native American, Native Alaskan, and Native Hawaiian Consultation* (Principal Investigator; Donald G. Jones and Ellen Saint Onge). Prepared for the Department of the Army, St. Louis District, Corps of Engineers.
- 1996d *Historic and Archeological Resources Protection Plan for NAVSTA Roosevelt Roads, Cieba, Puerto Rico* (Principal Investigator; Suzanne L. Sanders, Martha R. Williams, and Julian Granberry). Prepared for the Atlantic Division, Naval Facilities Engineering Command.
- 1996e *Archeological and Architectural Survey of NSGA Sabana Seca, Sabana Seca, Puerto Rico* (Principal Investigator; Suzanne L. Sanders, Brooke V. Best, Ellen Saint Onge, and Michael A. Simons). Prepared for the Atlantic Division, Naval Facilities Engineering Command.
- 1996f *Phase I Archeological Investigations and Architectural Evaluations for the Proposed Redskins Stadium, Landover, Maryland* (Principal Investigator; Kathryn J. Saul, Martha R. Williams, and Eliza E. Burden). Prepared for Redskins Stadium, Inc.
- 1996g *Cultural Resources Program Guidebook Northern Border Project Docket No. CP95-194-001* Prepared for Northern Border Pipeline Company.
- 1996h *Phase I Archeological and Architectural Survey for the Village of Piscataway Development* (Principal Investigator; Thomas W. Davis, Deborah C. Whelan, Katherine E. Grandine, and Connie A. Capozzola). Prepared for Cascades Associates LP.
- 1996i *Supplemental Phase I Archeological Investigation for the Villages at Piscataway, Prince George's County, Maryland* (Principal Investigator; Thomas W. Davis, Nora B. Sheehan, and Steven A. Mallory). Prepared for Greenvest, L.C.
- 1996j *Phase III Data Recovery at Site 8LI76 for the Proposed Florida Gas Transmission Phase III Expansion Project, Liberty County, Florida* (Principal Investigator with William P. Athens; Jeffrey H. Maymon, Thomas F. Majorov, Frank Vento, Michelle Williams, Arleen Fradkin, Clifford T. Brown, Kathleen Child, and John C. Clarke). Prepared for Florida Gas Transmission Company.
- 1996k *Phase II Archeological Evaluation of Sites 8LF007, 8SU291, and 8SU104 for the Proposed Florida Gas Transmission Phase III Expansion Project, Lafayette and Suwanne Counties, Florida* (Principal Investigator; Thomas W. Davis, Jeffrey H. Maymon, Lance B. Trask, Donald J. Maher, J. Hampton Tucker, Amy K. Fanz, and John G. Clarke). Prepared for Florida Gas Transmission Company.
- 1996l *Phase II Archeological Evaluation of Thirteen Sites for the Proposed Florida Gas Transmission Phase III Expansion Project, Jefferson and Madison Counties, Florida* (Principal Investigator; Thomas W. Davis, Jeffrey H. Maymon, Michael P. Hornum, Lance B. Trask, John Calabrese, Thomas F. Majorov, Timothy A. Silva, Amy K. Fanz, Connie Capozzola, John G. Clarke, Clifford A. Brown, Donald J. Maher, Meril Dunn, Ellen Saint Onge, J. Hampton Tucker, and S. Justine Woodard). Prepared for Florida Gas Transmission Company.
- 1996m *Phase II Archeological Evaluation of Sites 8LE2095 and 8LE2105 for the Proposed Florida Gas Transmission Phase III Expansion Project, Leon County, Florida* (Principal Investigator; Jeffrey

- H. Maymon, Thomas W. Davis, Michael B. Hornum, and Donald J. Maher). Prepared for Florida Gas Transmission Company.
- 1996n *Phase I Archeological Investigations at the Proposed Vanderback Subdivision, Adams County, Pennsylvania* (Principal Investigator; Suzanne L. Sanders and Leo Hirrel). Prepared for Group Insurance Services.
- 1996o *Phase I Remote Sensing Marine Archeological Survey of the Proposed Dredge Site at Sandbridge Shoal, Virginia Beach, Virginia* (Principal Investigator; David S. Robinson and Martha R. Williams). Prepared for the Atlantic Division, Naval Facilities Engineering Command.
- 1997a *Archeological Resources Overview, Norfolk Naval Shipyard, Portsmouth, Virginia* (Principal Investigator; Martha R. Williams). Prepared for the Atlantic Division, Naval Facilities Engineering Command.
- 1997b *Archeological Survey of Portions of NAVSTA Roosevelt Roads, Puerto Rico (Year 2)* (Principal Investigator; Suzanne L. Sanders, Antonio Curet, John Clark, and Donald Maher). Prepared for the Atlantic Division, Naval Facilities Engineering Command.
- 1997c *Phase I Remote Sensing Marine Archeological Survey of the Proposed Dredge Site at Naval Amphibious Base Little Creek, Virginia Beach, Virginia* (Principal Investigator; David S. Robinson, Martha R. Williams, and Adam I. Kane). Prepared for Atlantic Division, Naval Facilities Engineering Command.
- 1997d *Cultural Resources Stabilization Study of Site 12VPR2-66, and Field Verification of Survey Results for 200 Acres on Vieques Island, NAVSTA Roosevelt Roads, Vieques, Puerto Rico* (Principal Investigator; Suzanne L. Sanders, Mike A. Simons, and Connie A. Capozzola). Prepared for the Atlantic Division, Naval Facilities Engineering Command.
- 1997e *Intensive Archeological Resource Surveys of Portions of NRTF Isabela, NRTF Aguada, and NRRF Salinas, Puerto Rico* (Principal Investigator; Suzanne L. Sanders, Michael A. Simons, and Connie A. Capozzola). Prepared for the Atlantic Division, Naval Facilities Engineering Command.
- 1997f *Intensive Archeological and Architectural Investigations of Portions of Ice House Square, Gettysburg, Adams County, Pennsylvania* (Principal Investigator; Suzanne L. Sanders, Michelle T. Moran, Hugh B. McAloon, and Deborah Cannan). Submitted to Gettysburg College.
- 1997g *Further Real Estate Acquisitions in the Atchafalaya Basin: Land Use Studies in St. Martin, St. Mary, Iberia, and Iberville Parishes, Louisiana* (Principal Investigator; Ralph Draughon, Jr., Susan Barrett Smith, Jeremy Horowitz, Michael Godzinski, Denise Matherne, and Christopher Matthews). Submitted to U.S. Army Corps of Engineers, New Orleans District.
- 1997h *Archeological and Architectural Investigations at NAVSTA Roosevelt Roads (Year 3), Ceiba, Puerto Rico* (Principal Investigator; Suzanne Sanders, Geoffrey Melhuish, W. Patrick Giglio, and Ellen Saint Onge). Prepared for Atlantic Division, Naval Facilities Engineering Command.
- 1997i *Archival/Cultural Resource Assessment Survey and Testing at J. Percy Priest Lake, Rutherford County, Tennessee* (Principal Investigator; Scott E. Simmons, Ralph B. Draughon, Jr., Jeremy P. Pincoske, Thomas R. Fenn, James Allen Green, and David D. Davis). Prepared for U.S. Army Corps of Engineers, Nashville District.

