Council, Chapter 59 of the Zoning Ordinance

**STAFF RECOMMENDATION:** APPROVAL WITH AMENDMENTS

**PURPOSE OF THE TEXT AMENDMENT**

To require site plan review for certain commercial projects in the C-2 zone, under  
certain circumstances

**BACKGROUND**

The C-2 zone requires site plan review only in certain circumstances (mainly for building height related reasons). In order to provide surrounding neighborhoods with more detailed site design for large C-2 projects prior to construction (beyond the public facilities required for preliminary plan approval), the sponsor of the text amendment proposes to require site plan approval prior to the issuance of a building permit for any commercial development of over 200,000 square feet in gross floor area located in a C-2 zone that did not obtain a building permit prior to January 30, 2006.

## **ANALYSIS**

The proposed text amendment languages is as follows:

**59-C-4.358. C-2 zone—Site Plan Review.**

Notwithstanding any provision to the contrary, site plan review under 59-D-3 is required as a precondition for the issuance of a building permit for any commercial use in the C-2 zone with over 200,000 square feet of gross floor area that did not receive a building permit before January 30, 2006. This requirement for site plan review does not apply to any commercial use in the C-2 zone with over 200,000 gross square feet of gross floor area that received a building permit before January 30, 2006.

The zoning text amendment proposes to require site plan review for certain commercial projects in the C-2 zone over 200,000 square feet of gross floor area. The maximum FAR for commercial projects in the C-2 zone is 1.5. Therefore, any property that fits the criteria will be located on a minimum of 3.06 acres. There are currently 46 locations in the County of at least 3.06 acres (either individual parcels or combined with adjacent parcels), most of which currently have buildings on them. In addition, there are currently nine shopping centers in the County (not including the Cities of Gaithersburg and Rockville) that are greater than 200,000 square feet in gross floor area and zoned C-2 (see Attachment 2). It should be pointed out that a typical shopping center is about .22 FAR, so that 200,000 square feet of single story retail translates into about 20 or 25 acres.

**The text amendment language is unclear on whether additions to existing development over 200,000 square feet would require site plan review. The language is also unclear as to whether 200,000 square feet applies to a single use or all uses combined. Further, does the "building permit" mean the building permit for the entire retail center, or could it mean a building permit for any pad site, inline store or anchor? Currently, it could be interpreted to apply to any retail center that currently exceeds 200,000 square feet and is proposing a new pad site, because the pad site is a use that did not receive a building permit before January 30.**

**After discussions with County Council staff, it was suggested that the aforementioned comments be included in the staff report to be discussed during the Council worksession on this text amendment.**

**Site Plan Requirements in Commercial Zones**

Site plan review is required for floating zones (where rezoning is required and more flexibility in development procedures is balanced with compatibility with surrounding properties). The floating zones include C-T, O-M, C-P, C-3, H-M and C-Inn zones. Site plan review is also required in several euclidean zones where there is a proposed height above that of the zone (in the C-O and C-2 zones) and in the C-6 zone where the minimum lot area is 40 acres (this zone provides a more flexible approach to the design and development of low-density regional commercial centers). Additionally, the C-1 zone requires site plan review for development or redevelopment of any portion of land zoned C-1 where C-1 zoning is in excess of 15 acres at one location.

As a background comparison, staff is also providing language below that distinguishes between the C-1, C-2 and C-3 Zones.

It is the purpose of the C-1 zone to provide locations for convenience shopping facilities in which are found retail commercial uses which have a *neighborhood orientation* and which supply necessities usually requiring frequent purchasing with a minimum of consumer travel. The C-2 zone (as described below in the policy discussion) provides locations for general commercial uses serving the *local and regional market*. The C-3 zone is a *floating zone* (while C-1 and C-2 are Euclidean) and is intended to provide a method for the orderly grouping and spacing of commercial development on properties which abut or front on, and have access to, *heavily travelled major highways* with a planned or existing pavement of at least 6 lanes, or on properties which are *recommended for such zoning on approved and adopted master plans*. This zone is intended to provide sites for commercial activities that may *require large land areas* and do not depend upon adjoining uses for reasons of comparison shopping and pedestrian trade. The frequency, design and location of points of direct access to the highway must be controlled by *restricting development to service road access*, thereby minimizing interference with through traffic movements.

