Figure 10. This 1949 map shows the land surrounding Moreland in its present, subdivided state, leaving Moreland on a one-half-acre plot. The earlier private drive has been established as a public road named Moorland Lane, which connects Moreland, shown circled, to the ca.1860s farmhouse at the north end of the lane.

Verbal Boundary Description

The property is bounded by a 138.67-foot boundary along Moorland Lane to the east; the 141.64-foot property line along Lot 7 to the north, the 137.49-foot property line to the west, and the 209.48-foot property line along Lot 5 to the south, as shown on the property deed dated October 28, 2002 (Montgomery County Land Records, Liber #10518, Folio #001). See Sketch Map 2.

Boundary Justification

The legal boundaries of Lot 6, Block 1 are used as the boundaries of the nominated property. Moreland's original property lines, enclosing 11.64 acres, were diminished when it was parceled and developed during the 1930s and 1940s. Therefore, the boundaries considered for this nomination correspond with the one-half acre lot that was house's immediate environs dating to the end of its period of significance in 1944.