- 1997j *Phase III Data Recovery Excavations at Grand Bayou Reservoir, Sites 16RR64 and 16RR292, Red River Parish, Louisiana* (Principal Investigator; Christopher Davies, Clifford Brown, Thomas Fenn, Michele Williams, James Allen Green, Jr., and David D. Davis). Prepared for Louisiana Department of Transportation Development.
- 1997k *Cultural Resources Survey of Bayou Dularge Disposal Areas, Terrebonne Parish, Louisiana* (Principal Investigator; Glenn Walter, Cinder Miller, Jeremy Pincoske, Roger Saucier, Susan Barrett Smith, and David D. Davis). Prepared for U.S. Army Corps of Engineers, New Orleans District.
- 1997l *Archeological Survey of Approximately 125 Acres within the Vieques Naval Reservation, Vieques Island, Puerto Rico; and 18 Acres at Fort Allen, Juana Diaz, Puerto Rico* (Principal Investigator; Michael A. Simons and Ellen St. Onge). Prepared for the Atlantic Division, Naval Facilities Engineering Command.
- 1997m *Phase I Archeological and Phase II Architectural Investigations for the Villages at Piscataway, Prince George's County, Maryland* (Principal Investigator; Thomas W. Davis, Deborah C. Whelan, Katherine E. Grandine, Connie A. Capozzola, Nora B. Sheehan, and Steven A. Mallory). Prepared for Greenvest, L.C.
- 1997n *Cultural Resources Overview of the Proposed North Atlantic Pipeline Project, Gulf of Maine to Rockingham Co., New Hampshire* (Principal Investigator; Dave D. Davis, Nathan Hamilton, John Seidel, and Martha R. Williams). Prepared for North Atlantic Pipeline Partners, L.P.
- 1997o *Phase I Cultural Resource Survey of Agricultural Lease Areas in the Vicinity of Vieques Airport, Vieques Naval Reservation Naval Station Roosevelt Roads, Vieques, Puerto Rico* (Principal Investigator; Michael A. Simons). Prepared for Atlantic Division, Naval Facilities Engineering Command.
- 1997p *Archeological Survey and Evaluation of Various Sites, NSGA Sabana Seca, Puerto Rico -Volume I* (Principal Investigator; Suzanne Sanders, Michael A. Simons, and John Clarke). Prepared for Atlantic Division, Naval Facilities Engineering Command.
- 1998a *Archeological Survey and Evaluation of Sites at NSGA Sabana Seca, Sabana Seca, Puerto Rico (Volume 3)*. (Co-Principal Investigator with Suzanne Sanders; Ellen Saint Onge, R. Christopher Goodwin). Prepared for Atlantic Division, Naval Facilities Engineering Command.
- 1998b *Ethnohistoric and Ethnographic Information Related to the Fort Carson Military Reservation and Pinon Canyon Maneuver Site in Colorado* (Principal Investigator; Donald G. Jones, Martha Williams, Kathy Stemmler, Michael McGrath, and Elizabeth Winstead). Prepared for Department of the Army Corps of Engineers, St. Louis District.
- 1998c *Archeological Mitigation of the J.S. Berry Brick Mill (18BC88) and Pawley Stoneware Kiln (18BC89), Baltimore, Maryland* (Principal Investigator; Suzanne L. Sanders and Martha R. Williams). Prepared for the Maryland Stadium Authority.
- 1998d *Marine Remote Sensing Survey of the Atchafalaya Dredged Material Disposal Site, Louisiana* (Principal Investigator; John L. Seidel, David S. Robinson, and Adam Kane). Submitted to U.S. Army Corps of Engineers, New Orleans District.

