Subdivision Plat No. 220101130 - 220101150 have been reviewed by M-NCPPC staff and other applicable agencies as documented on the attached Plat Review Checklist. Staff has determined that the plats comply with Preliminary Plan No. 11995042A (MCPB Resolution No. 08-163) and with Site Plan No. 82007022A (Certified Site Plan dated August 24, 2010), as approved by the Board, and that any minor modifications reflected on the plats do not alter the intent of the Board's previous approval of the aforesaid plans.

Additionally, staff recommends approval of Subdivision Plat No. 220101160 and 220101170 pursuant to the minor subdivision provisions of Section **50-35A(a)(5)**, which states:

Plat of Correction. A plat may be recorded under the minor subdivision procedure to correct inaccurate or incomplete information shown on a previously recorded subdivision plat. The plat may correct drafting or dimensional errors on the drawing; failure to include a required note, dedication, easement or other restriction; incorrect or omitted signatures; and/or other information normally required to be shown on a recorded plat. All owners and trustees or the land affected by the correction must sign the revised plat. In addition, the plat of correction must clearly identify the original plat that is being replaced and contain a note identifying the nature of the correction.

Staff applied the above-noted minor subdivision criteria and concludes that the proposed subdivision plats comply with the criteria of Section 50-35A(a)(5) of the subdivision regulations, and with Final Forest Conservation Plan 820070220 (approved November 24, 2010), and supports these minor subdivision record plats.
