ATTACHMENT 1

Implementation Rates and Spending Affordability Guidelines (SAG). In the context of the County Council's SAG discussions, implementation rate is a very narrow concept. When the County Council adopts the SAG, it considers the implementation rate for a combination of only two funding sources—General Obligation (GO) bonds plus PAYGO. In other words, it divides the total GO bonds and PAYGO spent by the amount of GO bond and PAYGO expenditures initially programmed for that year. It does not consider how much was spent or programmed in other funding sources, e.g. Park and Planning bonds, Park and Planning current revenue, grants, or contributions. It makes these calculations for the overall CIP and for individual programs as shown below:

Implementation Rates by Program and Year for G.O. Bond +PAYGO Funds (nearest %)

	FY	FY	FY	FY	FY	FY	FY	FY	FY	FY	10 yr.	5 yr.

Source: Memorandum from Glenn Orlin, Deputy Council Staff Director, to the Management and Fiscal Policy (MFP) Committee, January 22, 2004, regarding Spending Affordability Guidelines for the Capital Budget and Other General CIP Assumptions, Table 3, pg. 4.

In the context of the County Council's SAG discussion, the FY03 Parks implementation rate was 97 percent compared to a County average of 94 percent. The average implementation rate in FY03 across all agencies for GO Bond and PAYGO funded projects was 94.15 percent. The average implementation rate across agencies over the past ten years was 90.37 percent and over the past five years, 92.2 percent. Based on these averages, the County Council chose to apply a 92 percent implementation rate—applied to the sum of GO bonds and PAYGO funded spending—over each of the six years in the FY05-10 CIP. The County has not yet calculated the FY04 implementation rate for Parks or the County as a whole.

The County Council uses the implementation rate to determine how much to "overbook" the CIP, knowing that not all funds programmed will actually be spent. The higher the implementation rate, the lower the capacity to "overbook" projects against the SAG limit. This application of "implementation rate" helps the County Council to fully program the debt capacity. It is a tool for financial analysis, not a good measure for evaluating performance.

These implementation rates are useful within the context of the SAG discussions, but we should distinguish them from other measures of the department's implementation.

Project Name:

Design & Construct Rock Creek Trail Pedestrian Bridge

PDF Name:

Rock Creek Trail Pedestrian Bridge

Park Name:

Rock Creek Stream Valley Park

Address:

Project Description:

The Rock Creek Hiker-Biker Trail extends 15 miles from Beach Drive at the District of Columbia line to Lake Needwood in Rock Creek Regional Park. The trail currently crosses Veirs Mill Road at grade at its signalized intersection with Aspen Hill Road. To the north of Veirs Mill Road, the trail is on street for approximately 0.2 miles traversing Aspen Hill Road, Adrian Street, Baltic Avenue, and finally the access drive to Aspen Hill Local Park before continuing northward as a trail.

The proposed pedestrian bridge would provide a grade separated crossing for the Rock Creek Hiker-Biker Trail over Veirs Mill Road and remove the need for the on street section described above. It would also provide the opportunity for local residents of the Aspen Hill community to cross Veirs Mill Road on the bridge to access bus transit or other destinations without crossing at grade at the busy intersection of Veirs Mill Road and Aspen Hill Road.

Project Status

In May 2004, the County Council included this project in the FY 05-10 CIP, contingent upon the award of matching Federal funds from the Transportation Enhancement Act (TEA). On July 20, 2004, the state announced approval of TEA grant funding for the project in the requested amount of \$2.37 million dollars. Construction will must begin by July 2006 and be completed in November 2007 to satisfy the requirements of the MOU with the State. On August 25, 2004, a proposal was submitted for riding a County contract for engineering services. On August 27, 2004, a meeting was held with the state on procedures for federal grant funding. On September 14, 2004, the Council approved an appropriation of \$691,000 in design funds. Design will begin in November 2004, and will be completed in December 2005. Construction will begin July 2006 and will be completed in November 2007.

Project Name:

Design and Construction of Matthew Henson Trail, Phases 1 and 2

PDF Name:

Trails: Hard Surface Design & Construction (M-NCPPC PDF 768673) & Matthew Henson Trail (MCDPWT PDF 500400)

Park Name:

Matthew Henson State Park & Greenway Address:

Project Description:

This project funds design and construction of approximately 2 miles of the Matthew Henson Trail known as Phases 1 and 2. Phase I extends from the existing Rock Creek Hiker-Biker Trail at Winding Creek Park to Connecticut Avenue. Phase 2 continues east to Georgia Avenue. Phase 3, which runs from Georgia Avenue to Alderton Road will be construced under a future contract and is tracked as a separate project. The funding for design of Phases 1 and 2 is in M-NCPPC's "Trails: Hard Surface Design and Construction" PDF, No. 768673. Construction funding for Phases 1 and 2 is in the Montgomery County Department of Public Works and Transportation's "Matthew Henson Trail" PDF, No. 500400. M-NCPPC will be the lead agency in all phases of the project. An MOU (Contract 240476) outlines the agreement between M-NCPPC and MCDPW&T.

file of the second	Park/Facility Open	4/2006	4/2006		

The Planning Board approved the facility plan on April 3, 2003. In May 2003, the County Council added design funding for Phase 3 and construction funding for the entire project to the DPW&T CIP. Design of Phases 1 and 2 began in July 2003 and will be completed in Fall 2004. The design is presently 90% complete, and is being reviewed by the project team. MSHA must make a final determination on the design of the at-grade pedestrian crossing of Viers Mill Road. Construction for Phases 1 and 2 of the project is scheduled to begin in Spring 2005 and to be completed in Winter 2005. Coordination will be required with a Montgomery County Department of Environmental Protection stream restoration project in the same corridor.

Project Name: Design and Construction of Skateboard Park

PDF Name: Olney Manor Skateboard Park

Park Name: Olney Manor Recreational Park

Address:

Project Description:

This project provides a skateboard park in Olney Manor Recreational Park, located at 16601 Georgia Avenue, Olney, Maryland. Skateboarding is an individual sport in which a board made of plywood or plastic polymer is placed on wheels and used for movement, performing flip tricks, grinds, jumps, etc. The skateboard park includes a fenced asphalt area for placement of skateboarding equipment; a small building for on-site supervision, fee collection, and equipment storage; a viewing area outside the fence; a vehicular drop off area; pedestrian pathway access from adjacent parking, the swim center building, and the Georgia Avenue sidewalk; security lighting; and landscaping and screening. The scope of work includes demolition and reconstruction of a nearby parking lot in order to achieve the grade required for the skateboard facility.

Kesa Tree	Park/Facility Open	7/2005	10/2005		Open facility in 10/2005 or 4/2006.

Project Status

On December 4, 2003, the facility plan was approved by the Board. In May 2004, the State approved a \$350,000 bond bill for the project and the Council approved a PDF adding \$350,000 of local funding and a \$50,000 contribution from the community, for a total project budget of \$750,000. The facility plan envisioned a 90 x 160 foot asphalt pad with pre-manufactured modular skate equipment on the surface. In July, 2004, advocates communicate a strong preference for a concrete skate park. Staff has completed researching design and construction methods to build a concrete skate park within budget. The project schedule has been delayed beyond the projected July 2005 opening. In November 2004, a preliminary site improvement plan will be completed and a design/build RFP will be advertised. The concrete skate park construction will begin in June 2005 and be completed in September 2005. Operational start-up will begin in October 2005 or April 2006 as determined by the Montgomery County Department of Recreation.