- 1998e *Archeological Investigations at NAVSTA Roosevelt Roads (Year 3), Ceiba, Puerto Rico* (Principal Investigator; Suzanne Sanders and Ellen Saint Onge). Submitted to Atlantic Division, Naval Facilities Engineering Command.
- 1998f *Interim Report on Archeological Survey of the Proposed Independence Pipeline Corridor, Through Defiance, Henry, Wood, Seneca, Huron, Ashland, Wayne, Summit, Stark, and Columbiana Counties, Ohio (Independence Pipeline Cultural Resource Report No. 3)* (Director of Research, with Jeff Maymon, Colby Child, Sonja Ingram, Brian Stokes, Patrick O'Neill, Kristen Bastis, Brian Stone, Martha Williams, John P. Zielinski, Greg Katz, Thomas W. Davis, and Kathryn J. McGrath; with contributions by Frank Vento). Submitted to the ANR Pipeline Company.
- 1998g *Supplementary Report on Archeological Survey of the Proposed Independence Pipeline Corridor, Through Defiance, Henry, Wood, Seneca, Huron, Ashland, Wayne, Summit, Stark, and Columbiana Counties, Ohio (Independence Pipeline Cultural Resource Report No. 5)* (Director of Research with Jeff Maymon, John P. Zielinski, Patrick O'Neill, Thomas Majarov, Greg Katz, and Brian Stone; with contributions by Frank Vento). Submitted to the ANR Pipeline Company.
- 1998h *Interim Report on Archeological Evaluation of 10 Sites for the Proposed Independence Pipeline Corridor, in Henry, Wood, Ashland, Summit, and Columbiana Counties, Ohio, Independence Pipeline Cultural Resource Report No. 7* (Director of Research, with Christopher R. Polglase, Jeff Maymon with Thomas W. Davis, John Zielinski, Kathleen Child, Thomas Majarov, William Lothert, Kathryn McGrath, and Kristen Bastis). Submitted to the ANR Pipeline Company.
- 1999a *Archeological Survey for the Proposed Shortfield Runway at Ravenna Army Ammunition Plant, Portage County, Ohio* (Director of Research, with Christopher R. Polglase, Jeffrey Maymon, John Zielinski and Brian Clevon). Submitted to Science and Engineering Associates, Inc.
- 1999b *Cultural Resource Survey of the Proposed Defiance Compressor Station Expansion for the Proposed Independence Pipeline, Defiance County, Ohio, Independence Pipeline Cultural Resource Report No. 10* (Director of Research, with Christopher R. Polglase, Jeffrey Maymon, John Zielinski, Patrick Giglio, and Colby Child). Submitted to the ANR Pipeline Company.
- 1999c *Phase I Marine Archeological Remote Sensing Survey of the Calcasieu River Saltwater Barrier Repair Project* (Principal Investigator; Jean B. Pelletier, David Trubey, William Barr, Susan Barrett Smith, Jeremy Pincoske, and Patrick Robblee). Submitted to U.S. Army Corps of Engineers, New Orleans District.
- 1999dP *Phase I Remote Sensing Archeological Survey for the Medora Crossing Soft Dike Construction Project, Mississippi River, Louisiana* (Principal Investigator; Jean B. Pelletier, David Trubey, William Barr, Ralph Draughon, Charlene Keck, William Hayden, Roger Saucier, and Martha Williams). Submitted to U.S. Army Corps of Engineers, New Orleans District.
- 1999e *ANR Pipeline Company Cultural Resources Survey and Inventory Results Proposed 36-Inch Gas Pipeline, Mobile Bay to Florida Three League Line* (Principal Investigator; with Jean B. Pelletier, David Trubey, John Czarasty, and Richard Vidutis). Submitted to ENSR.
- 1999f *Phase I Marine Archeological Remote Sensing Survey of Segments Along the Southwest Pass of the Mississippi River, Plaquemines Parish, Louisiana* (Principal Investigator; with Jean Pelletier, David Trubey, Roger Saucier, Ralph Draughon, and Martha Williams). Submitted to New Orleans District, U.S. Army Corps of Engineers.

