Re: Water and Sewer Category Change
 Derwood Bible Church at White's Farm

Dear Mr. Soukup:

On behalf of Derwood Bible Church, this letter is to request a water category change for a 225.78-acre property at the northeast quadrant of the intersection of Laytonsville (MD-108) and Griffith Roads. The property is zoned RDT and is currently in agricultural use. The current water and sewer categories are W-6, S-6. We are requesting water and sewer category changes to W-3, S-3, respectively.

The proposed use of the property is a 1,500 seat church as well as several other ancillary uses including sports and education facilities and housing for church related services. The proposed uses would be served by well and septic. The specific scope of the use program is still evolving, however it is apparent that the demand will exceed the 1,500 gallons per day (GPD) and 5,000 GPD thresholds for water and septic systems, respectively, and therefore require designation as Multi-Use systems.

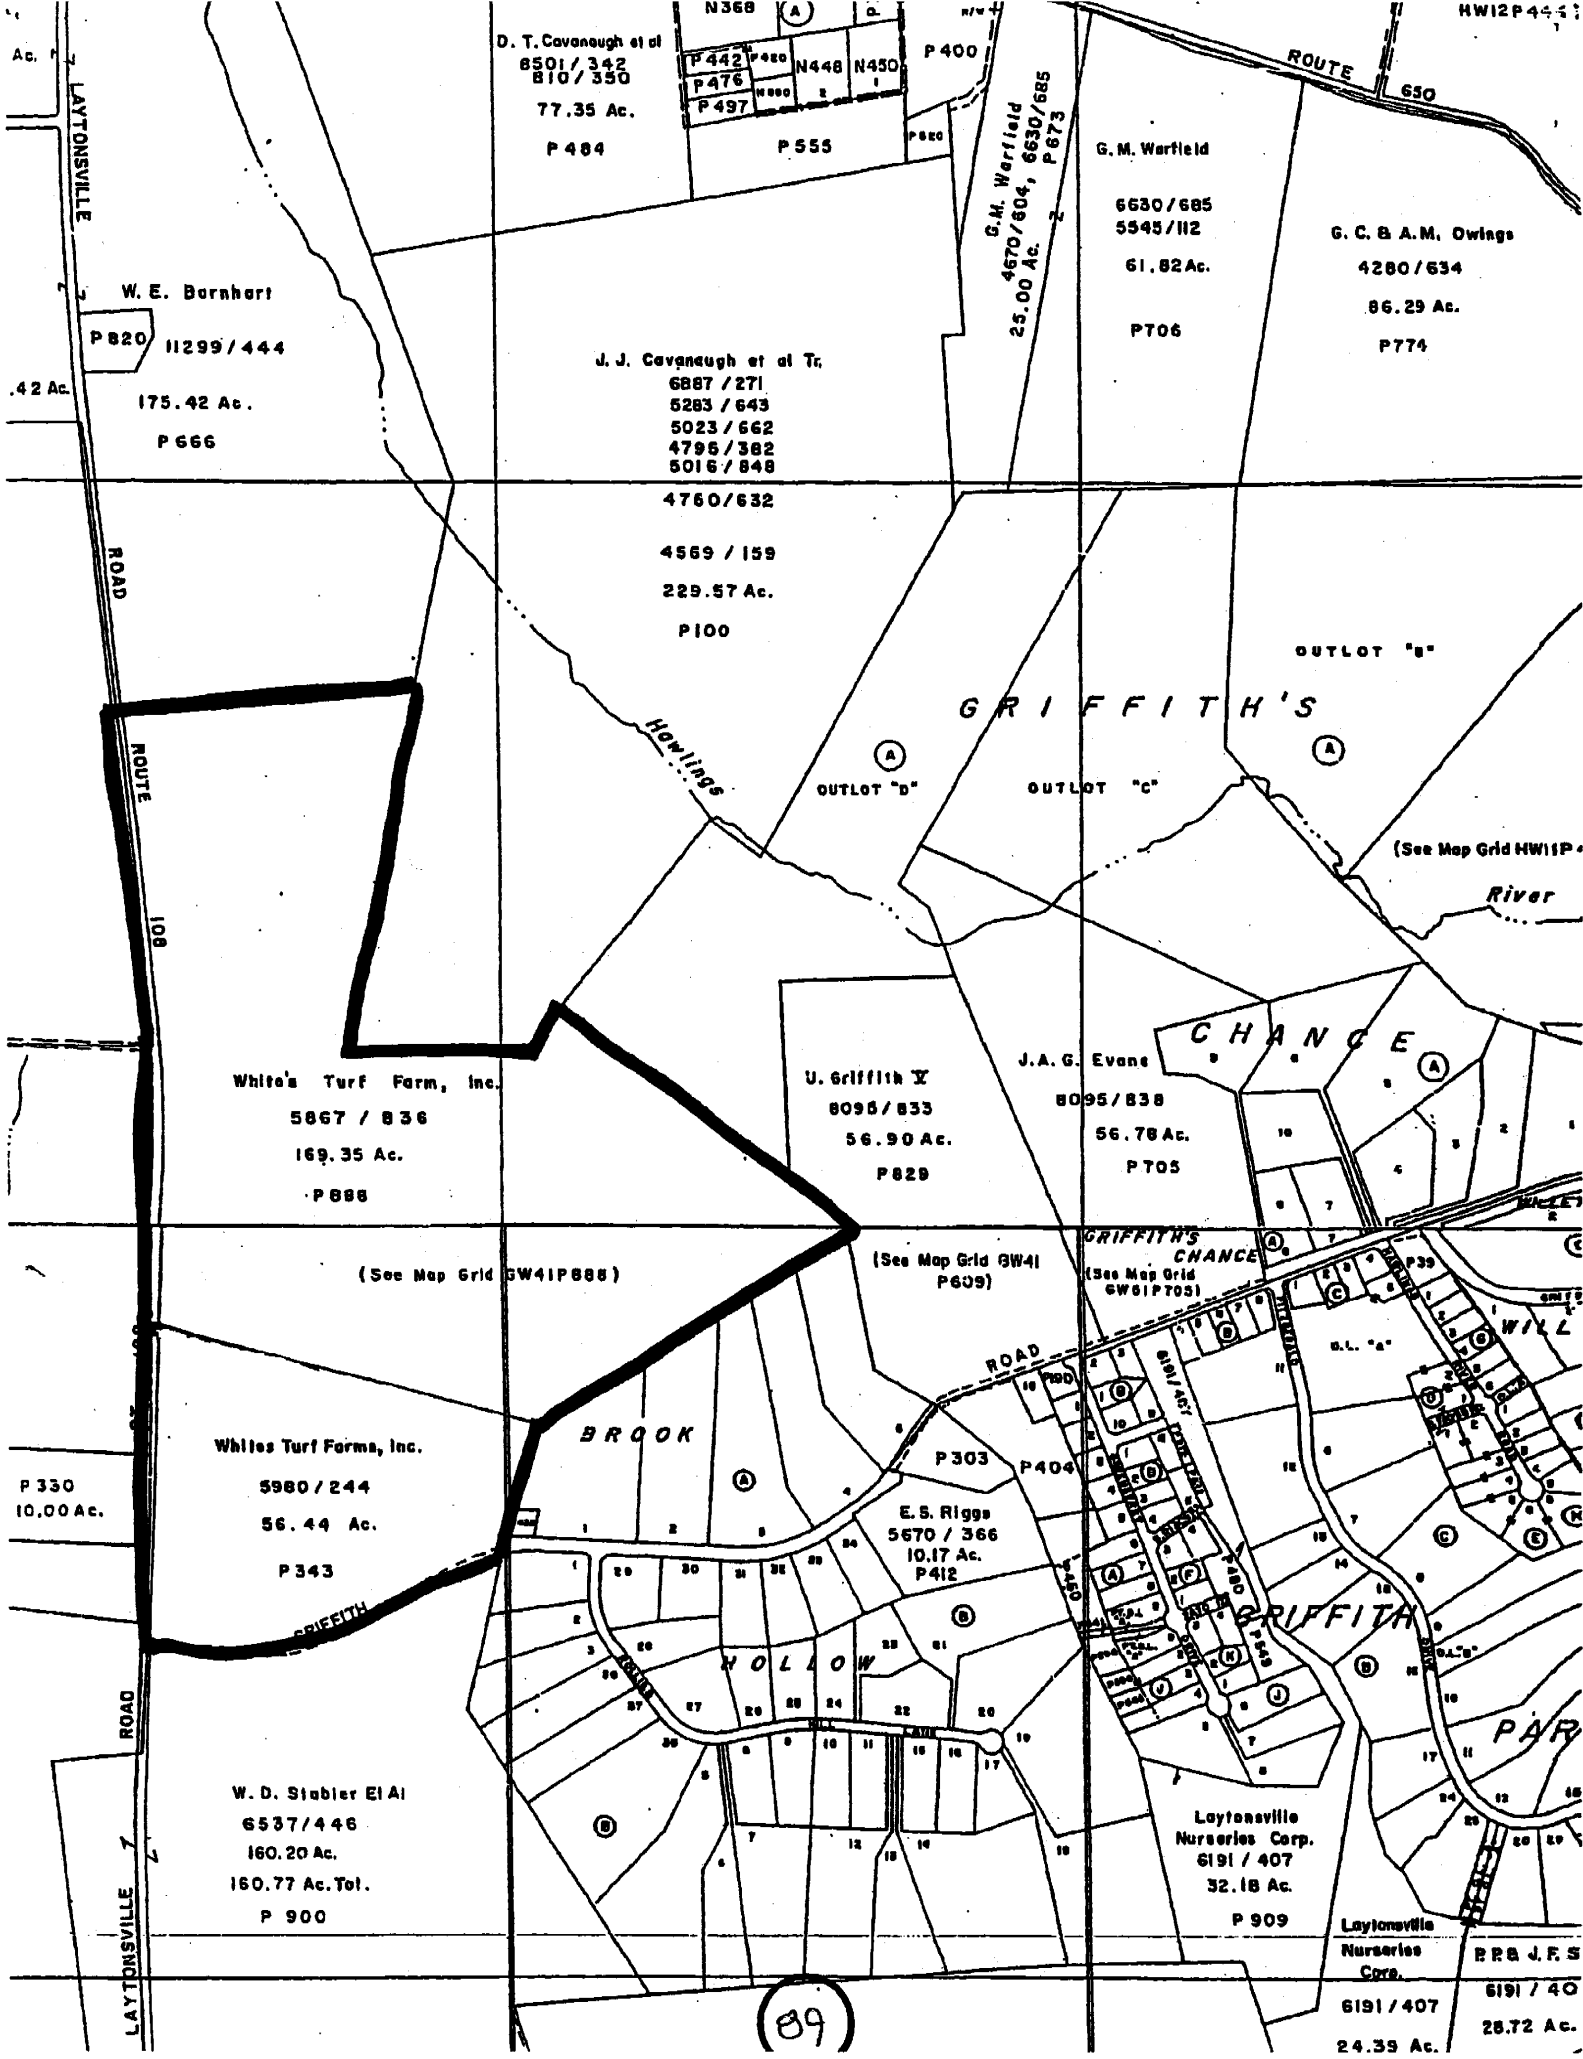

Enclosed for your use are copies of the signed application form, tax map, air photo, and ADC location map. We will forward additional program and layout information to you as it becomes available. If you need any further information regarding this application, please do not hesitate to contact me at 301-444-8282.

Sincerely,

John Sekerak Jr., ASLA, AICP
