Park CIP Project Status – Report of Delayed Projects July 2005

Oiney Manor Skate Park	Olney Manor Athletic Field Light Replacement	Hoyle's Mill Local Park	Project Name National Capital Trolley Museum
Design and construction of a 14,000 square foot concrete skate park in Olney Manor Recreational Park	Replacement of aging field lighting at five athletic fields in Olney Manor Recreation Park	This project constructs a new local park in Germantown to include a softball field, basketball court, playground, picnic shelter, and parking lot.	Project Description Design and construction of site work, car barn, and track extension.
July 2005	April 2005	June 2005	Approved Completion Date June 2004
June 2006	April 2006	March 2007	Projected Completion Date January 2007
\$	12	21	(months) 37
The project was delayed during the design phase in Summer 2004 when skate park advocates lobbied to change the design from a modular skate park to a concrete skate park. The facility plan, approved in December 2003 envisioned a modular skate park. The project was further delayed in February 2005 when bids received for the concrete skate park exceeded budget. The project has been redesigned and the bids have been restructured. A revised design-build RFP for the skate park was issued in May 2005 and new proposals were received in June. An IFB for site work was issued on July 1, 2005. The skate park is now projected to open in June 2006.	Delays have occurred during design due to complexities of electrical conduit crossing PEPCO right-of-way. Additionally, bid protests have occurred in recent lighting projects regarding approval of sports lighting manufacturers leading to greater focus on our performance specifications. Because the construction window occurs only during the months of November to March when the athletic fields are not used, the delays meant deferring the project one year.	This project is funded by the West Germantown Development District and is to be built by Artery. The developer has estimated the cost of the park beyond what was conceived in the development district documents, and staff is pursuing a solution.	Comments This project is a partnership with the National Capital Trolley Museum. Public funds are limited to \$375,000, with remaining funds coming from bond bills and grants. The project is being managed by the partner, the National Capital Trolley Museum, who have experienced numerous and lengthy delays with funding, permitting, and contracting.

Matthew Henson Trail Phase 1 & 2	Design and construction of the Mathew Henson Trail between the Rock Creek Trail and Georgia Avenue.	December 2007	July 2007	7	Delays have occurred for two reasons: 1) The Maryland State Highway Administration has not yet approved a pedestrian crossing of Veirs Mill Road; and 2) The Maryland Department of Environment has extended review of the wetlands and waterway permit due to pressure from citizens opposed to the project.
Montgomery Village Local Park	Construction of a new park including a baseball / softball	June 2005	October 2005	4	The project was delayed due to the extended time it took to relocate Pepco poles, and also redesigning efforts for the accel/decel lane to
0001	field, a soccer / lacrosse field, a				provide a minimum clearance for a 12" WSSC water line.
	playground, picnic area, and 100 car parking lot.				
Woodstock	Design and construction of	June 2005	October 2005	4	Delays occurred when bids came in over budget in February 2005. The
Equestrian Center	west side vehicular access and parking	·			bid was restructured and we received a better price by riding a Montgomery County contract.
Jesup Blair Local	Complete renovation of Jesup	June 2005	August 2005	2	The delays are due to providing power to the site by Pepco, and also the
Park Renovation	the expansion of Montgomery	-			delivery of the pre-cast concrete cap for stonewalls by six weeks:

Project Name: Design and Construct National Capital Trolley Museum

PDF Name: National Capital Trolley Museum

Park Name: NORTHWEST BRANCH RECREATIONAL PARK

Address: 14901 Layhill Road
Aspen Hill

Project Description:

PUBLIC/PRIVATE PARTNERSHIP - This project funds the construction of the new facilities for the National Capital Trolley Museum in Northwest Branch Recreational Park. Phase 1A includes site grading for the roadways, parking lots, track extension, visitor's center, and display car barn. Phase 1B includes planning, design, and construction of a display car barn. Phase 1C includes design and construction of the railway track extension. The Park CIP provides \$375,000 for design and the construction for 1A. The project is funded by \$425,000 in state bonds and TEA21 funds to the Museum.

	Park/Facility Open	06/2004	01/2007		Subject to change depending on completion of carbarn.