- 1999g *Cultural Resource Survey of The Proposed East Defiance Compressor Station Expansion, Defiance County, Ohio (Independence Pipeline Cultural Resource Report No. 8)*, Director of Research; with Christopher Polglase, Jeffrey Maymon, John Zielinski, W. Patrick Giglio, and Colby Child). Submitted to ANR Pipeline Company.
- 1999h *Second Supplemental Report on Archeological Survey of the Proposed Independence Pipeline Corridor through Defiance, Henry, Wood, Seneca, Huron, Ashland, Wayne, Stark, Summit, and Columbiana Counties, Ohio (Independence Pipeline Cultural Resource Report No. 11)* (Director of Research; with Christopher Polglase, Jeffrey Maymon, John Zielinski). Submitted to ANR Pipeline Company.
- 2000a *Phase I Underwater Cultural Resource Remote Sensing Survey, Hathaway Bridge Replacement Project. SR30 (US 98) FPN4062141-31-01, Bay County, Florida* (Principal Investigator; with Jean B. Pelletier, Larkin A. Post, Sarah A. Milstead, and Richard Vidutis). Submitted to Florida Department of Transportation.
- 2000bA *Analysis of Regulations for Compliance with Section 106 of the National Historic Preservation Act of 1966, As Amended*. Prepared for The INGAA Foundation, Inc.
- 2000c *Underwater Cultural Resources Investigations for Red River Waterway, Mississippi to Shreveport, Poisson and Cognac Additional Control Structures, Natchitoches and Grant Parishes, Louisiana* (Principal Investigator; with Jean B. Pelletier, David W. Trubey, Larkin A. Post, Sarah A. Milstead, Richard Vidutis, and Roger Saucier). Submitted to U.S. Corps of Engineers, Vicksburg District.
- 2000dP *Phase I Marine Archeological Remote Sensing Survey of Barataria Pass, Ocean Dredge Material Disposal Site, Louisiana* (Principal Investigator; with Jean B. Pelletier, Sarah Milstead, Larkin A. Post, Carrie Sowden, Richard Vidutis, and Douglas Jones). Submitted to U.S. Corps of Engineers, New Orleans District.
- 2000e *Phase I Cultural Resources Survey for P.R. 208 Aguas Buenas Bypass from P.R. 156 to P.R. 173-South of Town, Aguas Buenas* (Principal Investigator; with Michael A. Simons and W. Patrick Giglio). Submitted to GF Caribe Engineers, P.S.C.
- 2000f *A Cultural Resources Remote Sensing Survey of Items 3B-2 and 4 of the Upper Yazoo River Projects, Leflore County, Mississippi* (Principal Investigator; with Adam I Kane, Jean B. Pelletier, Martha Williams, David S. Robinson, John L. Seidel, and Roger Saucier). Prepared for the Vicksburg District, U.S. Army Corps of Engineers.
- 2000g *Phase II and Phase III Archeological Investigations of the Shipwreck Kentucky (Site 18BO358) at Eagle Bend, Pool 5, Red River Waterway, Bossier Parish, Louisiana* (Co-Principal Investigator with John L. Seidel; with David S. Robinson, Adam I Kane, and Martha R. Williams). Prepared for the Vicksburg District, U.S. Army Corps of Engineers.
- 2000hI *Integrated Cultural Resource Management Plan – Archeology for Naval Station Roosevelt Roads including Vieques Naval Reservation* (Co-Principal Investigator with Suzanne Sanders); by Suzanne Sanders. Prepared for Atlantic Division, Naval Facilities Engineering Command.
- 2000i *Archeological Survey and Evaluation of Selected Sites at NSGA Sabana Seca, Sabana Seca, Puerto Rico (Volume 5)* (Co-Principal Investigator; by Suzanne Sanders and Ellen Saint Onge). Prepared for Atlantic Division, Naval Facilities Engineering Command.

- 2000l *Phase I Remote Sensing Marine Archeological Survey of the Proposed West Bay Diversion, Anchorage Area, Louisiana* (Principal Investigator; with Jean B. Pelletier, Sarah A. Milstead, Carrie E. Sowden, Larkin A. Post, and Richard Vidutis). Prepared for New Orleans District, US Army Corps of Engineers.
- 2000m *Phase I Remote Sensing Marine Archeological Survey on North Prong in Schooner Bayou, Louisiana* (Principal Investigator; by Jean B. Pelletier, Sarah A. Milstead, Larkin A. Post, Cathy Labadia, Colleen Hanratty, and Carrie Sowden). Prepared for New Orleans District, US Army Corps of Engineers.
- 2000nP *Phase I Remote Sensing Marine Archeological Survey of Southwest Pass, Ocean Dredge Material Disposal Site, Louisiana* (Principal Investigator; by Christopher R. Polglase, Jean B. Pelletier, Richard Vidutis, Larkin A. Post, Sarah A. Milstead, Roger Saucier, and Douglas Jones). Prepared for New Orleans District, US Army Corps of Engineers.
- 2000oS *Submerged Cultural Resources Evaluation of Fifteen Geomorphic Anomalies, Florida and Federal Waters, Within the Gulfstream Natural Gas Pipeline Corridor* (Principal Investigator; with Frank Vento, Sarah A. Milstead Post, Jean B. Pelletier, Michael Faught, and Larkin A. Post. Submitted to ENSR.
- 2001a *Archeological Survey and Evaluation of Selected Sites at NSGA Sabana Seca, Sabana Seca, Puerto Rico (Volume 5)* (Principal Investigator with Suzanne Sanders) with Suzanne Sanders, Ellen Saint Onge, Dave D. Davis, and Christian Davenport). Prepared for Atlantic Division, Naval Facilities Engineering Command.
- 2001bS *Submerged Cultural Resources Survey of the Vermilion River Between State Route 353 to the Milton Bridge, Lafayette and Vermilion Parishes, Louisiana* (Principal Investigator; with Jean B. Pelletier, Susan Barrett Smith, and Jeremy P. Pincoske). Prepared for the New Orleans District, US Army Corps of Engineers.
- 2001c *Integrated Cultural Resource Management Plan - Archeology for Naval Security Group Activity Sabana Seca* (Co-Principal Investigator with Suzanne Sanders) with Ellen Saint Onge, Jennifer Tobey and Antonio Curet). Prepared for the Atlantic Division, Naval Facilities Engineering Command.
- 2001dR *Report on Archeological Survey of the Planned Botany Bay Estate Development Access Road Alignments, St. Thomas, USVI: Testing Pursuant to Minor CZM Land Development Permit No. CZT-70-01L An Addendum to "Final Report on Reconnaissance and Selected Phase I Archeological Investigation at Botany Bay, St. Thomas, USVI." (Righter 2001)* (Principal Investigator with Suzanne L. Sanders; by Suzanne L. Sanders and Jennifer Brown). Prepared for Botany Bay Limited Partnership, L.L.P. c/o William Karr & Associates, Inc.
- 2001e *Patterns & Transformations in the Prehistory and History of Vieques--R. Christopher Goodwin, Ph.D. and Dave D. Davis, Ph.D. General Editors--Technical Series: Archeological Survey and Evaluation of the Vieques Naval Reservation, Municipality of Vieques, Puerto Rico--Volume I: Archeological Survey and inventory of the VNR* (Principal Investigator; with Suzanne L. Sanders, Michael A. Simons, Dave D. Davis, and Frank Ventro). Prepared for Atlantic Division.
- 2001f *Phase I Cultural Resources Survey of Navy Property Culebra, Puerto Rico (Contract N62470-92-D-8965, Delivery Order 0062; Modification No. 6)* (Principal Investigator; by Michael A. Simons). Prepared for Atlantic Division, Naval Facilities Engineering Command.

