Corridor 10: Veirs Mill Road

Veirs Mill Road is a commuter corridor, with the flow of traffic largely balanced in the eastbound and westbound directions between the two, large central business districts, Wheaton and Rockville. Smaller commercial districts exist at Randolph Road and just west of Twinbrook Parkway. Residential uses fill in much of the rest of the corridor. Service roads that provide access to residential properties exist along many sections of the roadway, consuming a significant part of the right-of-way.

The Veirs Mill Road corridor experiences some of the highest existing transit volumes in Montgomery County and for that reason has long been considered for bus enhancements. However, opportunities to increase ridership are limited because development outside of the CBDs is constrained.

The corridor recommendation is for one or more dedicated lanes between the Rockville and Wheaton Metro Stations, where feasible.

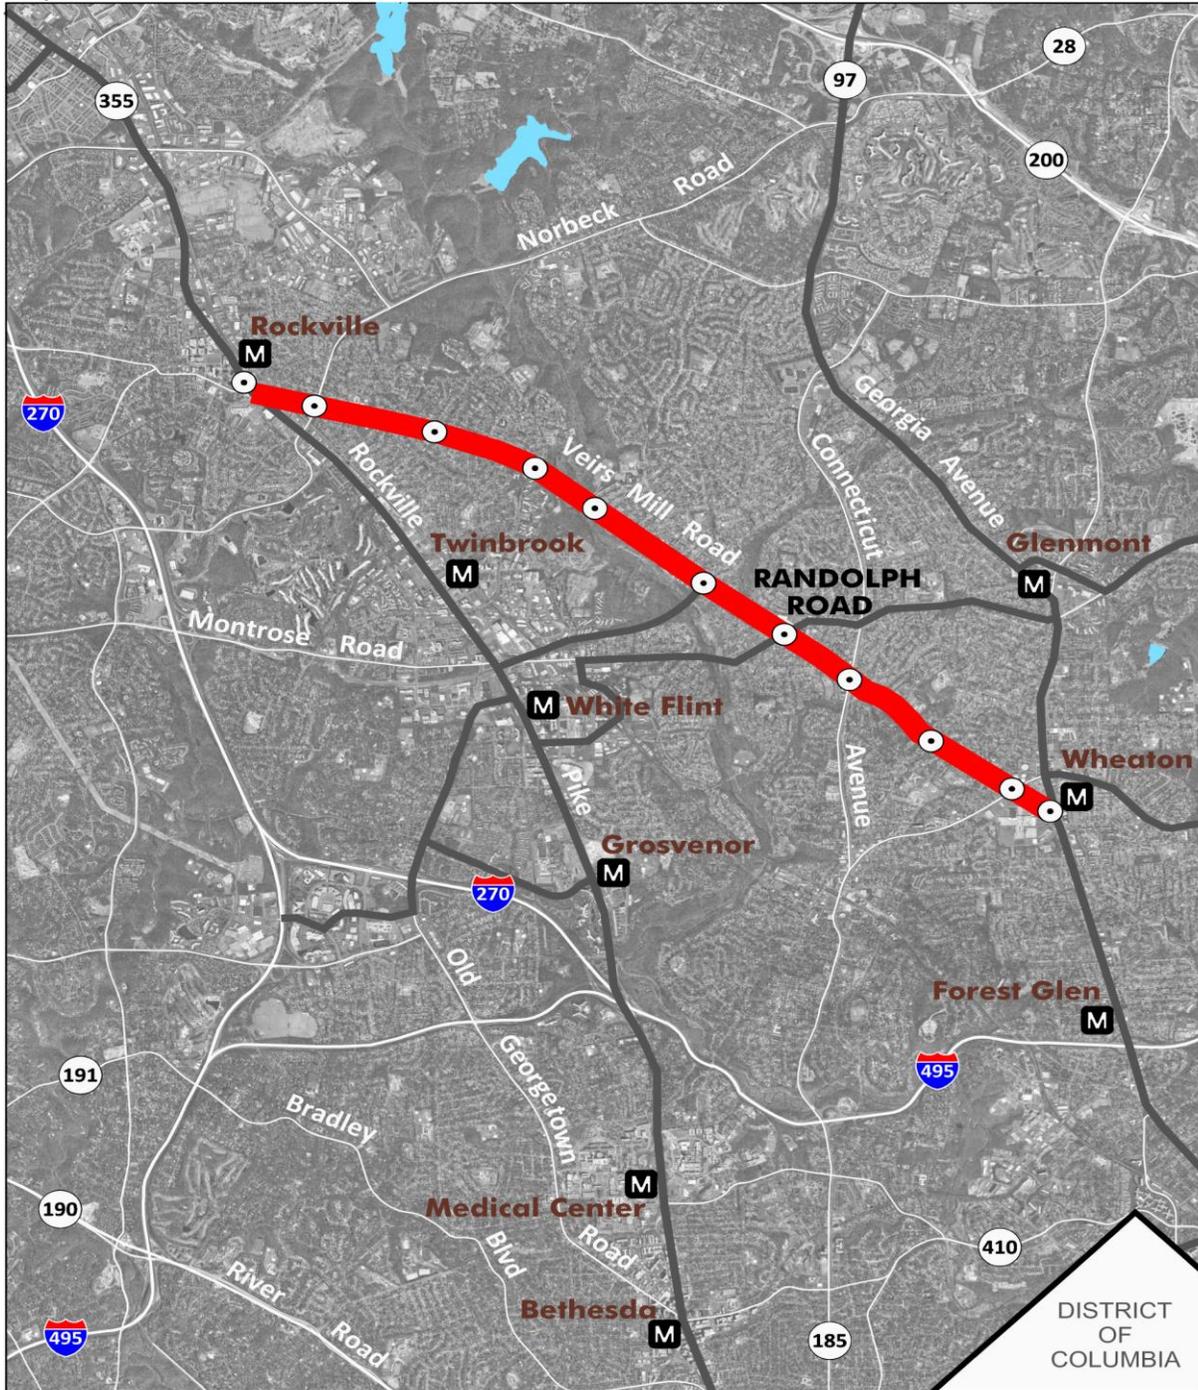

Station Locations

Rockville Metro Station
MD 586 and Norbeck Road
MD 586 and Broadwood Drive
MD 586 and Twinbrook Parkway
MD 586 and Aspen Hill Road
MD 586 and Parkland Drive
MD 586 and Randolph Road
MD 586 and MD 185
MD 586 and Newport Mill Road
MD 586 and MD 193
Wheaton Metro Station

Stations within the City of Rockville must be confirmed in the City's master plan.

Veirs Mill Road	Randolph Rd	Ferrara Ave		120	1
Veirs Mill Road	Ferrara Ave	Connecticut Ave		120	1
Veirs Mill Road	Connecticut Ave	Newport Mill Rd		120	1
Veirs Mill Road	Newport Mill Rd	Galt Ave		120	1
Veirs Mill Road	Galt Ave	Ennalls Ave		129	1
Veirs Mill Road	Ennalls Ave	Wheaton Metro Station		129	1

* 2040 forecast ridership for the segment of Veirs Mill Road within the City of Rockville warrants a one-lane busway, however this Functional Plan cannot make changes or require dedication within that jurisdiction. The busway recommendation can only become effective upon adoption of a subsequent City master plan update that would include recommendations on the right-of-way and the number of travel lanes.

** Reflects the minimum right-of-way, and may not include land needed for spot improvements such as turn lanes and stations.