Project Status:

Park Construction Permit No. 2002.08 was issued on 6/13/02 for grading and construction of a trolley building. In September 2002, a notice to Proceed was issued to Pleasants Construction for the site grading, sediment control, etc., and a notice to proceed was also issued to Kane Construction for the building. Pleasants has completed their contract. Overall work under the permit is 50% complete. A building permit for the car barn had been submitted to MCDPS but the permit expired. Building plans have been revised for resubmittal for a building permit. Final building permit is pending detailed approval for the steel structure. The Museum has experienced problems with their contractor for the building resulting in extended delays to the project.

Project Name: Construct Hoyles Mill Village

PDF Name: West Germantown Development District

HOYLES MILL LOCAL PARK Park Name:

Address: Schaffer Road

Project Description:

This project provides local park improvements at Hoyles Mill Village Local Park (16.8 acres) in Hoyles Mill Village Subdivision. The park will be developed and dedicated by developers pursuant to subdivision/site plan requirements and West Germantown Development District requirements. Improvements for Hoyles Mill Village Local Park include an adult softball field with fencing and seating, basketball court, one playground, access paths, parking, landscaping, picnic shelter, site furnishings, and stormwater management.

	Park/Facility Open	06/2005	03/2007		

Project Status:

Hoyles Mill Village, provided by Artery, was approved at Plan Review on August 13, 2002. The Hoyle's Mill construction was anticipated to begin in Spring 2005. In March, 2005, the developer objected to the cost of the improvements. In May 2005, agreement was reached with the County regarding enforcement of the provisions of the contract with the developer. On May 23, 2005, a meeting was held with the developer, which resulted in a commitment to negotiate the program and design for the park to reduce cost. Exchange of cost information with the developer is ongoing.

Project Name:

Replace and Upgrade Ballfield lights at fields 2,3,4,&5

PDF Name:

Ballfield Initiatives

Park Name:

OLNEY MANOR RECREATIONAL PARK

Address: 16601 Georgia Avenue

Olney

Project Description:

This project replaces aging lights on Fields 2-5 at Olney Manor Recreational Park and upgrades the electrical power distribution system throughout the park. The new Ballfield lighting will feature energy efficient fixtures and glare control lights that will significantly reduce light spillover.

Construction documents are complete for all fields and for the upgrade of the incoming site electrical service. Geotechnical tests have been performed for each light pole footing, and existing utilities have been field located to identify any potential conflicts for routing of new utilities. Coordination with PEPCO is complete and consultant and PM moving towards final approval by PEPCO. Review of Lighting System performance specifications and Special Conditions by Purchasing has been completed. The project was advertised and the bid opening date is set for August 9, 2005. Fields will be available for construction to start at the end of the Fall '05 season (by Nov. 1st) and will be completed by the Spring '06 season. However, the site work can start 30 -60 days prior to closing on the fields.

Design and Construct Skateboard Park Project Name:

Olney Manor Skateboard Park PDF Name:

OLNEY MANOR RECREATIONAL PARK Park Name:

Address: 16601 Georgia Avenue

Olney

Project Description:

This project provides a skateboard park in Olney Manor Recreational Park, located at 16601 Georgia Avenue, Olney, Maryland. The skateboard park includes a fenced concrete area for skateboarding; a small building for on-site supervision, fee collection, and equipment storage; a viewing area outside the fence; a vehicular drop off area; pedestrian pathway access from adjacent parking, the swim center building, and the Georgia Avenue sidewalk; security lighting; and landscaping and screening. The scope of work includes demolition of existing parking and reconstruction of adjacent remaining parking areas.

Project Status:

In January 2005, a design-build RFP was advertised, incorporating a preliminary site improvements plan. On February 15, 2005, two bids were received, but were rejected due to cost. The project will be re-bid as two sub-projects, one for the concrete skateboard facility and one for the site improvements. On May 12, 2005, the concrete skateboard facility was bid as a design-build. Two proposals were received and are being evaluated. On July 1, 2005, the site improvements construction was bid. Responses are due on August 1, 2005. In October 2005, the overall skate park construction is scheduled to begin. In summer 2006, the facility will be completed. The skate park will be operated by the Montgomery County Department of Recreation.