- 2001g *Supplemental Report on Archeological Evaluation for the Proposed Independence Pipeline Corridor in Henry, Ashland, Stark, and Columbiana Counties, Ohio (Independence Pipeline Cultural Resource Report No. 14)* (Director of Research; with Christopher R. Polglase, Jeffrey Maymon, Colby A. Child, William H. Lowthert IV, David J. Soldo, John Zielinski, Thomas W. Davis, Kristen Bastis, Brian Stone, and Meril Dunn). Prepared for El Paso Corporation.
- 2001h *Fourth Supplemental Report on Archeological Survey of the Proposed Independence Pipeline Corridor Through Defiance, Henry, Wood, Seneca, Huron, Ashland, Wayne, Stark, Summit, and Columbiana Counties, Ohio (Independence Pipeline Cultural Resource Report No. 18)* (Principal Investigator with Christopher R. Polglase; by Kathleen M. Child, Jason Kranch, Christina Cushion, Brandi Carrier, William H. Lowthert IV, Brian Stone, Colby Child, Brian Clevon, Brad Burkholder, Jennifer Evans, Matthew Gill, Sean Alexander, Jesse Kulp, Meril Dunn, and Thomas W. Davis). Prepared for El Paso Corporation
- 2001i *Third Supplemental Report on Archeological Survey of the Proposed Independence Pipeline Corridor Through Defiance, Henry, Wood, Seneca, Huron, Ashland, Wayne, Stark, Summit, and Columbiana Counties, Ohio (Independence Pipeline Cultural Resource Report No. 16)* (Principal Investigator with Christopher R. Polglase; by Colby A. Child, Jr., Kristen Basten, William Lowthert, IV, Peter Godwin, Joshua Roth, Jesse Kulp, Matthew Thaler, Joshua Weller, Christopher Schaney, Mitzy Schramke, Jason Kranch, and Matthew Gill). Prepared for El Paso Corporation.
- 2002a *Archeological Survey and Inventory of Selected Portions of Estate Botany Bay, and Evaluatory Testing of the Plantation Site, St. Thomas, United States Virgin Islands* (Principal Investigator with Suzanne L. Sanders; by Suzanne L. Sanders and Jennifer A. Brown). Prepared for William Karr & Associates, Inc.
- 2002bA *Archeological Survey of the Proposed Regasification Facility, South Riding Point, Grand Bahama Island, The Bahamas* (Principal Investigator with Suzanne L. Sanders; with Suzanne L. Sanders and Jennifer Brown). Prepared for CH2M Hill / El Paso Global LNG Company LTD.
- 2002c *Archeological, Historical, and Architectural Reconnaissance Study of Crab Cay, Exuma Sound, The Bahamas* (Principal Investigator with Suzanne L. Sanders; with Suzanne L. Sanders, Kathryn M. Kuranda, and Jennifer A. Brown). Prepared for Islands By Design Ltd.
- 2002dA *Archeological Reconnaissance Study of the Proposed Enighed Estates Development, Cruz Bay Quarter, St. John, U.S.V.I. – Letter Report* (Principal Investigator with Suzanne L. Sanders; by Suzanne L. Sanders and Jennifer A. Brown). Prepared for William Karr and Associates.
- 2002e *Archeological Reconnaissance Study of the Proposed Hoffman Estates Development, Nullyburg, St. Thomas, U.S.V.I. – Letter Report* (Principal Investigator with Suzanne L. Sanders; by Suzanne L. Sanders and Jennifer A. Brown). Prepared for William Karr and Associates.
- 2003a *Cultural Resources Survey and Inventory of the Seafarer U.S. Pipeline System, Inc.'s Proposed 26-inch Gas Pipeline, Florida State Waters Boundary to the Florida Mainland* (Principal Investigator; with Samuel Turner, Jean B. Pelletier, K. Harley Meier, Frank Vento, and David Duncan). Prepared for Seafarer U.S. Pipeline System, Inc.
- 2003bP *Phase IB Submerged Cultural Resources Investigations of Nineteen Anomalies for the Proposed BP Mardi Gras Transportation System Inc., Endymion Oil Pipeline, Jefferson and Lafourche Parishes, Louisiana* (Principal Investigator; with K. Harley Meier and Jean B. Pelletier). Prepared for T. Baker Smith & Son, Inc.

