GUIDE FOR WIRELESS SERVICE PROVIDERS

Montgomery County Code Section 2-58E requires sponsors of wireless communications facilities to submit annually revised antenna site planning information for proposed system construction or enhancement within Montgomery County :

The following information is required by the County, and should be contained within each submission. We understand that in many cases, site specific information may not be available until late in the implementation process. However, the County desires that the information be complete and submitted as early as possible so that any potential environmental impact can be minimized.

1. In what geographical areas of Montgomery County will new service be provided, or existing service (requiring additional site facilities) be upgraded? (Be specific, such as "Rte. 270 corridor from Shady Grove to Comus", or "Along Rte. 29 from the D.C. line to Colesville", or "at bottom of Piney Branch stream valley in Takoma Park", etc.)

Where will new facilities be required? (Locate as accurately as possible, preferable within 0.2 mile or less, or specific site, if known.)
3. If sites are known, state addresses (include latitude, longitude and GEL) and how each site is presently utilized; i.e., building (and type), open (or wooded) lot, zoning classification, type of neighborhood, whether there is an existing tower or monopole, name of potential landlord, etc.
4. If any new structures are planned, describe each planned configuration (monopole, self-support lattice tower, guyed tower, building face, concealed within other structure, water tank, etc.), height, lighting (if any), and enclose picture of a similarly configured structure.
5. Planned interconnection infrastructure with the rest of your network (telco line, fiberoptic, microwave, etc.)?
6. The maximum RF power that will be radiated from each site, and at what height above ground?
7. Is co-location with other wireless service providers contemplated, either as host or tenant? Who?
8. How much physical capacity on each proposed structure will be available for co-location by other service providers? Will antenna space be offered to other parties for rent?
9. Any other information relevant to the County tower database.

MONTGOMERY COUNTY, MARYLAND
APPLICATION FOR WIRELESS COMMUNICATIONS

SITE COORDINATION

DATE: _____ **NUMBER:** _____

Applicant Name: _____

Address: _____

Contact Person and Phone No.: _____

DBA: _____

Proposed Installation:
(Description - existing/new: monopole, rooftop, water tank, guyed tower, self-support tower, etc.):

Address/City: _____

Site Name: _____ **Zone:** _____

Site Owner/Landlord: _____

Lat/Long: _____ **GEL:** _____

Antenna Height AGL: _____

TX	ERP	RX	BW
_____	_____	_____	_____

Frequencies to be used: _____
(Additional pages may be attached)

FCC Emission Designator: _____

Antenna(s) physical description, including patterns, gain and orientation (include drawings):

Network Information Sheet

The network upgrade this weekend went extremely well. We installed the new server, software and setup all the workstations. We do expect some minor problems on Monday and Tuesday, so your patience is appreciated. I will be in the building all day cleaning up problems. Please call me to report any troubles.

Login Names

Your login name is still your last name. When you first login, user your name with **NO PASSWORD**. You then be asked to set your password. Type in the password once, then again to confirm it. The password *does not* need to be the same as it was on the old server, in fact, you should change it. But if you want to it can be the same.

Exceptions- Users that did not use last names before, your login name has been changed to last name. If your name is different, I have written the new one on the top of this page.

Network Drives Summary

F: System Drive- DO NOT USE

H: Your Private Drive (used to be G:)

I: Temporary Share area (used to be H:\users\share)

NOTE: The I drive MUST be cleaned up. I transferred the data, but has a lot of JUNK in it. Please look through the directories and move anything that is yours to a more appropriate place. In 2 weeks I will start cleaning it myself. If you need any help deciding where to put things, please see me. After we clean it up it will be used for TEMPORARY storage only.

N: Shared Project area. This is for Long-term project data that needs to be shared with others in your group. For PPD this is what was formerly J:\Projects. There is a directory for the directors office, Technology Team, Enterprise, and Budget. You can only see the one appropriate to the group you belong to.

Y: Applications directory

Z: Utilities directory

Things to check

1. Check to make sure you are getting all your drive letters, and that all of your data is where it should be.
2. Check to make sure you are printing to the closest available printer.
3. Check to make sure that all of your applications are working properly.

Note: We have removed all DOS based applications, except for cc:Mail. All of you that have Windows 95 have the Corel WordPerfect suite (this includes WordPerfect, Quattro Pro, and Presentations. If you are using Windows 3.1, We have setup WordPerfect 6.1 On your hard drive. For a few users that have special applications that need paradox or other dos Application, please see me.