Project Name:

Construct Matthew Henson Trail, Phases 1 & 2

PDF Name:

Matthew Henson Trail (MCDPWT PDF)

Park Name:

MATTHEW HENSON STATE PARK

Address: Veirs Mill Road to Georgia Avenue

Wheaton

Project Description:

This projects funds construction of approximately 2 miles of the Matthew Henson Trail known as Phases 1 and 2. Phase 1 extends from the existing Rock Creek Hiker-Biker Trail at Winding Creek Park to Connecticut Avenue. Phase 2 continues east to Georgia Avenue. Phase 3, which runs from Georgia Avenue to Alderton Road is designed and tracked as a separate project. The funding for design of Phases 1 and 2 is in M-NCPPC's "Trails: Hard Surface Design and Construction" PDF (No. 768673). Construction funding for Phases 1 & 2 is in the Montgomery County Department of Public Works and Transportation's "Matthew Henson Trail" PDF (No. 500400). The M-NCPPC will be the lead agency in all phases of the project. An MOU (Contract 240476) outlines the agreement between the M-NCPPC and MCDPW&T.

	Park/Facility Open	12/2006	6/2007		

Project Status:

The bid package was completed and advertised, but the construction project was cancelled. The application for the MDE permit for construction in wetlands and waterways was made in 8/03 and is still pending. The MDE requested that Phases 1, 2, and 3 should be combined under one permit. DPS sediment control permit application was made in 11/03 and is still pending, DPS access permit is approved, DPS floodplain permit application was made in 2/04 and is pending. Staff met with MDE on 1/28/05 to resolve issues and conducted a field walk in March 2005. The DNR approval letter for work on State owned lands will follow the MDE approval. MSHA decision on Viers Mill Road pedestrian crossing is pending. A letter from MSHA, dated 4/18/05, stated that crossing at Turkey Branch would be a "last alternate" but this crossing is the only possible route to make the trail accessible. Bid date is being held until futher information is forthcoming on the wetland permit. All three phases will be bid as one construction project. Coordination will be required with a Montgomery County Department of Environmental Protection stream restoration project in the same corridor.

Project Status:

Park Entrance: Entrance walls have been completed on the west (Greenburg) side. Entrance walls on the east (Rickman) side have been designed and will be constructed in spring 2005.

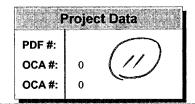

East Side Access and Parking: The first-phase parking on the east side, funded by Mr. Rickman, was completed in spring 2004 by the Central Maintenance Division. In July 2005, the Central Maintenance Division will finalize construction of the bio-retention facilities adjacent to the east side driveway.

West side Access and Parking: On February 18, 2005, bids for construction were received for the west side parking and driveway. The bids were rejected due to cost. In March 2005, the project was re-bid through a ride of a County contract and in May 2005, a Notice to Proceed was issued for construction. Construction began in June 2005 and will be completed in August 2005.

Trails: Trails have been cleared and two bridges installed on the west side. On the east side, two bridges will be installed in fall 2005. Trail signage will be installed in

MD 28 Crossing: SHA installed the crossing of MD 28 at the northern end of the park.

Design & Construct Jesup Blair Local Park Renovation Project Name:

PDF Name: Jesup Blair Local Park Renovation Park Name: JESUP-BLAIR LOCAL PARK

Address: 900 Jesup Blair Dr. Ga.Ave.& D.C. Line

Silver Spring

Project Description:

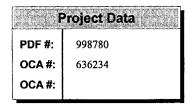

The project renovates a 14.4-acre local park located on Georgia Avenue in Silver Spring at the District of Columbia line. Park facilities -- detailed in the facility plan -- include a play area, two tennis courts, basketball courts, soccer field, outdoor performance area, paths for pedestrians and bicycles, driveway improvements, parking, lighting, landscaping and site furnishings. Renovation will occur in coordination with expansion of Montgomery College-Takoma Park Campus. Montgomery College will construct a pedestrian bridge over the B&O Railroad. The bridge will increase neighborhood access to the park and connect the existing campus with proposed college buildings adjoining park property and fronting on Georgia Avenue. Joint use of some park facilities is anticipated.

Project Name: Design & Construct Rock Creek Trail Pedestrian Bridge

PDF Name: Rock Creek Trail Pedestrian Bridge

Park Name: ROCK CREEK STREAM VALLEY UNIT #6

Address: Gaynor Rd., N.W. to Veirs Mill Rd.

