Planned Program for 2017

Montgomery County Sustainability Committee and Content Work Groups have identified tasks for enhancement of the program in 2017 and 2018 as follows:

1. Establish a unified approach to recycling disposed tires in our Parks.
2. Direct IT department to develop a memo/instruction sheet on instructing employees to change the default setting on their computers to automatically print double sided and/or with no banner sheet.
3. Redevelop and provide staff access to a convenient, user friendly reuse store for employees to recycle and reuse office supplies, furniture, and materials before purchasing new supplies.
4. Implement projects and programs to recycle, reuse, and reduce solid wastes used by M-NCPPC employees and patrons to meet or exceed the regulatory mandates established by government regulations. Recycling and disposal of materials shall comply with relevant federal/State safety regulations.
5. Analyze Recycling and Refuse signage in Regional and Recreational Parks to determine where bi-lingual signs can be placed.
6. Analyze existing inventory of waste and recycle containers and scheduled collections on an annual basis in all Regional and Recreational Parks to determine if recycling containers exist for both Mixed Paper (MP) and Commingled materials (CM) at all collection sites. Analyze collection schedules for waste and recycling containers and what vehicles (either rear-loading compactor trucks or pick-up trucks) will be used to empty containers.