- 2003c *Cultural Resources Survey and Inventory of the Seafarer Pipeline System, Inc.'s Proposed 26-inch Gas Pipeline from Grand Bahama Island to the Limits of the Bahamian Exclusive Economic Zone* (Principal Investigator; with Samuel Turner, Jean B. Pelletier, and David Duncan). Prepared for CH2M Hill/El Paso Global LNG Company LTD.
- 2003dCu *Cultural Resources Survey and Inventory of the Seafarer U.S. Pipeline System, Inc.'s Proposed 26-inch Gas Pipeline from the Limits of the Exclusive Economic Zone to Florida State Waters* (Principal Investigator; with Samuel Turner, K. Harley Meier, David Duncan, and Jean B. Pelletier). Prepared for Seafarer U.S. Pipeline System, Inc.
- 2003e *Archeological and Historical Reconnaissance Study of 870 Acres, Rum Cay, The Bahamas* (Principal Investigator with Suzanne L. Sanders; with Jennifer A. Brown). Prepared for Islands by Design, Ltd.
- 2003f *Archeological Survey of the Proposed Boat Ramp, Vieques Airport, Vieques Island, Puerto Rico* (Principal Investigator; with Jennifer A. Brown and Suzanne L. Sanders). Prepared for Ecology and Environment, Inc.
- 2003g *Patterns & Transformations in the Prehistory and History of Vieques; Volume II: Archeological Evaluation of Historic Period Sites* (Principal Investigator; with Suzanne L. Sanders, Jennifer A. Brown, Dave D. Davis, and Frank Vento). Prepared for the Atlantic Division, Naval Facilities Engineering Command.
- 2003h *Results of the Phase III Data Recovery Investigations at Site 8CI795, Etna Turpentine Camp, in the Florida Gas Transmission Company (FGT) Phase V, Loop G, Expansion Project Corridor, Citrus County, Florida* (Principal Investigator; with Ann B. Markell, Katy Coyle, Peter L. Godwin, J. Andrew Ross, and Katherine J. Gallagher). Prepared for Florida Gas Transmission Company.
- 2003i *Archeological Survey and Evaluation of Sites at NSWC Sabana Seca, Sabana Seca, Puerto Rico, Volume IV, Evaluation of Prehistoric Site Rio Cocal 1* (Principal Investigator with Jose Oliver, Dave D. Davis, Jennifer Brown, Suzanne Sanders, and Michael A. Simons). Prepared for the Atlantic Division, Naval Facilities Engineering Command.
- 2004a *Cultural Resources Investigation of the Onshore and Offshore Portions of the Shell Bahamas Facilities Upgrade Project Area, Clifton Pier, New Providence Bahamas* (Principal Investigator; with Jean B. Pelletier, Samuel P. Turner, R. Christopher Goodwin, and Jason Coffey). Prepared for Islands by Design.
- 2004b *Cultural Resources Investigations for the Environmental Setting at Salubria (Site 18PR692), 6900 Oxon Hill Road, Oxon Hill, Prince George's County, Maryland* (Principal Investigator; with April L. Fehr, Joshua S. Roth, Kristopher West, and Ann B. Markell). Prepared for The Peterson Companies.
- 2004c *Cultural Resources Survey and Inventory Results of the Compass Port Pipeline Proposed 36-inch Gas Pipeline Route, Alabama Waters* (Principal Investigator; with Samuel P. Turner). Prepared for ENSR International.
- 2004d *Marine Archeological Remote Sensing Survey in the La Quinta Shipping Channel, VCM Dock Facility Expansion Area, Sam Patricio County, Texas* (Principal Investigator with Jean B. Pelletier; with Anthony Randolph, Gregg Brooks, and Samuel P. Turner). Prepared for ENSR Corporation.

- 2004e *Archival Background Research and Archeological Monitoring Investigations of Granite Curb Setting and Sidewalk Replacement around Church Circle, City of Annapolis, Maryland* (Co-Principal Investigator with Christopher R. Polglase.; by William Lowthert IV, Martha Williams, and Christian Davenport). Prepared for the City of Annapolis.
- 2004f *Phase I Archeological Survey of 150 acres of the Hardwood Air to Ground Weapons Range, Juneau County, Wisconsin* (Principal Investigator with Christopher R. Polglase; with Daniel Grose, Daniel Kellogg, Lori Ricard, and Katherine Grandine). Prepared for the Air National Guard.
- 2005a *Phase I Archeological Remote Sensing Survey of the Proposed Southern Natural Gas (SNG) Elba Island Turning Basin in the Savannah River, Chatham County Georgia, and including portions of the South Carolina Bankline in Jasper County, South Carolina* (Principal Investigator with Christopher R. Polglase; by Jean B. Pelletier, Samuel P. Turner, Martha R. Williams, and Frank Vento). Prepared for Southern Natural Gas.
- 2005b *Cultural Resources Evaluation for Volk Field Combat Readiness Training Center and Hardwood Air-to-Ground Weapons Range, Wisconsin* (Principal Investigator; with Ellen Saint Onge and Katherine Grandine)
- 2006a *Cultural Resources Investigations for the Proposed New Design Raw Water Intake/McKinney Effluent Outfall Project, Including Archeological Excavations within the Noland's Ferry Site (18FR0017) and the C & O Canal National Historical Park, Frederick County, Maryland* (Principal Investigator with Colby A. Child; with Chris Heidenrich and Jason Coffey). Prepared for Whitman, Requardt and Associates.
- 2006bR *Remote Sensing Survey of the Proposed Pass Chalard to Grand Bayou Pass Barrier Shoreline Restoration Project, Plaquemines Parish, LA* (Principal Investigator; by Anthony G. Randolph, Jr., Lori Ricard, Katy Coyle, and Jean B. Pelletier). Prepared for EA Engineering Science and Technology, Inc.
- 2006c *Phase I Archeological Survey and Architectural Reconnaissance for the Proposed TIME II Project, Pickaway and Monroe Counties, Ohio* (Director of Research; with Michael B. Hornum, Chris Heidenrich, Josh Roth, Daniel P. Wagner, and Brian Cleven). Prepared for CH2M Hill.
- 2006d *Remote Sensing Survey Data Analysis of the Proposed G.E. Silicone's, River Oil Sheen Elimination (ROSE) Water Treatment Facility Outfall on the Hudson River, Waterford, New York* (Principal Investigator; by Anthony G. Randolph, Jr., Martha R. Williams, Jeffrey H. Maymon, and Jean B. Pelletier). Prepared for Blasland, Bouck & Lee, Inc.
- 2006e *Phase I Remote Sensing Cultural Resources Investigations and National Register Evaluation, Mississippi River, Baton Rouge to the Gulf, LA, Project Southwest Pass, Lateral Dikes Repair/Replacement, Plaquemines Parish, Louisiana* (Principal Investigator; with Anthony G. Randolph, Jean B. Pelletier, Troy J. Nowak, Brian Cleven, Susan B. Smith, and Rodger Saucier). Prepared for the U.S. Army Corps of Engineers, New Orleans District.
- 2006f *Phase I Submerged Cultural Resource Investigation Atchafalaya River Bar Channel Fluff/Fluid Mud Pilot Plan, St. Mary's Parish, LA* (Principal Investigator; by Anthony G. Randolph, Jean B. Pelletier, Samuel P. Turner, Gregg Brooks, and Troy Nowak). Prepared for the U.S. Army Corps of Engineers, New Orleans District.

