SUMMARY OF PARK RELATED CIP ISSUES	STAFF RESPONSES
,	Completion of Laytonia has been delayed one year to FY11 in order to consider private partnership proposals. Completion of the South Germantown Soccerplex is dependent on the Maryland Soccer Foundation securing additional funding.
tennis or indoor baseball facilities.	The Department has an established policy for seeking and accepting public-private proposals for joint venture programming and/or development of park facilities. The golf driving range at South Germantown Recreational Park and the planned racquet and fitness center at the same location are two recent examples of public-private projects. We continue to accept and look for opportunities to expand the recreational opportunities for Montgomery County residents through joint venture projects.
• • • • • • • • • • • • • • • • • • • •	These initiatives are funded in the Ballfield Initiatives PDF and received additional infrastructure maintenance funding.
2. Dave Magill, Western RAB, Member	
Repair Capital Crescent Trail railroad bridge.	This project is included on a list of candidate projects in the trail renovation program.
	Renovation of Hadley's Playground will be included in the facility planning for the expansion of the Falls Road Local Park parking lot scheduled for FY07-08.
damage.	Erosion in this SVP has been studied by MCDEP and there are projects in design to address the problem. M-NCPPC has a stream restoration project planned for south of Mass. Ave. for winter, 2005.
In addition, consider a Brookside Garden's type of facility, including an <b>arboretum</b> , in the upcounty area.	A public garden featuring native plants is proposed in the long-range plan for Ovid Hazer Wells Recreational Park, but is not proposed for funding in the six year program. A nature center was envisioned in the S. Germantown Rec. Park Master Plan, but facility planning is not proposed in this six-year CIP.
	Approximately \$50 million is proposed in the upcoming six year program for repair and renovation projects.
senior, youth and beginners. Reduced fees for seniors. Need a countywide community forum to provide citizen input and public accountability for the various public golf courses in the county.	The Department has two golf courses, Sligo Golf Course and the Executive Nine at Needwood Golf Course that are conducive for beginners, seniors, and youth. Also, as funding permits, golf courses crews are establishing forward tees at its larger facilities to enhance the playability for less accomplished players. The Department currently has reduced fees for seniors during the weekdays. A public advisory board has been suggested to provide input on all our facilities. Staff is open to a more formalized approach for seeking citizen input, but we have a number of mechanisms in place whereby we seek and receive regular customer feedback.
	The property is on a candidate list for acquisition, and the project has been included on a list of candidate projects for facility planning.
Provide connector trails between Long Branch Community Center and library to the commercial center. Supports LB Task Force recommendations for better Long Branch Community Center sign on Piney Branch Road, and accessibility, and	These improvements are proposed as part of the Long Branch Task Force recommendations and will be funded by Montgomery County Department of Housing and Community Affairs. Infrastructure maintenance continues to be an operating budget priority.
Renovate Flower Avenue Local Park. Fund renovations of 10 playgrounds per year.	Flower Avenue Urban Park is proposed for facility planning in FY08, and the playground proposed for immediate renovation in FY06-07. Funding is proposed for renovation of 10 playgrounds per year.
Construct a hiker/biker trail within Pinecrest Local Park and improved park	Staff visited this site and feels that installation of a loop trail could be considered when ballfield renovation occurs.
5. Eric Gallun, Mid-County RAB, Member	
·	Playground will be renovated in FY06 and temporary repairs will be made to existing infrastructure in the park in FY06. The facility plan was moved forward to FY08.
	Matthew Henson is on schedule, pending final permit approvals. Muddy Branch hard surface trail has been placed as a candidate project in facility planning. Brookside nature
	center boardwalk has been placed as a candidate project in facility planning. Brookside nature center boardwalk has been placed as a candidate project under minor new construction.
connector trails throughout the County are needed.	Connector trails are proposed for funding at current levels, pending completion of the trails connector analysis.
Dredge Lake Needwood.	Design for dredging Lake Needwood will be done in FY07. Construction will require funding in future CIP.
Renovate/rebuild Wheaton Community Center. If relocation is necessary, it must	Roof replacement scheduled in FY06 & 07. Future use of facility will be part of functional
	planning effort. Olney Manor Skateboard Park is fully funded and is scheduled to open in summer 2006.
	Local park repair and renovation is a primary focus of the FY07-12 CIP.