GARRETT PARK

Project Description:

The Rock Creek Hiker-Biker Trail extends 15 miles from Beach Drive at the District of Columbia line to Lake Needwood in Rock Creek Regional Park. The trail currently crosses Veirs Mill Road at grade at its signalized intersection with Aspen Hill Road. To the north of Veirs Mill Road, the trail is on street for approximately 0.2 miles traversing Aspen Hill Road, Adrian Street, Baltic Avenue, and finally the access drive to Aspen Hill Local Park before continuing northward as a trail.

The proposed pedestrian bridge would provide a grade separated crossing for the Rock Creek Hiker-Biker Trail over Veirs Mill Road and remove the need for the on street section described above. It would also provide the opportunity for local residents of the Aspen Hill community to cross Veirs Mill Road on the bridge to access bus transit or other destinations without crossing at grade at the busy intersection of Veirs Mill Road and Aspen Hill Road.

Project Status:

In May 2004, the County Council included this project in the FY 05-10 CIP, contingent upon the award of matching Federal funds from the Transportation Enhancement Act (TEA). On July 20, 2004, the state announced approval of TEA grant funding for the project in the requested amount of \$2.37 million dollars. Construction must begin by July 2006 and be completed in November 2007 to satisfy the requirements of the MOU with the State. On September 14, 2004, the Council approved an appropriation of \$691,000 in design funds. Design began in January 2005, and will be completed in February 2006. Construction will begin August 2006 and will be completed in December 2007. A revision to the PDF for a less than 10% cost increase for construction will be requested in the FY07-12 CIP.

Project Name: Reconstruct Broadacres Local Park

PDF Name: Broadacres Local Park

Park Name: BROADACRES LOCAL PARK Address: 710 Beacon Road Silver Spring

Project Description:

The Planning Board approved a facility plan for the renovation of the Broad Acres Local Park in January 2004. The park renovation will be designed in FY05 and FY06 and constructed in FY07 soon after completion of the school renovation in July 2006. The existing park consists of three softball fields and a playground. New park facilities may include a multi-use court, a multipurpose field that replaces one of the existing softball fields, trails, landscaping, and a new entrance. The park plan creates potential opportunities for interpretive and educational areas.

	Substantial Completion	5/2007	5/1/07		
	Park/Facility Open	6/2007	6/30/07		

Project Status:

In-house design began in Fall 2004. The stormwater management concept plan was approved by the Montgomery County Department of Permitting Services on 6/17/05. The detailed design is 50% complete. If funding were available for the park construction before FY07, the park construction could overlap the school construction, and the park would be open to the public earlier.

Project Name: Design and Construct expansion of East Norbeck Local Park

PDF Name: East Norbeck Local Park Expansion EAST NORBECK LOCAL PARK Park Name:

Address: 3131 Norbeck Road Norbeck

Project Description:

East Norbeck Local Park is a 25-acre park located on the north side of Norbeck Road (MD 28) east of Georgia Avenue. A proposed 300 foot right-of-way for the Intercounty Connector is located along the north and eastern property line. The park originally consisted of 10 acres and was developed in the early 1970's. The existing facilities include a softball field, a baseball field, a soccer field overlay, two lighted tennis courts, a lighted basketball court, a playground, a picnic shelter with restrooms, and a small asphalt parking lot. Proposed facilities include path network connecting the parking lot to the facilities; a natural surface trail; picnic pavilion; restrooms, lighted tennis courts, playground, soccer/lacrosse field, larger softball field, and realigned baseball and softball fields so that they no longer overlap.

Project Name:

Design and Construct Laytonia Recreational Park

PDF Name:

Laytonia Recreational Park

Park Name:

LAYTONIA RECREATIONAL PARK

Address: MUNCASTER MILL ROAD

ROCKVILLE

Project Description:

This project provides for design of Laytonia Recreational Park. The Park is located at the northwest quadrant of the intersection of Muncaster Mill Road and Airpark Road. The property consist of almost 51 acres, a portion of which is reserved for a regional County facility. Proposed facilities include four baseball fields: two regulation size, two little-league size, central press-box and restroom structure, driveways and parking, maintenance shed, lighted basketball court, inline hockey rink, two picnic shelters, pathways, and landscaping. A proposed roadway will be constructed to tertiary standards from Airpark Road through the Park to serve the future library and provide access to the adjoining Covenant Life Church property to the west. Construction funding is proposed for FY08-10.