- 2006g *Phase I Marine Archeological Remote Sensing Survey for the Primary and Alternate Safe Harbor Energy Offshore LNG Facility Sites in MMS Lease Block 6655* (Principal Investigator; with Troy J. Nowak, Jean B. Pelletier, and Martha R. Williams). Prepared for ENSR Corporation.
- 2006h *Phase I Marine Archeological Remote Sensing Survey of the Proposed Rukert Terminals Corporation Dock Facility Dredging and Upgrade Project Area, Baltimore County, Maryland* (Principal Investigator; with Jean B. Pelletier, Troy J. Nowak, and Martha R. Williams). Prepared for Moffatt & Nichol.
- 2006i *Technical Addendum to: Phase I Cultural Resources Survey and Archeological Inventory of the Proposed MoBay Storage Hub, Mobile County, Alabama: Offshore Facilities Ten Well Locations* (Principal Investigator; with K. Harley Meier and Jean B. Pelletier). Prepared for Natural Resources Group.
- 2006j *Phase I Marine Archeological Remote Sensing Survey of the G.E. Silicones Lagoon Upgrade Project – Outfall Location Study Project Area, Waterford, New York* (Principal Investigator; by Jean B. Pelletier, Anthony G. Randolph, Jr., Troy J. Nowak, and Martha R. Williams). Prepared for Blasland, Bouck & Lee, Inc.
- 2006k *Architectural and Archeological Survey of Cultural Resources at the Delaware Air National Guard, New Castle Airport Station, New Castle, Delaware* (Principal Investigator; by Ellen Saint Onge, Dean Doerrfeld, and Rebecca Gatewood). Prepared for ANGR/CEVP.
- 2006l *Phase I Cultural Resources Survey and Archeological Inventory of the Proposed MoBay Storage Hub, Mobile County, Alabama: Offshore Facilities* (Principal Investigator; with K. Harley Meier, Jean B. Pelletier, and Katherine Grandine). Prepared for Natural Resources Group.
- 2006m *Phase I Marine Archeological Remote Sensing Survey of a 600.0 x 300.0 ft (182.9 x 91.4 m) Turning Basin Area for the Sparrows Point LNG Dock and Facility Project Baltimore Harbor, Baltimore County, Maryland* (Principal Investigator; by Jean B. Pelletier, Troy J. Nowak, and Martha R. Williams). Prepared for Haley & Aldrich, Inc.
- 2006n *Phase I Archeological Survey of the Arundell Mannor Property, Anne Arundel County, Maryland* (Principal Investigator; with Joshua Roth, Martha R. Williams, and Dean A. Doerrfeld). Prepared for Lionheart Consulting.
- 2006o *Location Verification and Evaluation of 13 Previously Recorded Magnetic Targets Identified as Potential Cultural Resources within the Endymion Oil Pipeline Company, LLC, Anchor Clearance Area MMS Block GI-18, Pipeline Segment #13534* (Principal Investigator; with J.B. Pelletier and Troy J. Nowak). Prepared for BP Pipelines (North America) Inc.
- 2007a *Archeological Desktop Study: Offshore Portion of Proposed Long Island Offshore Wind Park (LIOWP), Federal Waters Off of Nassau and Suffolk Counties, New York* (Principal Investigator; by Martha R. Williams and Jean B. Pelletier). Prepared for ENSR.
- 2007b *Phase I Archeological Survey of Approximately 6.8 ha (16.9 ac) and Phase II Archeological Evaluation of Site 18QU987 for the Proposed Church Hill Hunt Development, Queen Anne's County, Maryland* (Principal Investigator; by Kathleen M. Child, Christine Heidenrich, and Kathryn Dixon). Prepared for Church Hill Hunt, LLC.

- 2007c *Phase I Marine Remote Sensing Cultural Resources Investigation of the Hopper Dredge Disposal Area, Head of Passes Mississippi River, Plaquemines Parish, Louisiana* (Principal Investigator; with Troy J. Nowak, Jean B. Pelletier, Kirsten Peeler, Brian Cleven, Katy Coyle, and Franklin Price.) Prepared for the New Orleans District, Corps of Engineers.
- 2007d *Atlantic Sea Island Group, LLC Safe Harbor Energy Proposed and Alternative Terminal Sites and Pipeline Routes* (Principal Investigator; by Troy J. Nowak, Jean B. Pelletier, and Martha Williams). Prepared for Tetra Tech Inc.
- 2007e *Technical Addendum to the Final Technical Report Entitled: Cultural Resources Investigations for the Proposed New Design Raw Water Intake/McKinney Effluent Outfall Project, including Archeological Excavations within the Noland's Ferry Site 18FR0017) and the C & O Canal National Historical Park, Frederick County, Maryland* (Principal Investigator; by Nathan S. Workman and Colby A. Child, Jr.). Prepared for Whitman Requardt & Associates, LLP.
- 2007f *Phase I Archeological Survey for the McKinney Wastewater Treatment Plant including 42-in Effluent Discharge Line and other Associated Infrastructure, Frederick County, Maryland* (Principal Investigator; by Kathleen M. Child, M.A.). Prepared for Whitman Requardt & Associates, LLP.

