PRELIMINARY PLAN #120160290
WSSC MAP 212UN07/ GRID BA-6, C-6
TAX MAP GP 342, GRID GP42

The diagram shows a cross-section of the Earth's crust. At the top, two horizontal lines represent the Tropic of Cancer and the Tropic of Capricorn. Below them, a series of curved lines represent geological strata or faults. A river, labeled 'BATIC RIVER', is shown flowing from left to right. The river's path is determined by the underlying geological features, which are themselves related to the positions of the tropics.