Design and Construct Phase 1B of Ovid Hazen Wells Recreational Park Project Name:

PDF Name: Ovid Hazen Wells Recreational Park

OVID HAZEN WELLS RECREATIONAL PARK Park Name:

Address: 12001 SKYLARK ROAD

CLARKSBURG

Project Description:

Ovid Hazen Wells Recreational Park is a 290-acre park located west of Ridge Road (Route 27) and abutting Skylark Road in Clarksburg, Maryland. The Master Plan for Ovid Hazen Wells Recreational Park phases park development. Phase I provides active recreation facilities along Skylark Road. Phase II contains a large special recreation area with a variety of recreation facilities (many of which are dependent on the sewer that will become available in FY05 or FY06) and includes construction of an access road from Route 27. Phase III entails the development of a Natural Recreation Area along the eastern section of the park.

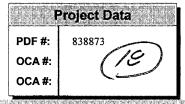

Phase I development is further subdivided into two parts. Phase IA development is complete and provides one baseball field, one softball field with two soccer field overlays, and parking. Phase 1B will include two softball fields, parking lots, internal access road, playground, trails, stormwater management, (including adjustments to the stormwater management for Phase 1A), landscaping, and an area set aside for possible construction of an indoor/outdoor pool complex or additional ballfield. The stormwater management for the site will be designed and constructed to accommodate future construction of the Damascus-Clarksburg indoor pool by the Department of Recreation. M-NCPPC will complete design and obtain permits for Phase 1B in FY04. Construction is scheduled to begin in FY05.

	Substantial Completion	08/06	08/2006		
	Park/Facility Open	09/06	9/2006		

Project Status:

Design began on February 6, 2003 and was completed in May 2004. In July 2004, coordination was required by DPS with adjacent development for stormwater management in the Skylark Road right-of-way. In August 2004, permit approvals were received. In November 2004, final plan sign-off was completed. Five bids were submitted and opened on March 2, 2005. The low bid was over budget and additional POS funding was requested of the County Council. On May 3, 2005, the Council approved the request for additional POS funds, and on June 15, the Board of Public Works approved the POS funding increase. Construction is scheduled to begin in July 2005 and will be completed in October 2006.

Design and Upgrade Utilities at Pope Farm Nursery Project Name:

Pope Farm Nursery Utilities Upgrade PDF Name:

Park Name:

Address: 7400 Air Park Road POPE FARM NURSERY Derwood

Project Description:

This project provides a new water line, sewer line, and drip irrigation system to serve the facilities at Pope Farm Nursery, located in the Rock Creek Stream Valley, at 7400 Airpark Road in Gaithersburg, Maryland. The site includes 60 acres in nursery production, an office building, five heater greenhouses, four over-wintering houses, three equipment storage buildings, a farmhouse, and historic cemetery. The Pope Farm Nursery, established in 1974, provides high quality herbaceous and woody plants in support of the development, maintenance, beautification and conservation of over 30,000 acres of Montgomery County parkland. The facility supplies the majority of trees, shrubs, annuals, perennials, and interior plants for the park system. Current plant production provides for new park installation and after-care, rehabilitation of older parks, environmental restoration, reforestation and production for park enterprise facilities and public gardens.

Date of Report:

Project Name: Renovate Winding Creek Local Park PDF Name: Winding Creek Local Park Renovation Park Name:

WINDING CREEK LOCAL PARK

Address: 12326 Dewey Road

Wheaton

Project Description:

Winding Creek Local Park (12.5 acres), located on Dewey Road in Wheaton, between Rock Creek Stream Valley Units 4 and 5, provides two full-sized soccer fields, double basketball court, one playground, community access trails, a portion of the Rock Creek Trail, and associated parking. Much of the park is located in the flood plain. The Washington Suburban Sanitary Commission (WSSC) will construct the forty-two inch Rock Creek relief sewer through the Winding Creek Local Park causing a loss of recreational opportunities for two years. As part of the Rock Creek Sewer Relief Project through Rock Creek Stream Valley Park Units 4, 5, and 6, WSSC is required to reconstruct the facilities in Winding Creek Local Park in accordance with a reconstruction plan developed by M-NCPPC and approved by the Planning Board. WSSC expects to complete construction of the relief sewer in January 2005.
