Dear Mr. Kreger:

You have inquired about the intentions of the Oakview Pool to cooperate with Montgomery County Public Schools (MCPS) on shared parking for the pool and future school, known as Northeast Consortium Elementary School #16.

We have been approached by MCPS with a proposal to lease approximately one acre of the existing pool parking lot for use by the school during hours when the pool is not in operation. MCPS is offering to completely reconstruct the parking lot, maintain it and pay a reasonable lease fee for its use. While the terms of the final deal are still under negotiation, I and the Board of the Oakview Recreation Corporation are very interested in cooperating with MCPS representatives in this endeavor.

Thank you for your consideration of these remarks.

Sincerely,

Paul Fischetti, President  
Oakview Recreation Corporation