### **Policy Basis**

The purpose of the C-2 zone is *to provide locations for general commercial uses representing various types of retail trades, businesses and services for a regional or local area. Typical locations for such uses shall include: central urban commercial areas, regional shopping centers and clusters of commercial development. A further purpose of this zone is to promote the effective use of transit facilities in Central Business Districts by encouraging housing with commercial uses in close proximity to Metro stations located in Central Business Districts.*

As stated above, the C-2 Zone provides locations for various commercial uses serving both the local and regional market. As the County comes closer to build-out, many of our commercial and residential areas begin to blend together. As such, it becomes even more crucial that major development/redevelopment of commercial areas receives adequate public review to ensure compatibility with surrounding residential and non-residential areas.

The zoning text amendment seeks to ensure compatibility with surrounding uses by requiring site plan approval, which includes findings by the Planning Board of compatibility, safety, efficiency and attractiveness with adjacent properties. Although the exact amount of square footage that triggers the site plan requirement is certainly debatable, the 200,000 square foot number certainly represents a significant amount of development, particularly in a redevelopment scenario. Other factors such as the type of land use (for example, commercial office versus retail), the size of the parcel and traffic generation should also be considered in the review.

## RECOMMENDATION

As stated above, detailed review and opportunity for public input for the County's more intensely developed commercial areas is a viable planning goal, especially since most shopping centers are located in close proximity to residential neighbors. However, the proposed language deserves additional analysis to clarify the intent. Staff recommends that the Planning Board support the text amendment with a revision to clarify the intent, as outlined by staff comments (in bold) on page two of this memorandum, to be established during the County Council worksession.

**AN AMENDMENT** to the Montgomery County Zoning Ordinance for the purpose of:

- requiring site plan review for certain commercial projects in the C-2 zone, under certain circumstances; and
- generally amending the C-2 zone.

By amending the following section of the Montgomery County Zoning Ordinance, Chapter 59 of the Montgomery County Code:

DIVISION 59-C-4	“COMMERCIAL ZONES”
Section 59-C-4.35	“C-2 zone-Purpose and development standards”
ARTICLE 59-D	“ZONING DISTRICTS—APPROVAL PROCURES”

**EXPLANATION:** *Boldface* indicates a heading or a defined term.  
*Underlining* indicates text that is added to existing laws by the original text amendment.  
*[Single boldface brackets]* indicate text that is deleted from existing law by the original text amendment.  
*Double underlining* indicates text that is added to the text amendment by amendment.  
*[[Double boldface brackets]]* indicate text that is deleted from the text amendment by amendment.  
\* \* \* indicates existing law unaffected by the text amendment.

***ORDINANCE***

*The County Council for Montgomery County, Maryland, sitting as the District Council for that portion of the Maryland-Washington Regional District in Montgomery County, Maryland, approves the following ordinance:*

1           **Sec. 1. DIVISION 59-C-4 is amended as follows:**

2           **DIVISION 59-C-4. COMMERCIAL ZONES.**

3           \* \* \*

5           \* \* \*

6           **59-C-4.357. C-2 zone—Purpose and development standards.**

7     Residential development in the C-2 zone pursuant to 59-C-4.351(b) must include  
 8     Moderately Priced Dwelling Units (MPDUs) in accordance with the provisions of  
 9     Chapter 25A.

10          **59-C-4.358. C-2 zone—Site Plan Review.**

11     Notwithstanding any provision to the contrary, site plan review under 59-D-3 is  
 12     required as a precondition for the issuance of a building permit for any commercial  
 13     use in the C-2 zone with over 200,000 square feet of gross floor area that did not  
 14     receive a building permit before January 30, 2006. This requirement for site plan  
 15     review does not apply to any commercial use in the C-2 zone with over 200,000  
 16     gross square feet of gross floor area that received a building permit before January  
 17     30, 2006.

18           **Sec. 2. ARTICLE 59-D is amended as follows:**

19          **ARTICLE 59-D. ZONING DISTRICTS—APPROVAL PROCEDURES.**