7: Joy Austin-Lane, Heather Mizeur, City/Takoma Park  Renovate Takoma-Piney Branch Local Park. Park renovation and play equipment	Takoma-Piney Branch Local Park is recommended for design and construction in FY07

SUMMARY OF PARK RELATED CIP ISSUES  Opposes skateboard facility at Fenton Gateway but supports acquiring adjacent land to expand park. Area residents prefer passive open space as the sector plan recommends. Explore other options for a skateboard park in the Silver Spring area.	STAFF RESPONSES  The property is on a candidate list for acquisition, and the project has been included on a list of candidate projects for facility planning pending acquisition.
18: Frank Hatten, Mont. Co. Tennis Association: Replace/renovate Wheaton indoor tennis facility; construct 6 new courts at Cabin John indoor facility; replace lights at Olney Manor outdoor courts; construct a new indoor facility in Up-County area; renovate outdoor courts on a prioritized tier system. Maintain current facilities and build more.	Design is completed for outdoor tennis court lighting at Olney Manor Recreational Park, with construction proposed as soon as funding is available. Grant applications have been made to expedite construction. The skin on the Wheaton Tennis Bubble has exceeded it's life expectancy. Enterprise staff is evaluating possible alternatives and will invite public comment. Construction of additional courts at Cabin John and other sites is dependent upon future available funds in the Enterprise program.
19. Kathy Jentz, Individual Opposed to skateboard park at Fenton Gateway Park. Clean up and landscape Fenton Street Park immediately. Purchase adjacent lots and improve park with gardens and artwork as sector plan recommends.  20. Margle Richards, Winding Orchard Citizen's Association	The property is on a candidate list for acquisition, and the project has been included on a list of candidate projects for facility planning pending acquisition.
Fund improvements and renovations detailed in the <b>Brookside Gardens Master</b> Plan.	A new project is proposed to implement phases of the Brookside Master Plan.
21. Not present.  22. Richard Miles, Washington Chiefs Youth Services Org.  This organization plays a 7 game season at Mont. Blair High School football field, but often experience locked gates and restrooms; have no access to snack bar facilities, etc. Want same privileges given to SS-Takoma Thunderbolts who use the baseball facilities at MBHS. Washington Chiefs volunteers help maintain field during the season yet are not allowed access. Want M-NCPPC to work cooperatively with them.	Forwarded to Park Permits for discussion with Mr. Miles.
23. Mary Bradford, Long Branch Task Force Acquire parkland when available, such as Takoma Academy and land adjacent to existing parks; rehab Flower Avenue and Upper Long Branch local parks which have drainage problems and need new play equipment; install new sign on Piney Branch Road for Long Branch Rec. Center; need connector path from rec. center; replace trash can throughout area parks; increase police patrols; install trail markers in stream vallevs.	Flower Avenue Urban Park is proposed for facility planning in FY08, and the playground proposed for renovation in FY06-07. Renovation of Upper Long Branch playground will be completed in FY06.
24. Ann Grossman, Individual Opposes skatepark at Fenton Gateway Park. Supports sector plan to provide open space for community.	The property is on a candidate list for acquisition, and the project has been included on a list of candidate projects for facility planning pending land acquisition.
25. Austin Steo, Mid-Atlantic Off-Road Enthusiasts (MORE)  Develop network of paved and natural surface trails providing safe biking and no contact with motor vehicles. Trails should be open to equestrians, hikers and bikers. These networks include: an Olney loop; a Rock Creek loop; Matthew Henson - Wheaton Regional - Sligo Creek trail; and various connector trails. Support hard surface trails in Rock Creek corridor; trail bridge at Hoyles Mill and Fairland; Rachel Carson trail should be multi-use; renovate Cabin John trail.	There are numerous trail projects proposed for facility planning, design and construction in the capital program, including the Magruder Branch trail, two trail projects at Black Hill Regional Park, the Matthew Henson trail, trail connectors, and renovations for Sligo Creek and Rock Creek trails.
26. Not present. 27. Jack Cochrane, Montgomery Bicycle Advocates	N/A 1 TO SEE THE SECOND
Sligo Creek Parkway and Beach Drive are too narrow for car and bike traffic. Widen roadways and improve driver awareness. Pave parking areas so gravel doesn't spill out onto road; build Muddy Branch and Matthew Henson hard surface trails; ICC bike trail should go through NW Branch and Paint Branch stream valley parks.	Matthew Henson trail is funded. Muddy Branch hard surface trail is proposed as a candidate project in facility planning and is the next hard surface trail priority. Although the Master Plan of Bikeways endorses bike shoulders on Sligo Creek Parkway and Beach Drive, environmental impacts, particularly construction in floodplains, needs further review. Gravel parking areas may be paved in conjunction with lifecycle road resurfacing projects. ICC bike trail under negotiation with MD. State Highway Admin.
