Memorandum

TO: Montgomery County Planning Board

FROM: Bill Mooney, Acting Deputy Director

SUBJECT: Development Review Fees

After some consideration of this issue, we have concluded that we should defer the discussion of fees until at least January 5th and have so noted on the agenda. The fees should be related to the supplemental appropriation and therefore should not presume that the Counsel will approve the appropriation. Therefore, we are going to recast the fees in a discussion for the 5th in a way that presents the option to increase based on the supplemental action by the Counsel. The fees would not be effective until after the supplemental is approved.
