RE: Proposed changes for Armenian Youth Center  
Preliminary Plan Review No. 1-00009.

As an adjacent property owner (parcels #92 and parcels #19) located northwest of of the proposed Armenian Youth Center we respectfully request the following changes to the current plan:

1. Move parking area to front of proposed building.

Proposed lighted parking area is located directly in front of our home. This 160 space lighted parking area is inconsistent with the RC zone. Since the proposed location of the parking area is higher in elevation, it is not possible to adequately shield the proposed lighting.

2. Provide deeded control of the Landscape Buffer Area to the Murray's.

This area will shield the existing residential uses from the high activity of the Youth Center and is best maintained under the control of the residential property owner.

3. Move SWM outfall to permit runoff to flow from the southwest corner of SWM pond. Murray's agree to grant necessary outfall easement.

Residential property (Parcel #92, 14413 Darnestown Road) is negatively impacted by the location of the SWM pond outfall as currently shown.

4. Show SWM plan in accordance with rules required of plans with adjacent residential property.

Current plan does not provide required SWM facility.

5. MNCPPC should correct The Record Plat to show lots as approved by the Planning Board.

On July 27, 1995 the MNCPPC board approved a subdivision of the original 43.70 acre lot to include:

- 6 residential lots and associated open space totaling 30 acres and
- two outlots for a church and elderly housing uses.

Subsequently, MNCPPC recorded the residential lots, but recorded less open space than was directed by the Planning Board.

Our concern is that by not allocating the entire 30 acres to the 6 residential lots, the AYC will be allowed to establish a much larger structure with more extensive uses than was agreed upon at the 1995 hearing.

The AYC was granted approval for a smaller church in 1995. The AYC let the approval expire and in 2002 came back for approval of a new plan with more extensive use using a portion of the required residential open space.