Stephen Parker AIA, LEED AP

Grimm + Parker Architects
Bethesda, Maryland
Calverton, Maryland
McLean, Virginia

Head Office:

2 Bethesda Metro Center #1350
Bethesda, Maryland 20814
E-mail: sparker@gparch.com
Web Site: grimmandparker.com

Education

Bachelor of Architecture, 1972
University of Maryland, College Park, MD

Residence

12110 Glen Mill Road
Potomac, Maryland 20854

Professional Registrations

Architecture:

Maryland, Virginia, District of Columbia, Pennsylvania, Delaware, North Carolina, West Virginia, Texas, New Jersey, Vermont

Business

Grimm + Parker Architects (1972 to Present)

Co-Founder and President

Mr. Parker is President of Grimm + Parker Architects. Through his leadership, the firm has grown in its 35 years to one of the largest in the Washington-Metropolitan Region. Winner of over 140 design awards internationally, nationally and locally, the firm was selected Architectural Firm of the Year for 2007, by the Greater Washington Associated Builders and Contractors. Mr. Parker's award winning work includes major University Buildings, a major Concert Hall, many Libraries and Public and Independent Schools, representing over 1 billion dollars in construction cost.

Visiting Team Experience

National Architectural Accrediting Team:

- University of Oregon, Department of Architecture, 2001
- The Cooper Union, Department of Architecture, 2004
- Norwich University Department of Architecture, 2005
- Columbia University, Department of Architecture, 2006

Professional Membership and Service

National:

NCARB: National Board Director	2006 to present
NCARB: Interior Architecture Task Force Chair	2006 to present
AIA: Committee on Licensing	2006 to present
NCARB: Professional Conduct Committee	2006
NCARB: Task Force on B.I.M. Board Liaison	2006
NCARB: Region 2 Board of Directors	2005 to 2006
NCARB: ARE Subcommittee	1999 to 2003
NCARB: Committee on Education	2003 to 2004
NCARB: Practice Education Committee	2005 to present
NCARB: Region II, Maryland Representative	1999 to present
NAAB Accreditation Team	2000 to present
U.S. Green Building Council - LEED	2003 to present
Recognized Educational Facilities Professional	1998 to present
Member: Society For College and University Planning	2000 to present
Jury Member NCARB Prize	2006

Professional Membership and Service Continued

Maryland:

Chairperson: State Board of Architects	1999 to present	
Chairman: Maryland State Architectural Review Board	1986 to 2002	
Maryland Design Boards Chairs Committee	2003 to present	
Design Professions Overlap Committee Task Force	2004	
Advisory Board University of Maryland, School of Architecture	2000 to present	
Professional Advisory Board: Maryland Institute of Art	1998 to present	
Board Member: Maryland Society of Architects	1990 - 1995	President 1994
Board Member Potomac Valley Chapter AIA	1978 - 1990	President 1989
AIA/CEC/Department of General Services Joint Liason Committee	1986 - 1995	
Board of Directors: Housing Initiative Partnership, Inc.	1998 to present	

Guest Lecturer:

University of Maryland School of Architecture; Department of Art; Maryland Institute of Art; Catholic University School of Architecture; and Maryland Department of Education

Selected Honors and Awards

2003 Kea Metal for Distinguished Leadership, Service and Advocacy to Architectural Profession,
American Institute of Architects, Potomac Valley Chapter
2003 University of Maryland Distinguished Alumni Award

Over 140 Firm Design Awards and Honors including:

- James D. MacConnell Award 1995, Highest International Award for Outstanding Facility Planning and Design
- Shirley Cooper Award 2003, Highest National Award for Outstanding Educational Environment
- Walter Taylor Award 2005, Highest National Award for Outstanding Facility Planning and Design

Numerous National Design Awards from:

- The American Institute of Architects, National, State and Local Chapters
- National School Boards Association
- American Association of School Administrators
- American School Board Journal
- American School and University

Representative Projects

Kent Island High School: 12 awards including	Frostburg Library: 3 awards including
• Maryland Public Building of the Year 1999 - State AIA	• Maryland Governors' Smart Growth Award
• Honor Awards; State and Local AIA	• Honor Awards; Local AIA
East Columbia Library: 6 awards including	Matapeake Elementary School: 4 awards including
• National Grand Award ,	• Walter Taylor Award, AASA & CEFPI, 2005
National Commercial Builders Council	• Maryland Public Project of the Year, State AIA, 2004
• Honor Awards; State and Local AIA	• Honor Awards; Potomac Valley Chapter AIA, 2004
Albert Einstein High School: 4 awards including	Prince George Justice Center: 3 awards including
• National Awards, American School Board Journal	• Excellence from the National Capitol Park & Planning
& National School Boards Association	Commission
• Honor Awards; State and Local AIA	• National Merit: Concrete Institute
Queen Anne's High School: 3 awards including	Strathmore Concert Hall: 6 awards including
• Honor Award; State AIA	William Rawn Associates with Grimm + Parker Architects
• Merit Award; Local AIA	• Honor Award; Maryland State AIA
• Project of Special Distinction; CEFPI	• Honor Award, Boston AIA
	• Award of Excellence; Northern VA Chapter AIA
