INSPECTION SCHEDULE

Tree-Save Plans and For

Regimen

2. After necessary stress reduction measures have been completed and protection measures have been installed, but before any clearing and grading begin.

3. After completion of all construction activities, but before removal of tree protection fencing, to determine the level of compliance with the provision of the forest conservation.

Additional Requirements for Pioneers with Planting Requirements

5. After the required reforestation and afforestation planting has been completed to verify that the planting is acceptable and prior to the start the maintenance period.

5. At the end of the maintenance period to determine the level of compliance with the provisions of the planting plan, and if appropriate, release of the performance bond.
